MANAGEMENT REPORT

Group History and Structure

STI Education Systems Holdings, Inc.

STI Education Systems Holdings, Inc. (“STI Holdings” or the “Parent Company”) was originally established in 1928 as the Philippine branch office of Theo H. Davies & Co., a Hawaiian corporation. It was reincorporated as a Philippine corporation in 1946 as part of the Jardine-Matheson group. After many years of operations as part of the Jardine-Matheson group, STI Holdings was sold to local Philippine investors in 2006. In March 2010, it became part of the Tanco Group of Companies.

STI Holdings is the holding company within the Tanco Group that drives investment in its education business. It is a publicly-listed company in the Philippine Stock Exchange (“PSE”) and its registered office address and principal place of business is 7th Floor, STI Holdings Center, 6764 Ayala Avenue, Makati City. Unless indicated otherwise or the context otherwise requires, reference to the “Group” are to STI Holdings and its subsidiaries.

In June and August 2012, the Board of Directors and stockholders of the Parent Company, respectively, approved the share-for-share swap transaction (the “Share Swap”) between the shareholders of the Parent Company and the shareholders of STI Education Services Group, Inc. (“STI ESG Shareholders”) and the corresponding increase in the Company’s authorized capital stock from 1,103,000,000 shares with an aggregate par value of ₱551.5 million to 10,000,000,000 shares with an aggregate par value of ₱5 billion. The Securities and Exchange Commission (“SEC”) approved both the Share Swap and increase in authorized capital stock in September 2012.

In the latter part of August 2012, the Board of Directors of STI Holdings approved the offering and issuance by way of a follow-on offering of up to a maximum of 3 billion common shares of the Parent Company. The Offer, comprised of Primary Offering, Secondary Offering and the Over Allotment Option were all executed and completed in November 2012 where a total of 2,900,000,000 shares were issued following its listing in the PSE.

As of June 30, 2021 and June 30, 2020, STI Holdings has outstanding shares totaling 9,904,806,924 out of its authorized capital stock of 10 billion shares.

STI Holdings has 4 subsidiaries as of June 30, 2021, namely: STI Education Services Group, Inc. (“STI ESG”), STI West Negros University, Inc. (“STI WNU”), Information and Communications Technology Academy, Inc. (“iACADEMY”), and Attenborough Holdings Corporation (“AHC”).

Consolidation of STI ESG into STI Holdings

In August 2012, STI Holdings’ shareholders approved an increase in share capital from 1,103,000,000 shares with an aggregate par value of ₱551.5 million to 10,000,000,000 shares with an aggregate par value of ₱5 billion and a share swap agreement with the STI ESG Shareholders. The SEC approved the agreement and the increase in the authorized capital of the Parent Company in September 2012. By the end of October 2012, the consolidation of the two companies was completed.

In view of the increase in its authorized capital stock and pursuant to the Share Swap, STI Holdings issued 5,901,806,924 shares to STI ESG Shareholders in exchange for 907,970,294 common shares of STI ESG. As a result, immediately after the Share Swap, the STI ESG Shareholders who joined the

Share Swap owned approximately 84% interest in STI Holdings while STI Holdings increased its shareholdings to 96.0% of the total issued and outstanding capital stock of STI ESG.

In November and December 2012, STI Holdings subscribed to 2.1 billion STI ESG shares. In July 2013, the Parent Company acquired an additional 328,125 shares. STI Holdings' ownership of STI ESG is at 98.7% as of March 31, 2020 and 2019.

Acquisition of West Negros University

On October 1, 2013, STI Holdings acquired 99.45% of the issued and outstanding common shares and 99.93% of the issued and outstanding preferred shares of West Negros University Corp., now known as STI West Negros University, a leading university in the City of Bacolod in Negros Occidental.

STI WNU offers a wide variety of programs and complements the courses offered by the Parent Company's other subsidiary, STI ESG.

The acquisition is part of the planned expansion of the Parent Company. It not only widened its course offerings at the tertiary level but also provided STI Holdings another entry into basic education which is the focus of the government's K to 12 program, and into the graduate school level which is vital in uplifting the development of human capital in the country.

In May 2015, the SEC approved the change in the corporate name of West Negros University Corp. to STI West Negros University, Inc.

Acquisition of iACADEMY

On September 27, 2016, STI Holdings purchased One Hundred Million (100,000,000) iACADEMY shares or 100% of iACADEMY's issued and outstanding capital stock from STI ESG. STI Holdings also subscribed to ₱100 million of the ₱400 million increase in the authorized capital stock of iACADEMY. On November 9, 2016, the SEC approved the increase in the authorized capital stock of iACADEMY. As of said date, the authorized capital stock of iACADEMY is at ₱500 Million with ₱200 million subscribed and fully paid by STI Holdings. As a result, iACADEMY is now a 100% subsidiary of STI Holdings.

AHC

The Parent Company became a stockholder owning 40% of AHC in November 2014 following the SEC approval of the increase in the authorized capital stock of AHC. In February 2015, STI Holdings acquired the remaining 60% ownership of AHC from various individuals making it a 100% owned subsidiary.

AHC is a holding company which is a party to the Joint Venture Agreement and Shareholders' Agreement ("the Agreements") among Philippine Women's University ("PWU"), Unlad Resources Development Corporation ("Unlad") and the Benitez Group. Under the Agreements, AHC is set to own up to 20% of Unlad. AHC is also a party to the Omnibus Agreement it executed with STI Holdings and Unlad.

On March 1, 2016, AHC executed a Deed of Assignment wherein AHC assigned to STI Holdings its loan to Unlad, including capitalized foreclosure expenses, amounting to ₱66.7 million for a cash consideration of ₱73.8 million.

Acquisition of Neschester

STI Holdings also purchased all of the issued shares of Neschester owned by the former stockholders of said corporation totaling Five Hundred Fifty Thousand (550,000) common shares (the “Sale Shares”) at an aggregate purchase price of ₱173.2 million. As a result of STI Holdings’ subscription to the Subscribed Shares and the purchase by STI Holdings of the Sale Shares, STI Holdings now owned one hundred percent (100%) of the issued, outstanding and authorized capital stock of Neschester.

The major asset of Neschester was a parcel of land in Makati City with an area of 2,332.5 square meters. On September 20, 2016, iACADEMY had its groundbreaking ceremony of its Yakal Campus on this parcel of land located along Yakal Street, Makati City. On September 7, 2017, the Board of Directors (“BOD”) of Neschester and the Board of Governors of iACADEMY approved the merger of the two companies with iACADEMY as the surviving corporation. The stockholders of both companies confirmed, ratified and approved the merger on the same date. The Plan of Merger between iACADEMY and Neschester and the related increase in the authorized capital stock of iACADEMY were filed with the SEC on January 24, 2018 and January 30, 2018, respectively. On April 10, 2018, the SEC approved the Plan of Merger and the increase in authorized capital stock of iACADEMY.

Total receivables amounted to ₱486.3 million, posting a decrease of ₱68.7 million from ₱555.0 million as at June 30, 2020. DepEd, through the Private Education Assistance Committee, facilitates the transfer of funds to the participating schools. Accounts receivable from CHED for TES amounted to ₱38.2 million and ₱23.6 million as at June 30, 2020 and 2021, respectively. On March 17, 2021, STI ESG executed a memorandum of agreement with DBP to implement the DBP Resources for Inclusive and Sustainable Education Program (“DBP RISE”). The program grants financial assistance to deserving students from the ranks of underprivileged Filipino families who aspire to pursue studies in DBP-accredited public and private tertiary schools. DBP RISE covers (1) the total cost of tuition fees for all year levels of the entire course or program based on the partner school’s tuition fee structure which is determined at the beginning of the first term of the course or program for SY 2020-2021, and (2) student support fund which covers other school fees, miscellaneous fees, and living allowance that will be determined and set by DBP. Receivables from DBP related to DBP RISE amounted ₱2.9 million as at June 30, 2021. Receivables from students are normally collected on or before the date of major examinations while receivables from DepEd, CHED and DBP are expected to be collected in full within the next fiscal year. Meanwhile, improvements in collection efficiencies resulted in the reduction of the Group’s allowance for expected credit losses (“ECL”) recognized in relation to the adoption of Philippine Financial Reporting Standards (“PFRS”) 9, *Financial Instruments*, from ₱231.4 million as at June 30, 2020 to ₱209.5 million as at June 30, 2021. Rent receivables from third parties decreased by ₱50.1 million to ₱9.9 million as at June 30, 2021 from ₱60.0 million as at June 30, 2020 attributed to vacancies in the Group’s investment properties as a result of pre-termination of lease contracts during this period of the pandemic. The rent receivables are expected to be collected within the next fiscal year. As at June 30, 2020, other receivables account includes ₱75.5 million receivable from STI College Tanay, Inc. Inventories increased by 27% or ₱38.4 million largely attributed to the purchase of school uniforms and textbooks. Orders for the purchase of these uniforms and textbooks for SY 2020-2021 were made way before the implementation of the protocol restrictions to control the spread of the Coronavirus Disease 2019 (“COVID-19”).

Prepaid expenses and other current assets increased by ₱22.0 million or 31% from ₱71.4 million to ₱93.4 million, substantially due to the ₱44.3 million creditable withholding tax balance as at June 30, 2021 which increased by ₱14.4 million compared to the ₱29.9 million balance as at June 30, 2020. This creditable withholding tax will be applied to the income tax due the following period. Prepaid

subscriptions and licenses showed an aggregate increase of ₱10.9 million representing Microsoft, Adobe Acrobat license, Adobe Creative Cloud, eLearning Management System ("eLMS"), Sangfor firewall, Sophos firewall, Toon Boom Harmony, and Autodesk subscriptions. Sangfor Firewall is a security device used to protect STI ESG's head office and schools' network from internal and external attacks. Autodesk, on the other hand, refers to the software used to design school building blueprints. These subscription costs are normally renewed annually and are recognized as expense over the period of coverage of the respective agreements. Prepaid insurance likewise increased by ₱4.3 million from ₱7.5 million to ₱11.8 million substantially due to fire and building insurance and employees' health coverage which were paid in advance and are recognized as expense over the period of coverage.

The Group recognizes the importance of a reliable internet connection in the implementation of the ONline and ONsite Education at STI ("ONE STI") Learning Model and thus, STI ESG partnered with Smart Communications, Inc. ("Smart") and Globe Telecom, Inc. ("Globe") to provide students with a 34GB Smart SIM and up to 20GB Globe data plan or load per month, respectively. Through this internet connectivity assistance, students may access their eLMS, Microsoft Office 365 accounts, One STI Student Portal app, and other collaborative online learning tools anytime with no extra charge for Smart subscribers. The internet connectivity cost is covered by the existing tuition, other school and miscellaneous fees. Students who opted to use Globe SIM cards, however, are subject to a minimal fee due to the higher cost of the Globe data plan as compared to that of Smart. Prepaid internet cost related to the connectivity assistance provided to the students amounted to ₱2.1 million as at June 30, 2021. The increase in prepaid expenses was offset by the ₱7.7 million decline of the Group's Input VAT balance representing the amount charged to expense and those applied against output VAT due during the year.

The noncurrent asset held for sale, representing the carrying value of STI ESG's 20% ownership in Maestro Holdings, amounted to ₱419.1 million as at June 30, 2020. The operating subsidiaries of Maestro Holdings are PhilPlans First, Inc. ("PhilPlans"), PhilhealthCare, Inc. ("PhilCare"), and Philippine Life Financial Assurance Corporation ("PhilLife"). On June 27, 2017, STI ESG's BOD approved the disposal of this 20% stake in Maestro Holdings. Further, with the reclassification as noncurrent asset held for sale, STI ESG ceased the use of the equity method of accounting for the investment in Maestro Holdings as at June 30, 2017 and carried the investment at the lower of its carrying amount and fair value less costs to sell. On September 24, 2020, STI ESG's BOD approved the sale of its 20% stake in Maestro Holdings to a third-party investor for a consideration higher than its present carrying value, subject to completion of certain closing conditions. On December 15, 2020, STI ESG and Chita SPC Limited, for and on behalf of its segregated portfolio Cam Sea Special Opportunities Fund Segregated Portfolio ("Chita SPC Limited"), executed a deed of absolute sale for the sale of STI ESG's 1,281,484 shares in Maestro Holdings for a total consideration of US\$ 10.0 million equivalent to ₱480.5 million. STI ESG then derecognized its noncurrent asset held for sale amounting to ₱419.1 million as at June 30, 2021.

Noncurrent asset held for sale amounting to ₱1,020.7 million as at June 30, 2021 represents the carrying value of the land, building and land improvements located in Quezon City ("Quezon City dacion properties") which were obtained by the Parent Company through the deeds of dacion executed in 2016. On June 24, 2021, the Parent Company's BOD approved the sale of the Quezon City dacion properties to a potential buyer as these properties have not been used in business since acquisition. Negotiations with the interested buyer are ongoing as at June 30, 2021. With the classification as noncurrent asset held for sale, the Parent Company ceased the accounting for the Quezon City dacion properties as investment properties on June 30, 2021 and carried the said properties at the lower of its carrying amount and fair value less costs to sell.

Property and equipment, net of accumulated depreciation, amounted to ₱10,041.3 million from ₱10,113.6 million as at June 30, 2021 and 2020, respectively. On April 23, 2021, Heva Management & Development Corporation and STI ESG executed a deed of absolute sale for the purchase of a parcel of land with an area of 2,615 square meters situated in West Diversion Road, Iloilo City for a total consideration of ₱183.1 million. As such, STI ESG reclassified the deposit for asset acquisition to land under “Property and Equipment” as at June 30, 2021. STI ESG paid the real property tax and documentary stamp tax for the transfer of ownership amounting to ₱2.8 million during the year ended June 30, 2021. As at June 30, 2021, the property has an aggregate cost of ₱185.9 million, inclusive of the related taxes. The property is intended to be the new site for STI Iloilo. The property and equipment balance includes construction-in-progress costs for STI Academic Center Legazpi (“STI Legazpi”) amounting to ₱288.3 million as at June 30, 2021, up by ₱89.0 million from the June 30, 2020 balance. STI Academic Center Legazpi is a four-storey school building with an estimated capacity of 2,500 SHS and tertiary students, built on a 4,149-square-meter property located in Cabangan East, Legazpi City. The construction works for STI Legazpi were completed in August 2021. The aforementioned additions to property and equipment were, however, substantially offset by the depreciation expense recognized during the year.

