STI to build new Academic Centers in Sta. Mesa and San Jose del Monte

The STI Education Services Group, Inc. (STI ESG) gears up for the influx of college freshmen in school year 2018-19 by continuing the network's expansion plan of putting up new campuses in key locations nationwide.

Adding to the roster of soon-to-rise prime hubs for academic excellence, STI broke ground for two Academic Centers in Sta. Mesa, Manila and San Jose del Monte City, Bulacan on May 23, 2017 in its goal to make real life education more accessible to the Filipino youth.

With an estimated value of P655M, the 10-storey STI Academic Center Sta. Mesa will stand on a 4,252-square-meter property along P. Sanchez Street, Sta. Mesa in Metro Manila and can accommodate 10,000 senior high school and college students.

On the other hand, the nine-storey STI Academic Center San Jose del Monte can house 6,000 students and has an allotted budget of P518M. It will rise on a 4,178-square-meter lot area at the Altaraza Town Center, a 109-hectare master planned urban community of the Ayala Land, located in Quirino Highway, San Jose del Monte City, Bulacan.

"Our expansion strategy reflects our strong commitment to education. Just like what we have done in the past, we are building new academic centers to transfer existing schools to bigger and better facilities as part of our approach to holistic education," said STI President and COO Peter K. Fernandez.

The new campuses will be operational by next school year and will be equipped with state-of-the-art facilities including air-conditioned classrooms with flat screen TVs, industry-grade laboratories, simulation rooms, up-to-date libraries, and sports facilities, among others.

Both campuses will also feature energy-saving LED lights, a rainwater harvesting system, and a sewage treatment plant that recycles used water by discharging treated wastewater.

Fernandez noted that STI ESG decided to shift its focus to a more organic expansion by continuously improving the facilities as well as the delivery of education for its students through highly conducive learning environments.

Just recently, STI began construction of new campuses in Tanauan, Lipa, and Pasay-EDSA and will break ground soon in Davao which will be completed by June 2018.

True to its promise of innovative and relevant education, STI also embarked on the senior high school program that develops college-ready, job-ready, and life-ready individuals. Likewise, it shifted to an outcome-based education curriculum (OBE) to prepare students for the 21st century.

In time for the institution's 35th founding anniversary next year, STI forges ahead and continues to thrive for academic excellence. From its humble beginnings on August 21, 1983 as a computer training center with two branches, STI now has over 76 campuses with diversified programs in Information Technology, Hospitality and Tourism Management, Arts and Sciences, Engineering, Business and Management, and Senior High School.