Investment properties decreased by ₱1,064.6 million from ₱1,910.7 million as of June 30, 2020 to ₱846.1 million as of June 30, 2021 largely due to the reclassification of the Parent Company’s Quezon City dacion properties to noncurrent asset held for sale and due to depreciation expenses recognized for the year.

Investments in and advances to associates and joint ventures decreased by 11% or ₱4.6 million upon recognition of the Group’s equity share in net losses of associates.

Deferred tax assets (“DTA”), net of the related deferred tax liability (“DTL”), decreased by ₱42.7 million from ₱77.5 million to ₱34.8 million as at June 30, 2020 and 2021, respectively. The Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) Act prescribes the reduction of the preferential tax rate for proprietary educational institutions from 10.0% to 1.0% effective July 1, 2020 up to June 30, 2023. The Group assessed the DTA which may be realized on or before June 30, 2023 hence resulting in the reduction of the Group’s DTA as at June 30, 2021.

Goodwill, intangible and other noncurrent assets decreased by ₱113.3 million from ₱595.1 million to ₱481.8 million as at June 30, 2021, substantially due to the reclassification to property and equipment of the deposits for asset acquisition amounting to ₱183.1 million pertaining to the Iloilo property. Noncurrent advances to suppliers decreased by ₱16.4 million representing reclassification to property and equipment of the advance payments made for the maritime simulator and other equipment acquired by NAMEI Polytechnic Institute, Inc. (“NAMEI”) and completely installed as at June 30, 2021. The outstanding receivable of STI ESG from STI Tanay amounting to ₱75.5 million was reclassified from “Receivables” to noncurrent asset under “Goodwill, intangible and other noncurrent assets” account. This loan of STI Tanay is secured by real estate mortgages on two parcels of land, including improvements thereon. One property is located in Pasig City and the other in Tanay, Rizal, where the school is situated. STI ESG started foreclosure proceedings after several demand letters were sent to STI Tanay. STI ESG was declared as the winning bidder for the Pasig City property. STI ESG has filed a Petition for Extrajudicial Foreclosure for the property located in Tanay. As at report date, STI ESG is complying with certain requirements of the Clerk of Court of Rizal for the foreclosure proceedings of the property located in Tanay.

Accounts payable and other current liabilities decreased by ₱47.4 million substantially due to payments made by STI ESG to contractors for obligations related to construction works as well as to suppliers of equipment and furniture for the new STI Academic Center Legazpi and for the maritime

simulator and other equipment for NAMEI. Accrued expenses went down by ₱13.3 million resulting from lower direct costs and operating expenses. The current portion of advance rent and security deposits likewise decreased by ₱22.2 million due to the application of advance rental and security deposits against the monthly rent due, in accordance with the provisions of the lease agreements, as a result of pre-terminated lease contracts, and refund to former lessees in relation to expired agreements, on the investment properties of STI ESG and iACADEMY.

Unearned tuition and other school fees decreased by ₱15.9 million from ₱117.7 million as at June 30, 2020 to ₱101.8 million as at June 30, 2021. This account refers to advance payment for tuition and other school fees for the SY 2021-2022.

Current portion of interest-bearing loans and borrowings decreased by ₱149.8 million from ₱358.6 million as at June 30, 2020 to ₱208.8 million as at June 30, 2021. The balance represents the current portion of the Term Loans with China Bank of iACADEMY and STI ESG amounting to ₱79.3 million and ₱120.0 million, respectively, and STI ESG's Land Bank of the Philippines ("LandBank") loan amounting to ₱9.5 million, which are all due within the next twelve months. The Term Loan Agreement entered into by STI ESG and China Bank on May 7, 2019 is for an aggregate amount of ₱1,200.0 million payable over a seven-year term. The agreement provides a grace period in principal repayments of two (2) years from the initial drawdown date. Principal repayments shall be made in ten (10) equal semi-annual installments beginning six (6) months from the end of the grace period or in March 2022. The proceeds from these loans were used for capital expenditures and working capital requirements. Meanwhile, in July 2020, STI ESG made principal payments on its Corporate Notes Facility amounting to ₱120.0 million. For the remaining outstanding balance of ₱240.0 million after this payment, STI ESG and China Bank executed a Third Amendment and Supplemental Agreement to the Corporate Notes Facility Agreement on January 29, 2021 amending (1) the maturity date of outstanding notes from July 31, 2021 to September 19, 2026, with the first equal semi-annual amortization of ₱30.0 million to start on March 19, 2023; and (2) the interest period and repricing date, among others. In line with this, the ₱240.0 million loan balance was reclassified from current to noncurrent liabilities. On July 22, 2020, LandBank approved a ₱250.0 million Term Loan/Rediscounting Line Facility under its ACcess to Academic Development to Empower the Masses towards Endless Opportunities ("ACADEME") Lending Program in favor of STI ESG to finance the 'study now, pay later' program of the government for students amid the financial difficulties that families are facing due to the COVID-19 pandemic. The LandBank ACADEME Program is a refinancing/rediscounting facility for Promissory Notes issued by the parents or benefactors of students to enable said students to enroll, continue and complete their studies. The loans covered by these promissory notes to be issued by the parents/benefactors/students are interest-free. The school can borrow up to 70% of the amount stated in the Promissory Notes issued by the parents/benefactors of the students. This loan from LandBank is subject to 3% interest per annum and payable based on the maturity of the promissory note issued by the parent/benefactor/student, not exceeding three (3) years. On September 16, 2020, the Rediscounting Agreement with LandBank was executed by STI ESG in relation to this loan arrangement. STI ESG has an aggregate loan drawdown from this facility amounting to ₱22.1 million as at June 30, 2021 of which ₱9.5 million is due within the next twelve (12) months. The first and second drawdowns amounting to ₱10.0 million and ₱12.1 million, respectively, will mature in August 2022 and January 2023, respectively, for the 20-month tenor and August 2023 and January 2024, respectively, for the 30-month tenor. On August 24, 2020, STI ESG availed of a ₱300.0 million one-year loan from its credit line with BPI at an interest rate of 4.25% per annum subject to quarterly repricing. On January 22, 2021, STI ESG availed of a ₱100.0 million 180-day loan from Security Bank subject to interest at 4.75% per annum, payable quarterly. The credit lines are on a clean basis. The proceeds from these loans were used for working capital requirements. The short-term loans with BPI and Security Bank were fully settled on February 26, 2021 and March 30, 2021, respectively. For the year ended June 30, 2021, STI WNU made principal payments totaling ₱39.4 million on its Corporate Notes

Facility. Of this amount, ₱19.6 million pertains to the payment made by STI WNU in January 2021, as full and final settlement of its loan from the Corporate Notes Facility. In September 2020 and March 2021, iACADEMY made principal payments on its Term Loan Facility with China Bank aggregating to ₱80.0 million.

The noncurrent portion of interest-bearing loans and borrowings increased by ₱339.4 million. STI ESG made drawdowns from its new Term Loan Facility aggregating to ₱400.0 million during the year ended June 30, 2021, subject to an interest rate of 5.81% per annum. The outstanding balance of the Corporate Notes Facility was reclassified from current to noncurrent liability given its amended maturity date as mentioned in the preceding paragraph. STI ESG applied PFRS 9, *Financial Instruments* and assessed if the terms of the new or modified financial liability are the same or substantially different from the terms of the original financial liability. The modification of the financial liability of STI ESG did not result in the derecognition of the original liability since the difference between the discounted present value of the cash flows under the new terms is below 10% from the discounted present value of the remaining cash flows of the original financial liability. Consequently, STI ESG recognized a loss on modification of the loan amounting to ₱8.3 million. The same amount is recognized as a premium on interest-bearing loans and borrowings, net of the amortized premium portion, thus increasing the loan carrying value from ₱240.0 million to ₱248.1 million, as at June 30, 2021. The premium on the interest-bearing loans and borrowings will be amortized over the remaining term of the loan. The impact of the loss on loan modification and loan premium amortization will be fully offset at the end of the loan period. Further, ₱120.0 million of the noncurrent portion of the interest-bearing loans and borrowings on STI ESG's Term Loan Facility was reclassified from noncurrent to current liability as the same is due in March 2022. The proceeds from these loans were used to settle the costs of construction, equipment and furniture acquired for STI Legazpi and also for working capital requirements. Interest rates for all of STI ESG's drawdowns from the Term Loan Facility and the outstanding balance from the Corporate Notes Facility were repriced at a rate of 5.56% per annum effective September 20, 2020 and February 1, 2021, respectively. On September 28, 2020, iACADEMY's term loan balance of ₱560.0 million was repriced at an interest rate of 3.3727% per annum.

Current portion of lease liabilities decreased by ₱15.1 million from ₱90.8 million as at June 30, 2020 to ₱75.7 million as at June 30, 2021, representing payments made during the year, net of new lease agreements during the year ended June 30, 2021. Noncurrent lease liabilities decreased by ₱52.7 million from ₱461.8 million as at June 30, 2020 to ₱409.1 million as at June 30, 2021. Lease liabilities are recognized based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of the initial application. The amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The measurement and presentation of lease liabilities are recognized in the audited consolidated financial statements of the Group following the adoption of PFRS 16, *Leases*.

Income tax payable decreased by ₱8.2 million to ₱90.0 thousand as at June 30, 2021 from ₱8.3 million as at June 30, 2020 due to lower taxable income. STI WNU's net operating loss carry over ("NOLCO") as at June 30, 2020 amounting to ₱17.4 million was applied to its current taxable income. This NOLCO was incurred during the three-month period ended June 30, 2020 when the school was on lockdown due to the COVID-19 pandemic.

STI ESG listed its ₱3.0 billion Series 7-year Bonds due 2024 and Series 10-year Bonds due 2027 (collectively, the "Bonds") on the Philippine Dealing and Exchange Corp. ("PDEX") secondary market on March 23, 2017. This is the first tranche of its ₱5.0 billion fixed-rate bonds program under its 3-year shelf registration with the SEC. The 3-year shelf registration ended on March 9, 2020. The Bonds carry coupon rates of 5.8085% and 6.3756% for the 7-year and 10-year tenors, respectively. Interests

are payable quarterly in arrears on June 23, September 23, December 23, and March 23 or the next business day if such dates fall on non-banking days, of each year commencing on June 23, 2017, until and including the relevant maturity dates. The Bonds Payable is carried in the books at ₱2,973.1 million and ₱2,966.1 million as at June 30, 2021 and 2020, respectively, net of deferred finance charges representing bond issue costs with carrying values of ₱26.9 million and ₱33.9 million, as at June 30, 2021 and 2020, respectively. The proceeds from the bonds had been fully utilized as at March 31, 2019.

Pension liabilities decreased by ₱10.0 million from ₱115.4 to ₱105.4 million as at June 30, 2020, and June 30, 2021, respectively, resulting from the increase in the market value of the investments under the pension plan assets of the Group and lower pension expense recognized during the year ended June 30, 2021 due to the optimization of the Group's workforce.

Deferred tax liabilities decreased by ₱118.8 million from ₱233.7 million to ₱114.9 million as at June 30, 2020 and June 30, 2021, respectively, largely due to the reversal of the DTL recognized on the properties, the ownership of which has been transferred to the Parent Company in 2016 as settlement of loans it granted to third parties. These properties have not been used in business since acquisition.

Other noncurrent liabilities decreased by ₱80.5 million from ₱93.5 million to ₱13.0 million as at June 30, 2020 and 2021, respectively, representing reclassification to current liability of STI Novaliches' payable to STI Diamond that is due within one year from June 30, 2021 and application of advance rent and security deposits to unpaid rental as a result of pre-terminated lease contracts on the investment properties of STI ESG and iACADEMY.

Cumulative actuarial gain increased by ₱15.5 million from ₱3.8 million to ₱19.3 million as at June 30, 2020 and 2021, respectively, due to the impact of unrealized remeasurement gain resulting from the increase in market value of the investment in equity securities of the pension plan assets.

Fair value change in equity instruments at FVOCI is up by ₱1.2 million representing fair value adjustments resulting from the increase in the market value of the quoted equity shares held by STI ESG.

Other comprehensive income associated with noncurrent asset held for sale amounting to ₱90.6 million as at June 30, 2020 was reclassified by STI ESG to retained earnings and other equity reserve following the disposal of STI ESG's 20% share in Maestro Holdings.

Retained earnings increased by ₱158.6 million from ₱4,006.7 million to ₱4,165.3 million as at June 30, 2020 and 2021, respectively, substantially due to the net income recognized for the year ended June 30, 2021 and the impact of the reclassification of other comprehensive income associated with the disposal of STI ESG's noncurrent asset held for sale amounting to ₱90.6 million, net of dividends declared by the Parent Company amounting to ₱36.6 million.

June 30, 2020 vs. March 31, 2020

The Group's total assets as at June 30, 2020 amounted to ₱14,830.3 million, 2% or ₱328.9 million lower than the balance as at March 31, 2020. This was substantially due to decreases in cash and cash equivalents, receivables and net book value of property and equipment.

Cash and cash equivalents decreased by 6% or ₱50.5 million due to payments made to contractors and suppliers for the construction of STI Academic Center in Legazpi City, lease obligations, and interest on STI ESG's bonds.

Total receivables decreased to ₱555.0 million from ₱722.2 million as at March 31, 2020, substantially due to collection of receivables from DepEd. Outstanding receivables from DepEd for the SHS qualified voucher recipients amounted to ₱37.0 million as at June 30, 2020, showing a collection of ₱145.0 million from the March 31, 2020 balance of ₱182.0 million. Receivables from students decreased by ₱52.8 million from ₱468.1 million as at March 31, 2020 to ₱415.3 million as at June 30, 2020.

Prepaid expenses decreased by ₱4.9 million or 7% from ₱76.3 million to ₱71.4 million, mainly due to the ₱5.3 million decrease in input VAT, representing the amounts applied as deduction from output VAT during the three-month period ended June 30, 2020.

Property and equipment decreased by ₱112.6 million from the March 31, 2020 balance of ₱10,226.2 million to ₱10,113.6 million as at June 30, 2020 as depreciation expenses for the three-month period ended June 30, 2020 were recognized.

Deferred tax assets increased from ₱60.4 million as at March 31, 2020 to ₱77.5 million as at June 30, 2020 representing tax benefits recognized by STI ESG and STI WNU on their NOLCO for the three-month period ended June 30, 2020.

The current and noncurrent portions of lease liabilities amounted to ₱90.8 million and ₱461.8 million, respectively, as at June 30, 2020 and ₱91.7 million and ₱471.1 million, respectively, as at March 31, 2020. The decrease in the current portion represents the payments made during the three-month period ended June 30, 2020 while the decrease in the noncurrent portion of lease liabilities represents the amount reclassified to the current portion and is due for payment within one year from the report date. Lease liabilities were recognized based on the present value of the remaining lease payments, discounted using the incremental borrowing rate at the date of the initial application. The amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. The measurement and presentation of lease liabilities were recognized in the audited consolidated financial statements of the Group following the adoption of PFRS 16 *Leases*.

Pension liabilities increased by ₱12.0 million from ₱103.4 million to ₱115.4 million as at March 31, 2020 and June 30, 2020, respectively, representing additional retirement obligations recognized by the Group for the three-month period ended June 30, 2020.

Other noncurrent liabilities decreased by ₱16.4 million from ₱109.9 million as at March 31, 2020 to ₱93.5 million as at June 30, 2020 mainly due to the reclassification of advance rent/rental deposits from noncurrent to current portion. The amount that was reclassified represents advances/deposits for lease agreements with remaining terms of one year or less.

Cumulative actuarial gain declined by 64% or ₱6.6 million due to the remeasurement loss on pension liability recognized for the period arising from the decline in the market value of the equity securities, part of STI ESG's pension plan assets.

Retained earnings decreased by ₱220.4 million due to the net loss attributable to equity holders of the Parent Company recognized for the three-month period ended June 30, 2020.

** STI ESG DepEd count includes 25,801 SHS students and the 241 students of NAMEI who are enrolled in basic education in SY 2020-2021 and 31,455 SHS students and the 454 students of NAMEI who are enrolled in basic education in SY 2019-2020. For iACADEMY, this represents the number of enrolled SHS students while for STI WNU, this is the total of 1,470 SHS students and the 733 students enrolled in basic education in SY 2020-2021 and 1,874 SHS students and the 985 students enrolled in basic education in SY 2019-2020.*

Enrollment in SY 2020-2021 declined compared to SY 2019-2020 due to the impact of the COVID-19 pandemic.

To contain the outbreak of the COVID-19, the Office of the President of the Philippines issued a Memorandum on March 13, 2020 to impose, adopt and implement the guidelines on the stringent social distancing measures including but not limited to class suspension, prohibition of mass gatherings, imposition of community quarantine, among others, in the National Capital Region (“NCR”) and other parts of the country effective March 15, 2020. These measures have caused disruptions to businesses and economic activities, and their impact on businesses continues to evolve.

For SY 2019-2020, the school calendars of STI ESG and STI WNU for SHS and tertiary students covered the months of June 2019 to March 2020 and July 2019 to April 2020, respectively. With the imposition of the Enhanced Community Quarantine (“ECQ”) throughout Luzon, classes in all levels were suspended on March 17, 2020. Classes of SHS students of STI ESG and STI WNU were completed by the end of March 2020 while classes in the tertiary level were suspended in all campuses nationwide to ensure the safety and welfare of the students.

The tertiary students were given three options to finish the second semester of SY 2019-2020, namely (1) online learning for those who are willing to and can go online, may finish all their lessons via eLMS;

(2) offline learning for those who are willing to continue and finish all their lessons but cannot go online, in which case handouts were provided to the students; or (3) face-to-face for those who cannot go online and opt to wait until STI ESG and STI WNU could resume classes under the “new normal” operations with face-to-face classes combined with applicable learning modes. Classes of students who opted for online and offline studies resumed in the third week of May 2020 and were completed as at July 30, 2020, while those who opted for face-to-face classes later took their classes online and completed the same during the first semester of SY 2020-2021.

For SY 2020-2021, STI ESG and STI WNU introduced the ONline and ONsite Education at STI (“ONE STI”) Learning Model. The ONE STI Learning Model is an innovative approach to student development that uses digital tools and online technology combined with invaluable hands-on practice and onsite engagements to achieve the students’ academic objectives through a responsive learning experience. Classes of both SHS and tertiary started on September 7, 2020.

For iACADEMY, the school calendars for SY 2019-2020 of SHS and tertiary enrollees were originally set from August 2019 to May 2020 and July 2019 to June 2020, respectively. Classes for SHS and Tertiary students were suspended due to the implementation of the ECQ in March 2020. SHS Modular classes of those who opted for online and offline studies resumed on April 15, 2020 and were completed on June 5, 2020 for Grade 12 students and June 11, 2020 for Grade 11 students. For tertiary, online classes resumed on April 15, 2020 and the school year was completed on July 15, 2020.

iACADEMY introduced its fully online learning program entitled Guided Online Autonomous Learning (“GOAL”) for SY 2020-2021. GOAL is iACADEMY’s systematic approach to guiding all the activities that involve the delivery of online instruction to the students including online learning workshops, training for teachers on how to create high-quality modules, integrating project-based learning and teaching strategies into online learning, internationalization, and collaborating with parents and guardians. In this setup, all activities or modules are delivered 100% online through the use of eLMS, Google Meet, and Microsoft Teams. Classes for SHS and tertiary students started on August 24, 2020 and August 28, 2020, respectively.

The Group uses eLMS, a software application running on Amazon cloud, to better manage the delivery of educational courses and/or training programs to its students. It features built-in support for collaboration through various tools such as wikis, forums, and discussion groups; an internal messaging system with bidirectional support for emails and text messaging; and a built-in portfolio system which students can use to collect works to support learning and/or achievements. The eLMS is a world-class and award-winning learning management system that schools and universities across the globe are using. This cloud-based eLearning tool gives teachers and students a two-way platform where they can collaborate, assign, and submit homework, take assessments, and track learning progress, among others. The concept of online learning is not new to the Group, as the schools in the network have already implemented a blended learning model for the past six years in order that the students may continue their studies at home uninterrupted even during physical classroom disruptions.

The faculty members of the Group regularly undergo competency-based certifications and trainings to ensure that they are proficient in the subject matter to be able to deliver the required day-to-day lessons. The Group also recognized the need to transform the traditional in-classroom learning delivery to alternative modes and leveraged on online learning platforms, tools, and technologies given the current disruption caused by the global COVID-19 health crisis to the education sector. Several trainings were conducted online to equip the faculty members with technical skills and further strengthen the mindset necessary in an online learning environment.

Face-to-face classes remain suspended and thus the Group has continued to conduct classes online as at June 30, 2021.

The consolidated gross revenues of the Group for the year ended June 31, 2021 amounted to ₱2,090.6 million compared to ₱2,526.9 million for the year ended June 31, 2020.

Tuition and other school fees amounted to ₱1,882.7 million for the year ended June 30, 2021, a decline of ₱374.8 million or 17% from the same period in 2020, due to the lower number of enrollees brought about by the impact of the COVID-19 pandemic. A survey conducted by STI ESG disclosed that a number of students did not pursue education in SY 2020-2021 because of the financial difficulties experienced by their respective families/benefactors during the year. Despite this, the Group registered an enrollment of over 70,000 students in SY 2020-2021. As part of the Group's continuing efforts to mitigate the impact of the COVID-19 pandemic on the students and their parents, select students enrolled in certain programs enjoyed a refund and/or a tuition fee credit. STI ESG and STI WNU reduced the laboratory fees by up to 35% and other school or miscellaneous fees of SHS, tertiary and basic education students for SY 2020-2021 or by an aggregate amount of ₱82.1 million. Similarly, iACADEMY gave discounts of as much as 6% and 31% on its tuition fees and other school fees, respectively, for SHS students resulting in a 10% reduction on their total fees in SY 2020-2021. In the same manner, iACADEMY granted 50% and 33% discounts on its regular laboratory fees and other school fees, respectively, for its college students. iACADEMY's total foregone revenues for SY 2020-2021 due to the discounts granted amounted to ₱32.0 million. The Group likewise granted a tuition fee adjustment to tertiary students for SY 2019-2020 aggregating to ₱30.2 million.

Revenues from educational services and royalty fees decreased by 12% and 8%, respectively. This resulted from the lower number of enrollees of franchised schools brought about by the impact of and restrictions implemented due to the COVID-19 pandemic. In addition, operations of some of STI ESG's franchised schools were either suspended or terminated. Revenues from educational services and royalty fees are derived as a percentage of the tuition and other school fees collected by the franchised schools from their students, DepEd and CHED.

As classes for the entire SY 2020-2021 were held online, sale of educational materials and supplies declined by ₱48.6 million to ₱24.9 million for the year ended June 30, 2021 from ₱73.5 million last year. Sale of educational materials and supplies recognized in SY 2019-2020 substantially pertains to the sale of uniforms and textbooks while the sale of educational materials and supplies for SY 2020-2021 is largely attributed to the sale of textbooks. The cost of educational materials and supplies sold decreased likewise, concomitant with the decrease in the sale of educational materials and supplies.

Other revenues increased by ₱2.6 million from ₱62.5 million for the year ended June 30, 2020 to ₱65.1 million for the year ended June 30, 2021 largely attributed to the data connectivity costs charged to franchised schools. Data loading to the respective SIM cards of the students is centralized in STI ESG's Head office, thus the equivalent connectivity charges pertaining to franchised schools amounting to ₱21.4 million were recognized as other revenues for the year ended June 30, 2021 in the audited consolidated statements of comprehensive income of the Group. The increase was partially offset by lower recovery of accounts receivable previously written off as compared to the year ended June 30, 2020, as well as lower income from issuance of diplomas, transcript of records and other documents requested by students. Income was also recognized last year in relation to the forfeiture of security deposit on pre-terminated lease contracts on the investment properties of STI ESG.

The cost of educational services is lower by ₱66.0 million compared to last year, from ₱918.2 million to ₱852.2 million for the years ended June 30, 2020 and 2021, respectively. Instructors' salaries and benefits decreased by ₱62.4 million from ₱348.5 million to ₱286.1 million as a result of the

optimization of faculty loading in the conduct of synchronous meetings with the students under the new learning modality. Depreciation expense decreased by ₱15.1 million from ₱397.4 million for the same period last year to ₱382.3 million this year attributed to fully depreciated assets and lower depreciation expense recognized on ROU assets due to terminated lease agreements. The Group adopted PFRS 16 and applied a single recognition and measurement approach for all leases except for short-term leases and recognized ROU assets for the leases previously classified as operating leases. The ROU assets were recognized based on the amount equal to the lease liabilities, adjusted for any related prepaid and accrued lease payments previously recognized. ROUs are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. Courseware development cost amounted to ₱11.2 million for the year ended June 30, 2020 compared to ₱1.8 million for the year ended June 30, 2021. The courseware development cost for SY 2019-2020 includes the curriculum development and implementation of maritime programs of NAMEI. STI ESG, in behalf of NAMEI, and Raft Shore People, Inc. ("RAFT") entered into a Cooperation Agreement to work together to ensure that the seafarers of the Philippines continue to be the preferred employees of international shipping companies. The parties likewise agreed to enhance the curriculum with electives or additional modular courses in keeping with the requirements of the international shipping industry and the International Convention on Standards of Training, Certification and Watchkeeping for Seafarers ("STCW"). In light of the effects of the pandemic on the operation of schools and on the economy as a whole, the parties agreed to hold the implementation of the agreement in abeyance. Face-to-face classes remain suspended in order to contain the spread of the virus in the country and thus the Group has continued to conduct classes online as at June 30, 2021. As classes were conducted online, school materials and supplies expense posted a decline of ₱10.3 million from ₱13.9 million to ₱3.6 million for the years ended June 30, 2020 and 2021, respectively. Classes are conducted through various online learning platforms in order to continue the delivery of lessons to the students during the pandemic. However, this posed different risks and challenges for both teachers and students, many of whom have limited access to the internet. As such, the Group provided internet connectivity assistance to its students which amounted to ₱72.2 million for the year ended June 30, 2021.

Gross profit declined from ₱1,552.8 million to ₱1,218.3 million for the years ended June 30, 2021 and 2020, respectively, largely due to the lower number of enrollees.

General and administrative expenses decreased by 16% or ₱189.0 million from ₱1,214.1 million to ₱1,025.1 million for the years ended June 30, 2020 and 2021, respectively. The highest decline was registered by light and water expenses which decreased by ₱69.2 million. For the safety and welfare of its employees and following the regulations of the IATF, the Group deploys only a skeleton workforce in the schools and offices to attend to concerns that need face-to-face coordination. The Group also embraced work-from-home arrangements to the maximum extent possible and likewise optimized its manpower structure resulting in a reduced workforce. Salaries and benefits of non-teaching personnel, as well as security and janitorial expenses, decreased by ₱43.2 million and ₱47.8 million, respectively, for the year ended June 30, 2021 compared to the same period last year. Depreciation expense decreased by ₱16.3 million from ₱248.4 million last year to ₱232.1 million this year attributed to fully depreciated assets and lower depreciation expense recognized on ROU assets because of terminated lease agreements. The Group recognized a provision for ECL amounting to ₱41.8 million for the year ended June 30, 2021, largely representing ECLs on receivables from students' tuition and other school fees, resulting to a ₱12.9 million decrease from last year's ₱54.7 million provision. This is due to the reversal of prior years' provisions amounting to ₱27.5 million reflecting the Group's improved collection efficiency. The Group recognized advertising and promotions expense amounting to ₱53.1 million for the year ended June 30, 2021. Bulk of the marketing activities and programs for SY 2019-2020 were concluded as at June 30, 2019 as classes started in June and July 2019 for SHS and tertiary students, respectively. For SY 2020-2021, classes for both SHS and tertiary students started in September 2020, and as such, marketing activities were

mostly conducted from July to September 2020. This resulted in an increase in advertising and promotions expense by ₱25.4 million as compared to ₱27.7 million incurred during the same period last year. Provision for impairment of investments in and advances to associates and joint ventures amounting to ₱10.3 million was recognized for the year ended June 30, 2021.

The Group posted an operating income of ₱193.2 million for the year ended June 30, 2021 compared to last year's operating income of ₱338.7 million, due to lower revenues caused by lower number of enrollees, as a result of the COVID-19 pandemic.

Equity in net losses of associates amounted to ₱4.6 million for the year ended June 30, 2021 compared to equity in net losses of associates of ₱0.2 million recognized last year.

Interest expense decreased by ₱4.4 million to ₱337.1 million for the year ended June 30, 2021 from ₱341.5 million last year, resulting substantially from lower interest rates on the Group's loans and the full payment by STI WNU of its interest-bearing loans in January 2021. Drawdowns were made by STI ESG on its Term Loan Facility with China Bank amounting to ₱400.0 million in July 2020, subject to an interest rate of 5.81% per annum. Interest rates for all drawdowns from the Term Loan Facility were repriced at a rate of 5.56% per annum effective September 19, 2020 for STI ESG and 3.3727% per annum for iACADEMY's loan effective September 28, 2020.

Rental income decreased by ₱80.6 million to ₱116.8 million for the year ended June 30, 2021 from ₱197.4 million last year, attributed to vacancies in the investment properties of STI ESG and iACADEMY as a result of pre-termination of and expired lease contracts during the year ended June 30, 2021.

Following the guidelines of PFRS 9, *Financial Instruments*, STI ESG assessed the terms of the new or modified financial liability resulting from the amended maturity date of STI ESG's loan balance under its Corporate Notes Facility Agreement with China Bank. The modifications of the financial liability of STI ESG did not result in derecognition of the original liability as the same are not substantially different from the terms of the original financial liability. Thus, STI ESG recalculated the amortized cost of the financial liability by computing the present value of estimated contractual cash flows that are discounted at the original effective interest rate. Consequently, STI ESG recognized a loss on modification of the loan amounting to ₱8.3 million which is reported in the audited consolidated statement of comprehensive income for the year ended June 30, 2021.

Interest income decreased from last year's ₱10.8 million to ₱5.7 million for the year ended June 30, 2021, as available funds were used to settle obligations with suppliers.

STI ESG recognized dividend income from its equity share in De Los Santos Medical Center, Inc. ("DLSMC") accounted for at FVOCI amounting to ₱0.8 million for the years ended June 30, 2021 and 2020. In addition, STI ESG received dividends from STI Marikina, an associate, amounting to ₱1.0 million for the year ended June 30, 2020, which was recognized as dividend income, since the carrying amount of STI ESG's investments in STI Marikina amounted to nil as at June 30, 2021 and 2020.

The Group applied the practical expedient approach for some rent concessions granted to the Group following the amendments to PFRS 16, *COVID-19-related Rent Concessions* resulting in recognition of other revenues aggregating to ₱39.7 million for the year ended June 30, 2021.

For the year ended June 30, 2020, STI ESG recognized a provision for impairment of its investment in Maestro Holdings in the amount of ₱297.5 million to bring it to its fair value less cost to sell of ₱419.1 million. The decline in fair value as at June 30, 2020 is an impact of the COVID-19 pandemic and the ensuing economic and market disruptions across markets and industries. On December 15, 2020, STI

ESG and Chita SPC Limited executed a deed of absolute sale for the sale of STI ESG's 20% ownership in Maestro Holdings, for a price of US\$10.0 million. The disposal of STI ESG's 20% ownership in Maestro Holdings resulted in a gain of ₱15.4 million which is recognized and presented as "gain on sale of noncurrent asset held for sale, net of capital gains tax" in the consolidated statement of comprehensive income for the year ended June 30, 2021. The difference between the carrying value of STI ESG's 20% stake in Maestro Holdings of ₱419.1 million as at June 30, 2020 and the equivalent peso selling price of ₱480.5 million amounted to a gain of ₱61.4 million. The capital gains tax of ₱46.0 million represents 15% of ₱306.4 million, which is the difference between STI ESG's acquisition cost of the investment amounting to ₱174.1 million and the selling price recorded at its peso equivalent of ₱480.5 million. The related net foreign exchange gain of ₱3.9 million was recognized for the year ended June 30, 2021 since the sale was settled in US dollars.

Benefit from income tax amounting to ₱76.9 million was recognized for the year ended June 30, 2021, inclusive of the benefit from deferred income tax recognized during the year ended June 30, 2021. The deferred tax asset/liabilities balance was adjusted following the implementation of the CREATE Law which reduced the preferential income tax rate for proprietary educational institutions from 10% to 1% effective July 1, 2020 to June 30, 2023 and the reduction of the income tax rate from 30% to 25% and 20% for the Parent Company and AHC, respectively, effective July 1, 2020.

The Group reported a net income of ₱101.7 million for the year ended June 30, 2021 compared to the net loss amounting to ₱117.5 million last year. Net loss for the year ended June 30, 2020 was largely due to the provision for impairment amounting to ₱297.5 million recognized on STI ESG's investment in Maestro Holdings.

Remeasurement gain on pension liability amounting to ₱15.6 million and remeasurement loss of ₱15.5 million, net of income tax effect, were recorded for the years ended June 30, 2021 and 2020, respectively, due to the movements in value of equity shares forming part of pension assets.

The unrealized fair value adjustment on equity instruments designated at FVOCI amounted to ₱1.2 million for the year ended June 30, 2021 compared to ₱7.6 million for the year ended June 30, 2020, due to the decline in the market value of equity shares as at financial reporting date.

Total comprehensive income amounted to ₱118.5 million for the year ended June 30, 2021 compared to total comprehensive loss of ₱125.4 million for the year ended June 30, 2020.

Earnings before interest, taxes, depreciation, and amortization ("EBITDA") which is defined as earnings (loss) before interest expense, interest income, provision for income tax, depreciation and amortization, equity in net earnings (losses) of associates and joint ventures and nonrecurring gains (losses) such as gain on sale of noncurrent asset held for sale, net of capital gains tax, income on rent concessions and loss on modification of loan decreased from ₱1,057.1 million for the year ended June 30, 2020 to ₱811.7 million for the year ended June 30, 2021. Depreciation and interest expenses for purposes of this computation exclude those related to ROU assets and lease liabilities, respectively. EBITDA margin is 39% compared to 42% last year.

Core income, computed as the consolidated income after income tax derived from the Group's main business of education and other recurring income, amounted to ₱55.4 million for the year ended June 30, 2021 compared to core income for the same period last year of ₱180.2 million.

Grouping the students in terms of government regulatory agencies supervising the programs, wherein CHED pertains to students enrolled in tertiary and post-graduate programs, TESDA students are those enrolled in technical-vocational programs while DepEd pertains to primary and secondary education including SHS, yields the following numbers:

	SY 2019-2020			
	CHED	TESDA	DEPED*	TOTAL
STI ESG	40,737	2,152	31,909	74,798

* STI ESG DepEd count includes SHS students and 454 students of NAMEI who are enrolled in basic education in SY 2019-2020. For iACADEMY, this represents the number of enrolled SHS students while for STI WNU, this is the total of 1,874 SHS students and the 985 students enrolled in basic education in SY 2019-2020 and 2,218 SHS students and the 948 students enrolled in basic education in SY 2018-2019.

The Group registered a 41% increase in count of new students enrolled under the CHED programs in SY 2019-2020, resulting in a 6% increase in total CHED student count year-on-year. This is despite the fact that there are mainly two year levels in college in relation to the implementation of the K to 12 program.

In previous years, the schools in the STI Network formally opened every June of each year. On June 14, 2018, STI ESG informed CHED of the decision of its BOD to admit two batches of incoming college freshmen students for SY 2018-2019. STI ESG requested CHED for endorsement of this move to accept the second batch of college freshmen enrollees. On June 29, 2018, CHED noted the decision of STI ESG, citing that the decision to move the school calendar is part of the institution's academic freedom, provided that it would not violate existing rules on the same. CHED also advised STI ESG to coordinate with the respective CHED Regional Offices on the usual guidance and procedures in implementing the planned school calendar. This decision is in line with STI ESG's thrust to continue providing an opportunity for fresh Grade 12 graduates to pursue their tertiary education. Classes for the first and second batches started in June and August 2018, respectively. The number of students in SY 2018-2019, which is reported in the foregoing tables, represents the total enrollment for the June and August 2018 batches.

In February 2019, the BOD of STI ESG approved the shift in the school calendar for tertiary classes from the usual June of each year to mid-July beginning SY 2019-2020 while the opening of SHS classes remained in June. STI WNU followed the school calendar of STI ESG for tertiary and SHS.

STI ESG's implementation of two freshmen batches in SY 2018-2019 and the shift in the tertiary school calendar in SY 2019-2020 of its schools are in accordance with the guiding policy on the academic calendar year which is stipulated in Section 3 of Republic Act ("RA") 7797 or the School Calendar Act, which states that the school year shall start on the first Monday of June but not later than the last day of August. This is also in consonance with RA 7722, which provides some leeway for HEIs to establish their own academic calendars and set their opening days in order to encourage innovation and the exercise of academic freedom among institutions of higher learning.

Total revenues for the year ended June 30, 2020 amounted to ₱2,526.9 million, lower by ₱109.3 million or 4% from revenues generated for the year ended June 30, 2019 of ₱2,636.2 million.

Tuition and other school fees are posted at ₱2,257.6 million for the year ended June 30, 2020, almost at par with the ₱2,249.7 million generated the prior year despite the 2% decline in enrollment. This is due to the shift in the enrollment mix in favor of CHED enrollees, which increased to 55% of total enrollment during the year ended June 30, 2020 from 50% of total enrollment during the prior year. The related increase in tuition and other fees attributed to the foregoing was partially offset by the tuition fee adjustment given to the tertiary students. Classes were suspended in all campuses nationwide starting March 17, 2020 due to the imposition of ECQ in Luzon and subsequently, in other parts of the country. Classes of SHS students within the STI Network were completed by the end of March 2020 while classes in the tertiary level were suspended in all campuses nationwide to ensure the safety and welfare of the students. Classes for tertiary students were later conducted online and offline in May 2020 and were completed by the end of July 2020. Students who opted for face-to-face classes later took their classes online and completed the same during the first semester of SY 2020-2021. Since classes were conducted online, the Group reduced the laboratory fees for tertiary students for SY 2019-2020 by approximately ₱30.2 million.

Revenues from educational services and royalty fees decreased by ₱40.5 million and by ₱3.9 million, respectively, attributed to a lower number of enrollees and timing difference in the collection of tuition and other school fees by the franchised schools. Revenues from educational services are derived as a percentage of the tuition and other school fees actually collected by the franchised schools from their students, DepEd and CHED.

Sale of educational materials and supplies decreased by ₱74.5 million or 49% due to lower sales of uniforms. STI ESG introduced new designs of tertiary uniforms in SY 2018-2019, which contributed to the higher sale of tertiary uniforms for the year ended June 30, 2019. The cost of educational materials and supplies sold decreased likewise concomitant with the decrease in the sale of educational materials and supplies.

The cost of educational services decreased by 3% or ₱33.0 million to ₱918.2 million for the year ended June 30, 2020 from ₱951.2 million for the prior year. Rent expense decreased by ₱67.1 million substantially due to the adoption of PFRS 16 whereby depreciation expense on ROU assets was recognized instead of rent expense. Direct cost portion of depreciation expense of ROU assets amounting to ₱41.8 million was recognized for the year ended June 30, 2020. Savings on rent were also generated due to the transfer of STI Shaw operations to STI Sta. Mesa, and STI Taft and STI Makati operations to STI Pasay-EDSA. The cost of instructors' salaries and benefits decreased by ₱4.2 million due to the shift in the classes of tertiary students for SY 2019-2020 to July 2019 compared to June in SY 2018-2019. Depreciation expense increased by ₱83.4 million representing direct cost portion of depreciation expense recognized for the newly completed buildings of STI Lipa, STI San Jose del Monte, STI Sta. The fair value was estimated using Maestro Holdings' adjusted consolidated net assets value which consists significantly of investments in listed equity instruments, government bonds and other fixed-income securities and pre-need reserves for PhilPlans, and discounted cash flows from the financial budgets covering five years approved by the management of PhilCare and PhilLife. No provision for impairment was recognized for the year ended June 30, 2019.

Financial Risk Disclosure

The Group's present activities expose it to liquidity risk, credit risk, interest rate risk and capital risk.

Liquidity risk – Liquidity risk relates to the possibility that the Group may encounter difficulties in raising funds to meet its currently maturing commitments. The Group's liquidity profile is managed to be able to finance its operations and capital expenditures and other financial obligations. To cover its financing requirements, the Group uses internally-generated funds and interest-bearing loans and borrowings. As part of its liquidity risk management program, the Group regularly evaluates the projected and actual cash flow information and continuously assesses conditions in the financial markets for opportunities to pursue fund-raising initiatives.

Any excess funds are primarily invested in short-dated and principal-protected bank products that provide flexibility of withdrawing the funds anytime. The Group regularly evaluates available financial products and monitors market conditions for opportunities to enhance yields at acceptable risk levels.

In relation to the Group's interest-bearing loans and borrowings, the debt service cover ratio ("DSCR"), based on the consolidated financial statements of the Group, is also monitored on a regular basis. The DSCR is equivalent to the consolidated EBITDA for the last twelve months divided by total principal and interest due in the next twelve months. The Group monitors its DSCR to keep it at a level acceptable to the Group, the lender bank and the STI ESG bondholders. The Group's policy is to keep the DSCR not lower than 1.05:1.00.

As at June 30, 2021 and 2020, the Group's DSCR is 1.50:1.00 and 1.72:1.00, respectively. As at March 31, 2020, the Group's DSCR is 1.44:1.00.

Recognizing the economic impact of the COVID-19 outbreak, China Bank granted the temporary waiver of the DSCR requirement on STI ESG's term loan and Corporate Notes Facility Agreements for the year ended June 30, 2021. STI ESG also obtained the approval of the majority of the Record Bondholders for the waiver of the DSCR requirement on its bonds payable up to June 30, 2023.

Credit risk – Credit risk is the risk that the Group will incur a loss arising from students, franchisees or counterparties that fail to discharge their contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk that the Group is willing to accept for each counterparty and by monitoring expenses in relation to such limits.

It is the Group's policy to require students to pay all their tuition and other incidental fees before they can get their report cards and other credentials. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

Interest rate risk - Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fixed rate financial instruments are subject to fair value interest rate risk while floating rate financial instruments are subject to cash flow interest rate risk. The Group's interest rate risk management policy centers on reducing the overall interest expense and exposure to changes in interest rates. Changes in market interest rates relate primarily to the Group's long-term loans and bonds. While the Group's long-term debt has a floating interest rate, the Group elected to have the interest rate repriced every year, thus minimizing the exposure to market changes in interest rates. The interest rates for the STI ESG bonds are, however, fixed for the 7-year and the 10-year tenors.

Capital Risk- The Group aims to achieve an optimal capital structure to reduce its cost of capital in pursuit of its business objectives, which include maintaining healthy capital ratios and strong credit ratings, maximizing shareholder value and providing benefits to other stakeholders. The Group likewise aims to ensure that cash is available to support its operations and all other projects undertaken by the Group and to maintain funds on a long-term basis.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. The Group is not subject to externally imposed capital requirements.

The Group monitors capital using the debt-to-equity ratio, which is computed as the total of current and noncurrent liabilities, net of unearned tuition and other school fees, divided by total equity. The Group monitors its debt-to-equity ratio to keep it at a level acceptable to the Group, the lender bank and the STI ESG bondholders. The Group's policy is to keep the debt-to-equity ratio at a level not exceeding 1.50:1.00.

As at June 30, 2021 and 2020, the Group's debt-to-equity ratio is 0.79:1.00 and 0.82:1.00, respectively. As at March 31, 2020, the Group's debt-to-equity ratio is 0.78:1.00.

Accordingly, as it has been in its old fiscal year and even with its new fiscal year, as discussed in Notes 1 and 2 of the Notes to the Audited Consolidated Financial Statements, the revenue of the Group is expected to be lower during the first quarter of the fiscal year as compared to the other quarters if the number of enrollees remains constant. This information is provided to allow for a proper appreciation of the results of operations of the Group. However, management has concluded that the Group's operation is not highly seasonal. Management continues to monitor the COVID-19 situation and will take further actions as necessary and appropriate in response to the economic disruptions, government regulations and other COVID-19 consequences.

- o. President Rodrigo Duterte signed into law on March 26, 2021 the Corporate Recovery and Tax Incentives for Enterprises (“CREATE”) Act which seeks to develop the national economy towards global competitiveness by implementing tax policies such as lowering the corporate income tax rate and widening the tax base, and by rationalizing the current fiscal incentives by making them time-bound, targeted and performance-based. This was done in an attempt to revitalize the slowing economy, as it is predicted that the measures will attract more investments resulting in productivity enhancement, employment generation, countrywide development, and a more inclusive economic growth, while at the same time maintaining fiscal prudence and stability. It took effect 15 days after its complete publication in the Official Gazette or in a newspaper of general circulation or April 11, 2021.

- Preferential income tax rate for proprietary educational institutions is reduced from 10% to 1% effective July 1, 2020 to June 30, 2023.
- Corporate income tax rate is reduced from 30% to 20% for domestic corporations with taxable income not exceeding ₱5.0 million and with total assets not exceeding ₱100.0 million. All other domestic corporations are subject to 25% regular corporate income tax (“RCIT”) effective July 1, 2020.
- Minimum corporate income tax (“MCIT”) is reduced from 2% to 1% effective July 1, 2020 to June 30, 2023.
- Exemption from the determination of gain or loss from any exchange of property for stocks in corporations under certain conditions amending Section 40, Subsection C of the National Internal Revenue Code of 1997 which includes among others, merger and consolidation.
- Imposition of improperly accumulated earnings tax (“IAET”) is repealed.

INDEPENDENT AUDITOR'S REPORT

The Stockholders and the Board of Directors
STI Education Systems Holdings, Inc.
7th Floor, STI Holdings Center
6764 Ayala Avenue
Makati City

Opinion

We have audited the consolidated financial statements of STI Education Systems Holdings, Inc. and its subsidiaries (the Group), which comprise the consolidated statements of financial position as at June 30, 2021 and 2020, and the consolidated statements of comprehensive income, consolidated statements of changes in equity and consolidated statements of cash flows for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at June 30, 2021 and 2020, and its consolidated financial performance and its consolidated cash flows for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020, in accordance with Philippine Financial Reporting Standards (PFRSs).

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

Adequacy of Allowance for Expected Credit Losses on Receivables

The Group's application of the expected credit loss (ECL) model in calculating the allowance for ECL is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's credit risk exposures, defining default, determining assumptions to be used in the ECL model such as timing and amounts of expected net recoveries from defaulted accounts and incorporating forward-looking information (called overlays) in calculating ECL. Provision for ECL for the year ended June 30, 2021 amounted to ₱41.8 million.

The disclosures on the allowance for expected credit losses are included in Notes 4 and 6 to the consolidated financial statements.

Audit response

We obtained an understanding of the methodologies and models used for the Group's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments*, to reflect an unbiased and probability-weighted outcome, the time value of money, and the best available forward-looking information.

We (a) assessed the Group's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default against historical analysis of accounts and credit risk management policies and practices in place, (c) tested historical loss rates by inspecting historical recoveries and write-offs; (d) checked the classification of outstanding exposures to their corresponding aging buckets; and (e) checked the forward-looking information used for overlay through statistical test and corroboration using publicly available information and our understanding of the Group's receivable portfolios.

Further, we checked the data used in the ECL models, such as the historical aging analysis and default and recovery data, by reconciling data from source system reports to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis.

We recalculated impairment provisions on a sample basis. We reviewed the disclosures made in the consolidated financial statements based on the requirements of PFRS 9.

Recoverability of Goodwill

Under PFRS, the Group is required to annually test the amount of goodwill for impairment. As at June 30, 2021, the Group's goodwill attributable to each of the Group's cash-generating units (CGUs) that are expected to benefit from the business combination (i.e., each school operation) amounted to ₱247.4 million, which is considered significant to the consolidated financial statements. In addition, management's assessment process requires significant judgments and is based on assumptions, specifically discount rate, forecasted revenue growth, earnings before interest, taxes, depreciation and amortization (EBITDA) margins and long-term growth rate.

The Group's disclosures about goodwill are included in Notes 4 and 15 to the consolidated financial statements.

Audit response

We involved our internal specialist in evaluating the methodology and assumptions used. These assumptions include discount rate, forecasted revenue growth, EBITDA margins and long-term growth rate. We compared the key assumptions used, such as forecasted revenue growth, EBITDA margins, and long-term growth rate against the historical performance of the CGUs and other relevant external data. We tested the parameters used in the determination of the discount rate against market data. We also reviewed the Group's disclosures about those assumptions to which the outcome of the impairment test is most sensitive, specifically those that have the most significant effect on the determination of the recoverable amount of the goodwill.

Other Information

Management is responsible for the other information. The other information comprises the SEC Form 17-A for the year ended June 30, 2021 but does not include the consolidated financial statements and our auditor's report thereon, which we obtained prior to the date of this auditor's report.

Our opinion on the consolidated financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists.

Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern.

If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

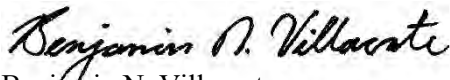

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in this independent auditor's report is Benjamin N. Villacorte.

The SEC approved the amendments on January 3, 2020. On March 11, 2020, the BIR approved the change in fiscal year beginning July 1, 2020.

e. Attenborough Holdings Corp. (AHC)

AHC is a holding company which is a party to the Joint Venture Agreement and Shareholders' Agreement among the Parent Company, Philippine Women's University (PWU) and Unlad Resources Development Corporation (Unlad). Under the Agreements, AHC is set to own up to 20.0% of Unlad. AHC is also a party to the Omnibus Agreement it executed with the Parent Company and Unlad (see Note 33).

Since February 2015, STI Holdings owns 100.0% of AHC.

On March 1, 2016, AHC executed a Deed of Assignment wherein AHC assigned to STI Holdings its loan to Unlad, including capitalized foreclosure expenses, amounting to ₱66.7 million for a cash consideration of ₱73.8 million (see Note 33).

On September 20, 2019, the BOD and stockholders of AHC approved the amendments in its By-Laws, as follows: (1) change in its fiscal year from beginning April 1 of each year and ending on March 31 of the following year to beginning July 1 of each year and ending on June 30 of the following year; and (2) change in the date of its Annual Stockholders' meeting from every last

Thursday of July to every last Thursday of November. The SEC and BIR approved the amendments on January 29, 2020 and June 24, 2020, respectively.

The establishment, operation, administration and management of schools are subject to the existing laws, rules and regulations, policies, and standards of the Department of Education (DepEd), TESDA and the CHED pursuant to Batas Pambansa Bilang 232, otherwise known as the “Education Act of 1982,” Republic Act (RA) No. 7796, otherwise known as the “TESDA Act of 1994,” and RA No. 7722, otherwise known as the “Higher Education Act of 1994,” respectively.

The accompanying consolidated financial statements were approved and authorized for issuance by the BOD of STI Holdings on October 7, 2021.

2. Basis of Preparation and Summary of the Group’s Significant Accounting Policies

Basis of Preparation

The accompanying consolidated financial statements have been prepared on a historical cost basis, except for noncurrent asset held for sale which has been measured at fair value less costs to sell and equity instruments at FVOCI which have been measured at fair value. The consolidated financial statements are presented in Philippine Peso (₱), which is the Parent Company’s functional and presentation currency, and all values are rounded to the nearest peso, except when otherwise indicated.

The Group’s short-period consolidated financial statements as at and for the three-month period ended June 30, 2020 have been prepared pursuant to the Parent Company’s change in accounting period from fiscal year ending March 31 to fiscal year ending June 30, as discussed in Note 1, for purposes of filing with the SEC. The amounts reflected in the June 30, 2020 consolidated statement of comprehensive income, consolidated statement of changes in equity and, consolidated statement of cash flows and the related notes are for three months and, accordingly, are not comparable with the amounts in the June 30, 2021 and March 31, 2020 consolidated financial statements with each pertaining to a whole year.

Seasonality of Operations

The Group’s business is linked to the academic cycle. For SY 2019-2020, both STI ESG and STI WNU started the school calendar of tertiary students in mid-July 2019 and ended in April 2020 while classes for the basic education and SHS of both schools started in June 2019 and ended in March 2020. iACADEMY starts its school calendar every July for tertiary level and August for SHS and ends in June and May, respectively. With the imposition of the Enhanced Community Quarantine (ECQ) and the General Community Quarantine (GCQ) in certain areas around the country, as discussed in Note 40, the schools in the Group transitioned to full remote learning and completed classes of tertiary students for SY 2019-2020 by the end of July 2020. Classes for the basic education and SHS for both STI ESG and STI WNU for the SY 2019-2020 were all completed by end of March 2020.

The tertiary students of the schools under the STI network and STI WNU were given three options to finish the second semester of SY 2019-2020, namely (1) online learning for those who were willing and could go online, may finish all their lessons via the eLearning Management System (eLMS); (2) offline learning for those who were willing to continue and finish all their lessons but could not go online, in which case handouts were provided to the students; or (3) face-to-face for those who could not go online and opted to wait until the Group could resume classes under the “new normal” operations with face-to-face classes combined with applicable learning modes. Classes of students who opted for online and offline studies resumed in the third week of May 2020 and were completed

as at July 30, 2020, while those who opted for face-to-face classes, later took their classes online and completed the same during 1st term of SY 2020-2021.

For SY 2020-2021, STI ESG and STI WNU started classes in September 2020 and ended in June of the following year; while iACADEMY started its classes in August 2020 and ended in May and July of the following year, for SHS and tertiary, respectively.

STI ESG and STI WNU introduced the ONline and ONsite Education at STI (ONE STI) Learning Model for SY 2020-2021. The ONE STI Learning Model is an innovative approach in student development that uses digital tools and online technology combined with invaluable hands-on practice and onsite engagements to achieve the students' academic objectives through a responsive learning experience.

iACADEMY's school calendar for SY 2019-2020 was originally set from August 2019 to May 2020 for SHS level and July 2019 to June 2020 for tertiary level. Classes for SHS and tertiary students were suspended due to the implementation of ECQ in March 2020. SHS modular classes of those who opted for online and offline studies resumed on April 15, 2020 and were completed in June 2020. The online classes of tertiary students resumed on April 15, 2020 and were completed on July 15, 2020.

For SY 2020-2021, iACADEMY introduced its fully online learning program entitled Guided Online Autonomous Learning (GOAL). GOAL is iACADEMY's systematic approach to guiding all the activities that involve the delivery of online instruction to the students, including online learning workshops, training for teachers on how to create high-quality modules, integrating project-based learning and teaching strategies into online learning, internationalization, and collaborating with parents and guardians. Classes for SHS and tertiary levels started on August 24, 2020 and August 28, 2020, respectively.

The Group uses a world-class and award-winning learning management system that is being used by schools and universities across the globe. This cloud-based eLMS gives teachers and students a two-way platform where they can collaborate, assign and submit homework, take assessments, and track learning progress, among others. The concept of online learning is not new to the Group, as the schools in the network have already implemented a blended learning model for the past six years in order that the students may continue their studies at home uninterrupted despite physical classroom disruptions. In this setup, all activities or modules would be delivered 100.0% online through the use of eLMS, Google Meet and Microsoft Teams.

Onsite learning refers to school activities to be conducted on-campus. Onsite activities shall follow the latest regulations issued by the Inter-Agency Task Force for the Management of Emerging Infectious Diseases (IATF), DepEd for SHS, TESDA and CHED for tertiary. In the event that onsite activities are prohibited by a government agency, activities or modules are to be delivered 100.0% online until onsite sessions are allowed. Face-to-face classes remain suspended and thus the Group has continued to conduct classes online as of June 30, 2021.

The revenues of the Group, which are mainly from tuition and other school fees, are recognized as income over the corresponding academic year to which they pertain. Accordingly, as it has been in its old fiscal year and even with its new fiscal year, as discussed in Note 1, the revenue of the Group is expected to be lower during the first quarter of the fiscal year as compared to the other quarters if the number of enrollees remains constant. This information is provided to allow for a proper appreciation of the results of operations of the Group. However, management has concluded that the Group's operation is not highly seasonal.

Statement of Compliance

The accompanying consolidated financial statements have been prepared in accordance with Philippine Financial Reporting Standards (PFRSs). PFRSs include statements named PFRSs, Philippine Accounting Standards (PAS) and Philippine Interpretations based on equivalent interpretations from the International Financial Reporting Interpretations Committee (IFRIC) adopted by the Philippine Financial Reporting Standards Council (FRSC).

Basis of Consolidation

The consolidated financial statements comprise the financial statements of the Parent Company and its subsidiaries as at June 30, 2021 and 2020, and for the year ended June 30, 2021, the three months ended June 30, 2020 and the year ended March 31, 2020.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

Specifically, the Parent Company controls an investee, if and only if, the Parent Company has:

- Power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- Exposure, or rights, to variable returns from its involvement with the investee; and
- The ability to use its power over the investee to affect its returns.

When the Parent Company has less than a majority of the voting or similar rights of an investee, the Parent Company considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- The contractual arrangement with the other vote holders of the investee
- Rights arising from other contractual arrangements
- The Parent Company's voting rights and potential voting rights

The Parent Company re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Parent Company obtains control over the subsidiary and ceases when the Parent Company loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of comprehensive income from the date the Parent Company gains control until the date the Parent Company ceases to control the subsidiary.

Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Parent Company and to the non-controlling interests, even if this results in the non-controlling interests having a deficit balance. When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without loss of control, is accounted for as an equity transaction. If the Parent Company loses control over a subsidiary, it derecognizes the related assets (including goodwill), liabilities, non-controlling interest and other components of equity, while any resultant gain or loss is recognized in profit or loss. Any investment retained is recognized at fair value.

The subsidiaries of STI Holdings, which are all incorporated in the Philippines, are as follows:

CHED, in a letter reply dated July 1, 2016, said that De Los Santos-STI College may apply again for initial permits if it intends to offer the programs enumerated in its letter for SY 2018-2019. De Los Santos-STI College has not resumed its school operations as at October 7, 2021.

Accounting Policies of Subsidiaries. The separate financial statements of subsidiaries are prepared using uniform accounting policies for like transactions and other events in similar circumstances.

The consolidated financial statements include the accounts of STI ESG and its subsidiaries as at June 30, except for the accounts of STI Tuguegarao, STI Caloocan, STI Iloilo and NAMEI, whose financial reporting date ends on December 31; and STI Batangas, STI Novaliches, STI Tanauan, STI Lipa, STI Pagadian, STI Sta. Maria, De Los Santos-STI College and STI QA whose financial reporting date ends on March 31. Adjustments are made for the effects of significant transactions or events that occur between the financial reporting date of the above-mentioned subsidiaries and the financial reporting date of the Group's consolidated financial statements.

Non-controlling Interests. Non-controlling interests represent the portion of profit or loss and net assets in the subsidiaries not held by the Parent Company and are presented in the profit or loss and within equity in the consolidated statement of financial position, separately from equity attributable to equity holders of the Parent Company.

On transactions with non-controlling interests without loss of control, the difference between the fair value of the consideration and the book value of the share in the net assets acquired or disposed is treated as an equity transaction and is presented as part of "Other equity reserve" within the equity section in the consolidated statement of financial position.

Changes in Accounting Policies and Disclosures

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of new and amended standards effective as at July 1, 2020. The adoption of these new standards and amendments did not have any significant impact on the consolidated financial statements except otherwise stated.

- Amendments to PFRS 3, *Business Combinations, Definition of a Business*

The amendments to PFRS 3 clarify that to be considered a business, an integrated set of activities and assets must include, at a minimum, an input and a substantive process that together significantly contribute to the ability to create output. Furthermore, it clarifies that a business can exist without including all of the inputs and processes needed to create outputs. These amendments may impact future periods should the Group enter into any business combinations.

- Amendments to PFRS 7, *Financial Instruments: Disclosures* and PFRS 9, *Financial Instruments, Interest Rate Benchmark Reform*

The amendments to PFRS 9 provide a number of reliefs, which apply to all hedging relationships that are directly affected by the interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainties about the timing and or amount of benchmark based cash flows of the hedged item or the hedging instrument.

- Amendments to PAS 1, *Presentation of Financial Statements*, and PAS 8, *Accounting Policies, Changes in Accounting Estimates and Errors, Definition of Material*

The amendments provide a new definition of material that states “information is material if omitting, misstating or obscuring it could reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements, which provide financial information about a specific reporting entity.”

The amendments clarify that materiality will depend on the nature or magnitude of information, either individually or in combination with other information, in the context of the financial statements. A misstatement of information is material if it could reasonably be expected to influence decisions made by the primary users.

- Conceptual Framework for Financial Reporting issued on March 29, 2018

The Conceptual Framework is not a standard, and none of the concepts contained therein override the concepts or requirements in any standard. The purpose of the Conceptual Framework is to assist the standard-setters in developing standards, to help preparers develop consistent accounting policies where there is no applicable standard in place and to assist all parties to understand and interpret the standards.

The revised Conceptual Framework includes new concepts, provides updated definitions and recognition criteria for assets and liabilities and clarifies some important concepts.

- Amendments to PFRS 16, Coronavirus Disease 2019 (*COVID-19*)-related Rent Concessions beyond June 30, 2021

The amendments provide relief to lessees from applying the PFRS 16 requirement on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. A lessee may elect not to assess whether a rent concession from a lessor is a lease modification if it meets all of the following criteria:

- The rent concession is a direct consequence of COVID-19;
- The change in lease payments results in a revised lease consideration that is substantially the same as, or less than, the lease consideration immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before June 30, 2022; and
- There is no substantive change to other terms and conditions of the lease.

A lessee that applies this practical expedient will account for any change in lease payments resulting from the COVID-19 related rent concession in the same way it would account for a change that is not a lease modification, i.e., as a variable lease payment.

The amendments are effective for annual reporting periods beginning on or after April 1, 2021. Early adoption is permitted.

The Group has early adopted the amendments and applied the practical expedient for rent concessions granted to the Group that meet the aforementioned criteria resulting in recognition of other income amounting to ₱39.7 million which is presented under “Other income - net” in the consolidated statements of comprehensive income for the year ended June 30, 2021 (see Note 28).

Standards Issued but Not Yet Effective

The standards and interpretations that are issued but not yet effective for the year ended June 30, 2021 are listed below. The Group intends to adopt these standards when they become effective. Adoption of these standards and interpretations are not expected to have any significant impact on the consolidated financial statements, except otherwise stated.

Effective beginning on or after July 1, 2021

- Amendments to PFRS 9, PFRS 7, PFRS 4 and PFRS 16, *Interest Rate Benchmark Reform – Phase 2*

The amendments provide the following temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR):

- Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
- Relief from discontinuing hedging relationships
- Relief from the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

The Group shall also disclose information about:

- The nature and extent of risks to which the entity is exposed arising from financial instruments subject to IBOR reform, and how the entity manages those risks; and
- Their progress in completing the transition to alternative benchmark rates, and how the entity is managing that transition.

The amendments are effective for annual reporting periods beginning on or after January 1, 2021 and must be applied retrospectively, however, the Group is not required to restate prior periods.

Effective beginning on or after July 1, 2022

- Amendments to PFRS 3, *Reference to the Conceptual Framework*

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential ‘day 2’ gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and must be applied prospectively.

- Amendments to PAS 16, *Plant and Equipment: Proceeds before Intended Use*

The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

- Amendments to PAS 37, *Onerous Contracts – Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments. The Group is currently assessing the impact of adopting the amendments to PAS 37.

- Annual Improvements to *PFRSs 2018-2020 Cycle*

- Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a first-time adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent's date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The amendments have no impact on the Group since the Group's subsidiaries, associates and joint ventures are not first-time adopters of PFRSs.

- Amendments to PFRS 9, *Financial Instruments, Fees in the '10 per cent' test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment. The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*

The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

An entity applies the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted.

The amendments are not applicable to the Group since none of the entities within the Group have activities that are related with agriculture.

Effective beginning on or after July 1, 2023

▪ Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement
- That a right to defer must exist at the end of the reporting period
- That classification is unaffected by the likelihood that an entity will exercise its deferral right
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. The Group is currently assessing the impact the amendments will have on current practice and whether existing loan agreements may require renegotiation.

▪ PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

PFRS 17 is effective for reporting periods beginning on or after January 1, 2023, with comparative figures required. Early application is permitted.

The amendments are not applicable to the Group since none of the entities within the Group have activities that are predominantly connected with insurance or issuance of insurance contracts.

Deferred effectivity

▪ Amendments to PFRS 10, *Consolidated Financial Statements* and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*

The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint

venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial Reporting Standards Council (FRSC) deferred the original effective date of April 1, 2016 of the said amendments until the International Accounting Standards Board (IASB) has completed its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

The Group has not early adopted the previously mentioned standards. The Group continues to assess the impact of the above new, amended and improved accounting standards and interpretations that are effective subsequent to June 30, 2021 on its consolidated financial statements in the period of initial application. Additional disclosures required by these amendments will be included in the consolidated financial statements when these amendments are adopted.

Business Combination Involving Entities under Common Control

Where there are business combinations in which all the combining entities within the Group are ultimately controlled by the same ultimate parent before and after the business combination and that the control is not transitory (business combinations under common control), the Group may account such business combinations under the acquisition method of accounting or pooling of interests method, if the transaction was deemed to have substance from the perspective of the reporting entity. In determining whether the business combination has substance, factors such as the underlying purpose of the business combination and the involvement of parties other than the combining entities such as the non-controlling interest, shall be considered.

In cases where the business combination has no substance, the Group shall account for the transaction similar to a pooling of interests. The assets and liabilities of the acquired entities and that of the Group are reflected at their carrying values. The difference in the amount recognized and the fair value of the consideration given, is accounted for as an equity transaction, i.e., as either a contribution or distribution of equity. Further, when a subsidiary is disposed in a common control transaction, the difference in the amount recognized and the fair value of the consideration received, is also accounted for as an equity transaction. The Group records the difference as excess of consideration over carrying amount of disposed subsidiary and presents as separate component of equity in the consolidated statement of financial position.

Comparatives shall be restated to include balances and transactions of the entities that had been acquired at the beginning of the earliest period presented as if the companies had always been combined.

Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value, and the amount of any non-controlling interests in the acquiree. For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, any previously held equity interest is re-measured at its acquisition date fair value and any resulting gain or loss is recognized in profit or loss. It is then considered in the determination of goodwill. Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Contingent consideration classified as an asset or liability that is a financial instrument and within the scope of PFRS 9, is measured at fair value with changes in fair value recognized in profit or loss in accordance with PFRS 9. Other contingent consideration that is not within the scope of PFRS 9 is measured at fair value at each reporting date with changes in fair value recognized in profit or loss.

Goodwill acquired in a business combination is initially measured at cost (being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests and any previous interest held over the net identifiable assets acquired and liabilities assumed). If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group reassesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units (CGU) that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill has been allocated to a CGU and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed of in this circumstance is measured based on the relative values of the disposed operation and the portion of the CGU retained.

Current versus Noncurrent Classification

The Group presents assets and liabilities in the consolidated statement of financial position based on current or noncurrent classification.

An asset is current when:

- It is expected to be realized or intended to be sold or consumed in the normal operating cycle
- It is held primarily for the purpose of trading
- It is expected to be realized within twelve months after the reporting period, or
- It is cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as noncurrent.

A liability is current when:

- It is expected to be settled in the normal operating cycle;
- It is held primarily for the purpose of trading;
- It is due to be settled within twelve months after the reporting period; or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Group classifies all other liabilities as noncurrent.

Deferred tax assets and liabilities are classified as noncurrent assets and liabilities, respectively.

Fair Value Measurement

The Group measures financial instruments such as equity instruments at FVOCI at fair value at each reporting date. Also, fair values of investment properties and financial instruments measured at amortized cost are disclosed in Notes 11 and 35 to the consolidated financial statements, respectively.

Fair value is the estimated price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible to the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the consolidated financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable.

For assets and liabilities that are recognized in the consolidated financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

Management determines the policies and procedures for both recurring fair value measurement and non-recurring measurement.

External valuers are involved for valuation of significant assets, such as investment property. Involvement of external valuers is decided upon annually. The current practice of the Group is to involve external valuers every two to three years depending on the circumstances including market conditions and requirements. Selection criteria include market knowledge, reputation, independence and whether professional standards are maintained. Management decides, after discussions with the external valuers, which valuation techniques and inputs to use for each case.

At each reporting date, the management analyzes the movements in the values of assets and liabilities which are required to be re-measured or re-assessed as per accounting policies. For this analysis, the management verifies the major inputs applied in the latest valuation by agreeing the information in the valuation computation to contracts and other relevant documents.

Management, in conjunction with the Group's external valuers, also compares each change in the fair value of each asset and liability with relevant external sources to determine whether the change is reasonable.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

Cash and Cash Equivalents

Cash includes cash on hand and in banks. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of up to three months or less from date of acquisition and are subject to an insignificant risk of change in value.

Financial Instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

a. Financial assets

Initial Recognition and Measurement. Financial assets are classified, at initial recognition, as subsequently measured at amortized cost, FVOCI and fair value through profit or loss (FVTPL).

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. The Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at FVTPL, transaction costs.

In order for a financial asset to be classified and measured at amortized cost or FVOCI, it needs to give rise to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. In making this assessment, the Group determines whether the contractual cash flows are consistent with a basic lending arrangement, i.e., interest includes consideration only for the time value of money, credit risk and other basic lending risks and costs associated with holding the financial asset for a particular period of time. In addition, interest can include a profit margin that is consistent with a basic lending arrangement. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual terms that introduce exposure to risks or volatility in the contractual cash flows that is unrelated to a basic lending arrangement, such as exposure to changes in equity prices or commodity prices, do not give rise to contractual cash flows that are SPPI on the principal amount outstanding.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. It is determined at a level that reflects how groups of financial assets are managed together to achieve a particular business objective. The Group's business model does not depend on management's intentions for an individual instrument.

Subsequent Measurement. For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortized cost (debt instruments)
- Financial assets at FVOCI with recycling of cumulative gains and losses (debt instruments)
- Financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments), and
- Financial assets at FVTPL

As at June 30, 2021 and 2020, the Group has no debt instruments at FVOCI and financial assets at FVTPL.

a. *Financial assets at amortized cost (debt instruments).* The Group measures financial assets at amortized cost if both of the following conditions are met:

- The financial asset is held within a business model with the objective to hold financial assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Financial assets at amortized cost are initially recognized at fair value plus directly attributable transaction costs and subsequently measured at amortized cost using the effective interest (EIR) method, less any impairment in value. Gains and losses are recognized in profit or loss when the asset is derecognized, modified or impaired.

The Group's financial assets at amortized cost include cash and cash equivalents, receivables (except for advances to officers and employees) and rental and utility deposits under "Goodwill, intangible and other noncurrent assets" account as at June 30, 2021 and 2020.

b. *Financial assets designated at FVOCI with no recycling of cumulative gains and losses upon derecognition (equity instruments).* Upon initial recognition, the Group can elect to classify irrevocably its equity investments as equity instruments designated at FVOCI when they meet the definition of equity under PAS 32, *Financial Instruments: Presentation* and are not held for trading nor are contingent consideration recognized in a business combination in accordance with PFRS 3. The classification is determined on an instrument-by-instrument basis.

Gains and losses on these financial assets are never recycled to profit or loss. However, the Group may transfer the cumulative gain or loss within equity. Dividends are recognized as other income in profit or loss when the right of payment has been established, except when the Group benefits from such proceeds as a recovery of part of the cost of the financial asset, in which case, such gains are recorded in OCI. Equity instruments designated at FVOCI are not subject to impairment assessment.

The Group's listed and non-listed equity investments are classified under this category (see Note 14).

Impairment of Financial Assets. The Group recognizes an allowance for ECLs for all debt instruments not held at FVTPL. ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Group expects to receive, discounted at an approximation of the original effective interest rate. The expected cash flows

will include cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms.

Financial assets migrate through the following three stages based on the change in credit quality since initial recognition:

Stage 1: 12-month ECL. For credit exposures where there have not been significant increases in credit risk since initial recognition and that are not credit-impaired upon origination, the portion of lifetime ECLs that represent the ECLs that result from default events that are possible within the 12-months after the reporting date are recognized.

Stage 2: Lifetime ECL - not credit-impaired. For credit exposures where there have been significant increases in credit risk since initial recognition on an individual or collective basis but are not credit-impaired, lifetime ECLs representing the ECLs that result from all possible default events over the expected life of the financial asset are recognized.

Stage 3: Lifetime ECL - credit-impaired. Financial assets are credit-impaired when one or more events that have a detrimental impact on the estimated future cash flows of those financial assets have occurred. For these credit exposures, lifetime ECLs are recognized and interest revenue is calculated by applying the credit-adjusted EIR to the amortized cost of the financial asset.

Loss allowances are recognized based on 12-month ECL for debt investment securities that are assessed to have low credit risk at the reporting date. A financial asset is considered to have low credit risk if:

- the financial instrument has a low risk of default;
- the borrower has a strong capacity to meet its contractual cash flow obligations in the near term; or
- adverse changes in economic and business conditions in the longer term may, but will not necessarily, reduce the ability of the borrower to fulfill its contractual cash flow obligations.

The Group considers a debt investment security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of “investment grade”, or when the exposure is less than 30 days past due. However, when there has been a significant increase in credit risk since origination, the allowance will be based on the lifetime ECL. The Group uses external credit ratings both to determine whether the debt instrument has significantly increased in credit risk and to estimate ECL. For exposures without external credit ratings, if contractual payments are more than 30 days past due, the credit risk is deemed to have increased significantly since initial recognition.

Determining the Stage for Impairment. The Group assesses whether there has been a significant increase in credit risk for financial assets since initial recognition by comparing the risk of a default occurring over the expected life between the reporting date and the date of initial recognition. The Group considers reasonable and supportable information that is relevant and available without undue cost or effort for this purpose. This includes quantitative and qualitative information and forward-looking analysis.

For receivables from students, the Group applies a simplified approach in calculating ECLs. Therefore, the Group does not track changes in credit risk but instead recognizes a loss allowance based on lifetime ECLs at each reporting date. As for the other financial assets, the Group applied a general approach in the calculation since these accounts had no significant deterioration in credit risk since their initial recognition.

Modification of Financial Assets. Where possible, the Group seeks to modify or re-negotiate the terms of its receivables from other parties. This may involve extending payment due dates, changing interest rates and agreeing to new payment conditions. The Group continuously reviews such accounts after modification of terms to ensure that payments are still likely to occur. The Group may also subsequently determine that the credit risk on such assets has significantly improved after modification, depending on the credit performance of the assets.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, an entity shall recalculate the gross carrying amount of the financial asset and shall recognize a modification gain or loss in profit or loss. The gross carrying amount of the financial asset shall be recalculated as the present value of the renegotiated or modified contractual cash flows that are discounted at the financial asset's original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets). Any costs or fees incurred adjust the carrying amount of the modified financial asset and are amortized over the remaining term of the modified financial asset.

Write-off Policy. The Group writes off a financial asset after a certain period since the time the receivable has been determined to be impaired. Receivables are written off when the bad debts are likely to be irrecoverable and or it is uneconomic to pursue further the collection of the receivable after efforts made by the Group.

Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. Any recoveries made are recognized in profit or loss.

Reclassification of Financial Assets. The Group reclassifies its financial assets when, and only when, there is a change in the business model for managing the financial assets. Reclassifications shall be applied prospectively by the Group and any previously recognized gains, losses or interest shall not be restated. The Group does not reclassify its financial liabilities.

A change in the objective of the Group's business model must be effected before the reclassification date. The reclassification date is the beginning of the next reporting period following the change in the business model.

Derecognition. A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

- The rights to receive cash flows from the asset have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a "pass-through" arrangement;
- The Group has transferred its right to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of ownership of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of ownership of the asset nor transferred control of the asset, the Group continues to recognize the transferred asset to the extent of the Group's continuing involvement. In that case,

the Group also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

b. Financial liabilities

Initial Recognition and Measurement. Financial liabilities are classified, at initial recognition, as financial liabilities at FVTPL, or as other financial liabilities.

The Group determines the classification of its financial liabilities at initial recognition.

Financial liabilities are recognized initially at fair value and in the case of other financial liabilities, net of directly attributable transaction costs which include STI ESG's bond issuance costs, such as, taxes and various fees paid to investment banks, law firms, auditors, regulators, and so on.

As at June 30, 2021 and 2020, the Group has no financial liabilities at FVTPL. The Group's financial liabilities as at June 30, 2021 and 2020 are measured at amortized cost.

Subsequent Measurement. After initial recognition, other financial liabilities are subsequently measured at amortized cost using the EIR method.

Gains and losses are recognized in the consolidated statement of comprehensive income when the liabilities are derecognized as well as through the EIR amortization process. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in the consolidated statement of comprehensive income.

Other financial liabilities include interest-bearing loans and borrowings, bonds payable, accounts payable and other current liabilities (excluding government and other statutory liabilities), lease liabilities, and other noncurrent liabilities (excluding advance rent and deferred lease liability).

Derecognition. A financial liability is derecognized when the obligation under the liability is discharged or canceled or has expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the consolidated statement of comprehensive income.

The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10.0% different from the discounted present value of the remaining cash flows of the original financial liability. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognized as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortized over the remaining term of the modified liability.

Modifications of Financial Liability. The Group considers both qualitative and quantitative factors in assessing whether a modification of financial liabilities is substantial or not. The terms are considered substantially different if the present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the present value of the remaining cash flows of the original financial liability. However, under certain circumstances, modification or exchange of a financial liability may still be considered substantial, even where the present value of the cash flows under the new terms is less than 10.0% different from the present value of the remaining cash flows of the original financial liability. There may be situations where the modification of the financial liability is so fundamental that immediate derecognition of the original financial liability is appropriate (e.g., restructuring a financial liability to include an embedded equity component).

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the fair value of the new liability is recognized in profit or loss in the consolidated statement of comprehensive income.

When the exchange or modification of the existing financial liability is not considered as substantial, the Group recalculates the gross carrying amount of the financial liability as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR and recognizes a modification gain or loss in profit or loss.

If modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognized as part of the gain or loss on the extinguishment. If the modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the financial instrument and are amortized over the remaining term of the modified financial instrument.

c. Offsetting of financial instruments

Financial assets and liabilities are offset with the net amount reported in the consolidated statement of financial position if, and only if, there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group assesses that it has a currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default and event of insolvency or bankruptcy of the Group and all of the counterparties.

Inventories

Inventories are valued at the lower of cost and net realizable value (NRV). Cost is determined using the weighted average method. The NRV of educational materials is the selling price in the ordinary course of business, less estimated costs necessary to make the sale. The NRV of promotional and school materials and supplies is the current replacement cost.

Prepaid Expenses and Other Current Assets

Prepaid expenses are carried at cost and are amortized on a straight-line basis over the period of expected usage, which is equal to or less than 12 months or within the normal operating cycle.

Creditable Withholding Taxes (CWT). CWT represents the amount of tax withheld by counterparties from the Group. These are recognized upon collection and are utilized as tax credits against income tax due as allowed by the Philippine taxation laws and regulations. CWT is presented as part of “Prepaid taxes” under the “Prepaid expenses and other current assets” account in the consolidated statement of financial position. CWT is stated at its estimated NRV.

Noncurrent Asset Held for Sale

The Group classifies a noncurrent asset as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continuing use. Such noncurrent asset classified as held for sale is measured at the lower of its carrying amount and fair value less costs to sell. Costs to sell are the incremental costs directly attributable to the sale.

The criteria for held for sale classification are regarded as met only when the asset is available for immediate sale in its present condition and the sale is highly probable. Management must be committed to a plan to sell, which is expected to be completed within one year from the date of the classification, and an active program to locate a buyer and complete the plan must have been initiated. Further, the asset must be actively marketed for sale at a price that is reasonable in relation to its current fair value. Actions required to complete the plan to sell should indicate that it is unlikely that significant changes to the plan will be made or that the plan will be withdrawn.

Investment properties are not depreciated or amortized once classified as held for sale. Equity method of accounting for investment in shares of an associate ceases upon classification of the investment as a noncurrent asset held for sale. Noncurrent asset held for sale is presented separately as part of current assets in the consolidated statement of financial position.

Property and Equipment

The Group’s property and equipment consists of land, buildings, equipment, furniture and fixtures, leasehold improvements, library holdings, construction in-progress and right-of-use (ROU) assets that do not qualify as investment properties.

Property and equipment, except land, are stated at cost less accumulated depreciation, amortization and any impairment in value, excluding the costs of day-to-day servicing. The initial cost of property and equipment comprises its construction cost or purchase price and any directly attributable costs of bringing the property and equipment to its working condition and location for its intended use. Such cost includes the cost of replacing part of such property and equipment when that cost is incurred and the recognition criteria are met. Land is stated at cost less any impairment in value.

The Group recognizes ROU assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). ROU assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The initial cost of ROU assets includes the amount of lease liabilities recognized, initial direct costs incurred, lease payments made at or before the commencement date less any lease incentives received and estimate of costs to be incurred by the lessee in dismantling or removing the underlying asset.

Unless the Group is reasonably certain to obtain ownership of the leased asset at the end of the lease term, the recognized ROU assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term. ROU assets are subject to impairment.

Depreciation and amortization are computed using the straight-line method over the following estimated useful lives or lease term (in the case of ROU assets), whichever is shorter:

Asset Type	Number of Years
Buildings	20 to 25 years
Office and school equipment	3 to 15 years
Office and school furniture and fixtures	3 to 5 years
Leasehold improvements	5 years or terms of the lease agreement, whichever is shorter
Transportation equipment	3 to 5 years
Computer equipment and peripherals	3 years
Library holdings	5 years
Machineries and equipment	10 years
Right-of-use asset - land	25 years
Right-of-use asset - building	2 to 25 years
Right-of-use asset - transportation equipment	3 to 4 years

The estimated useful lives and the depreciation and amortization method are reviewed periodically to ensure that the periods and depreciation and amortization method are consistent with the expected pattern of economic benefits from items of property and equipment.

Fully depreciated assets are retained in the accounts until they are no longer in use and no further depreciation and amortization is charged to current operations.

An item of property and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the consolidated statement of comprehensive income in the year the asset is derecognized.

Construction-in-progress represents structures under construction and is stated at cost less any impairment in value. This includes cost of construction and other direct costs, including any interest on borrowed funds during the construction period. Construction-in-progress is not depreciated until the relevant assets are completed and become available for operational use.

Investment Properties

Investment properties include land and buildings held by the Group for capital appreciation and rental purposes. Investment properties also include right-of-use asset involving a building that is being subleased. Buildings are carried at cost less accumulated depreciation and any impairment in value, while land is carried at cost less any impairment in value. The carrying amount includes the cost of constructing a significant portion of an existing investment property if the recognition criteria are met; and excludes the costs of day-to-day servicing of an investment property.

Depreciation of buildings is computed on a straight-line basis over 20 to 25 years. Unless the Group is reasonably certain to obtain ownership of the leased building at the end of the lease term, the recognized right-of-use asset is depreciated on a straight-line basis over the shorter of their estimated useful life and lease term. The asset's useful life and method of depreciation are reviewed and adjusted, if appropriate, at each financial year-end.

Investment properties are derecognized when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognized in the consolidated statement of comprehensive income in the year of retirement or disposal.

Transfers are made to investment property when, and only when, there is a change in use, evidenced by ending of owner-occupation or commencement of an operating lease to another party. Transfers are made from investment property when there is a change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sell.

For a transfer from investment property to owner-occupied property or inventories, the cost of property for subsequent accounting is its carrying value at the date of change in use. If the property occupied by the Group as an owner-occupied property becomes an investment property, the Group accounts for such property in accordance with the policy stated under property and equipment up to the date of change in use.

Construction-in-progress represents structures under construction and is stated at cost less any impairment in value. This includes the cost of construction and other direct costs, including any interest on borrowed funds during the construction period. Construction-in-progress is not depreciated until the relevant assets are completed and become available for use, capital appreciation and or rental purposes.

Borrowing Costs

Borrowing costs are capitalized if they are directly attributable to the acquisition, construction or production of a qualifying asset. Qualifying assets are assets that necessarily take a substantial period of time to get ready for its intended use or sale. To the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization on that asset shall be determined as the actual borrowing costs incurred on that borrowing during the year less any investment income on the temporary investment of those borrowings. To the extent that funds are borrowed generally and used for the purpose of obtaining a qualifying asset, the amount of borrowing costs eligible for capitalization shall be determined by applying a capitalizable rate to the expenditures on that asset. The capitalization rate shall be the weighted average of the borrowing costs applicable to all borrowings that are outstanding during the year, other than borrowings made specifically for the purpose of obtaining a qualifying asset. The amount of borrowing costs capitalized during the year shall not exceed the amount of borrowing costs incurred during that year.

Capitalization of borrowing costs commences when the activities necessary to prepare the asset for intended use are in progress and expenditures and borrowing costs are being incurred. Borrowing costs are capitalized until the asset is available for their intended use. If the resulting carrying amount of the asset exceeds its recoverable amount, an impairment loss is recognized. Borrowing costs include interest charges and other costs incurred in connection with the borrowing of funds, as well as exchange differences arising from foreign currency borrowings used to finance these projects, to the extent that they are regarded as an adjustment to interest costs.

All other borrowing costs are expensed as incurred in the year in which they occur.

Asset Acquisition

When property is acquired, through corporate acquisitions or otherwise, management considers the substance of the assets and activities of the acquired entity in determining whether the acquisition represents an acquisition of a business.

When such an acquisition is not judged to be an acquisition of a business, it is not treated as a business combination. Rather, the cost to acquire the entity is allocated between the identifiable assets and liabilities of the entity based on their relative fair values at the acquisition date. Accordingly, no goodwill or additional deferred tax arises.

Investments in Associates and Joint Ventures

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee, but is not control or joint control over those policies.

The Group has interests in Philippine Healthcare Educators, Inc. (PHEI) and STI-PHNS Outsourcing Corporation (STI-PHNS), both joint ventures. A joint venture is a type of joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint venture. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The considerations made in determining significant influence or joint control are similar to those necessary to determine control over subsidiaries.

The Group's interests in associates and joint ventures are accounted for using the equity method. Under the equity method, the investment in an associate or a joint venture is initially recognized at cost. The carrying amount of the investment is adjusted to recognize changes in the Group's share of net assets of the associate or joint venture since the acquisition date. Goodwill relating to the associate or joint venture is included in the carrying amount of the investment and is neither amortized nor individually tested for impairment.

The consolidated statement of comprehensive income reflects the Group's share of the results of operations of the associate or joint venture. Any change in OCI of those investees is presented as part of the Group's OCI. In addition, when there has been a change recognized directly in the equity of the associate or joint venture, the Group recognizes its share of any changes, when applicable, in the consolidated statement of changes in equity. Unrealized gains and losses resulting from transactions between the Group and the associate or joint venture are eliminated to the extent of the interest in the associate or joint venture.

The aggregate of the Group's share of profit or loss of an associate and a joint venture is shown on the face of the consolidated statement of comprehensive income outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate or joint venture.

The financial reporting dates of the associates, joint ventures and the Parent Company are identical, except for Synergia Human Capital Solutions, Inc. (Synergia) and Global Resource for Outsourced Workers, Inc. (GROW) which have December 31 as financial reporting date, and the associates' and joint ventures' accounting policies conform to those used by the Group for like transactions and events in similar circumstances. Adjustments are made for the Group's share in the effects of significant transactions or events that occur between the financial reporting date of the above-mentioned associates and joint ventures and the financial reporting date of the Group's consolidated financial statements.

After application of the equity method, the Group determines whether it is necessary to recognize any impairment loss on its investment in associates and joint ventures. The Group determines at each financial reporting date whether there is any objective evidence that the investment in associates and joint ventures is impaired. If this is the case, the Group calculates the amount of impairment as the

difference between the recoverable amount of the associate and joint venture and its carrying value and recognizes the amount in profit or loss.

Upon loss of significant influence over the associate or joint control over the joint venture, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate or joint venture upon loss of significant influence or joint control and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

The associates of the Group, which are all incorporated in the Philippines, are as follows :

Intangible Assets

Intangible assets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any accumulated amortization in the case of intangible assets with finite lives, and any accumulated impairment losses.

The useful lives of intangible assets are assessed as either finite or indefinite. Intangible assets with finite lives are amortized over the economic useful life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortization period and the amortization method for an intangible asset with a finite useful life are reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortization period or method, as appropriate, and are treated as changes in accounting estimates. The amortization expense on intangible assets with finite lives is recognized in the consolidated statement of comprehensive income in the expense category consistent with the function of the intangible asset.

Intangible assets with indefinite useful lives are not amortized, but are tested for impairment annually, either individually or at the CGU level. The assessment of indefinite life is reviewed annually to determine whether the indefinite life continues to be supportable. If not, the change in useful life from indefinite to finite is made on a prospective basis.

The Group has assessed the intangible assets as having a finite useful life, which is the shorter of its contractual term or economic life. Amortization is on a straight-line basis over the estimated useful lives of three years.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the consolidated statement of comprehensive income when the asset is derecognized.

Impairment of Nonfinancial Assets

The carrying values of investments in and advances to associates and joint ventures, property and equipment, investment properties, intangible assets and advances to suppliers are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Group makes a formal estimate of recoverable amount. Recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the CGU to which it belongs. Where the carrying amount of an asset (or CGU) exceeds its recoverable amount, the asset (or CGU) is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or CGU). In determining fair value less costs to sell, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded securities or other available fair value indicators.

Provisions for impairment are recognized in the consolidated statement of comprehensive income in those expense categories consistent with the function of the impaired asset, except for assets previously revalued where the revaluation was taken to equity. In this case, the impairment is also recognized in equity up to the amount of any previous revaluation.

For nonfinancial assets, excluding goodwill and intangible assets with indefinite useful life, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation and amortization, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in profit or loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal, the depreciation and amortization expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Goodwill

Goodwill is reviewed for impairment, annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill by assessing the recoverable amount of the CGUs, to which goodwill relates. Where the recoverable amount of the CGU (or group of CGUs) is less than the carrying amount of the CGU (or group of CGUs) to which the goodwill has been allocated, an impairment loss is recognized in the consolidated statement of comprehensive income. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods. The Group performs its annual impairment test of goodwill at the end of each reporting period.

Unearned Tuition and Other School Fees

Unearned tuition and other school fees refer to the portion of student assessment initially recorded as a liability account at the start of the school term and recognized to earned income proportionately until the end of the related school term. This also includes advance payment for tuition and other

school fees for the school year commencing after the financial reporting date. This represents contract liabilities under PFRS 15, *Revenue from Contracts with Customers*.

Provisions

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Group expects a provision to be reimbursed, such as under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in consolidated statement of comprehensive income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flow at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognized as "Interest expense" in the consolidated statement of comprehensive income.

Capital Stock and Additional Paid-in Capital

Common stock is measured at par value for all shares issued. Incremental costs incurred directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax. Proceeds and/or fair value of consideration received in excess of par value are recognized as additional paid-in capital.

Cost of Shares Held by a Subsidiary

Cost of shares held by a subsidiary is accounted for similar to treasury shares which are recorded at cost. Own equity instruments which are reacquired are deducted from equity. No gain or loss is recognized in profit or loss on the purchase, sale, issuance or the cancellation of the Group's own equity instruments.

Retained Earnings and Dividend on Common Stock of the Parent Company

The amount included in retained earnings includes profit attributable to the Parent Company's equity holders and reduced by dividends on capital stocks. Dividends on capital stocks are recognized as liability and deducted from equity when approved by the BOD of the Parent Company. Dividends for the year that are approved after the financial reporting date are dealt with as an event after the financial reporting period.

Earnings/Losses Per Share Attributable to the Equity Holders of the Parent Company

Earnings/loss per share is computed by dividing net income attributed to equity holders of the Parent Company for the year by the weighted average number of shares issued and outstanding after giving retroactive effect to any stock split and stock dividend declaration, if any.

Diluted EPS is calculated by dividing the net income attributable to equity holders of the Parent Company by the weighted average number of common shares outstanding during the year adjusted for the effects of any dilutive convertible common shares.

Revenue Recognition

Revenue from contracts with customers is recognized when control of the goods or services is transferred to the customer at an amount that reflects the consideration to which the Group expects to be entitled in exchange for those goods or services. The Group assesses whether it is acting as a principal or an agent in every revenue arrangement. It is acting as a principal when it has the primary responsibility for providing the goods or services. The Group also acts as a principal when it has the discretion in establishing the prices and bears inventory and credit risk. Revenue is measured at the fair value of the consideration received, excluding discounts, rebates and value-added tax (VAT).

The following are contract balances relative to PFRS 15:

Tuition and Other School Fee Receivables. Receivables represent the Group's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract Liabilities. A contract liability is the obligation to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized. Contract liabilities are recognized as revenue when the Group performs its performance obligations under the contract. The Group's "Unearned tuition and other school fees" account represents contract liabilities which will be recognized as revenue when the related educational services are rendered. This includes advance payment for tuition and other school fees for the school year commencing after the financial reporting date.

The following specific recognition criteria must also be met before revenue is recognized:

Tuition and Other School Fees. Revenue from tuition and other school fees is satisfied over time using the output method and is recognized as income over the corresponding school term to which they pertain using the output method on the basis of the time lapsed over the service period. Fees received pertaining to the school year commencing after the financial reporting date are recorded under the "Unearned tuition and other school fees" account in the consolidated statement of financial position. Unearned tuition and other school fees are amortized over the related school term.

Educational Services and Royalty Fees. Revenue from educational services and royalty fees is satisfied over time based on a percentage of monthly franchise receipts and is recognized on an accrual basis in accordance with the terms of the licensing agreements.

Sale of Educational Materials and Supplies. Revenue is satisfied at a point in time and is recognized at the time of sale when control of the goods is transferred to the customer.

Other Revenues. Other revenues include income related to the software license subscriptions provided to franchised schools. These revenues are satisfied at a point in time and are recognized at the time of sale when control or rights to the goods or services are transferred to the customer.

The following are the revenue streams outside the scope of PFRS 15:

Rental Income. Rental income is recognized on a straight-line basis over the term of the lease agreement.

Dividend Income. Revenue is recognized when the Group's right to receive the payment is established.

Interest Income. Interest income is recognized as the interest accrues considering the effective yield on the asset.

Costs and Expenses

Costs and expenses are decreases in economic benefits during the accounting period in the form of outflows or decrease of assets or incurrence of liabilities that result in decreases in equity, other than those relating to distributions to equity participants. Costs and expenses are recognized in profit or loss in the year these are incurred.

Pension Costs

The Group has the following pension plans (Plan) covering substantially all of its regular and permanent employees:

Entity	Type of Plan
STI ESG	Funded, noncontributory defined benefit plan
STI WNU	Funded, noncontributory defined benefit plan
iACADEMY	Unfunded, noncontributory defined benefit plan
Indirect subsidiaries (except De Los Santos - STI College and STI QA)	Unfunded, noncontributory defined benefit plan
De Los Santos-STI College and STI QA	Funded, defined contribution plan

Defined Benefit Plans. The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets (if any), adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs comprise the following:

- Service cost
- Net interest on the net defined benefit liability or asset
- Remeasurements of net defined benefit liability or asset

Service costs which include current service costs, past service costs and gains or losses on non-routine settlements are recognized as expense in the consolidated statement of comprehensive income. Past service costs are recognized when plan amendment or curtailment occurs. These amounts are calculated periodically by independent qualified actuaries.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in the consolidated statement of comprehensive income.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund or qualifying insurance policies. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. Fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when and only when reimbursement is virtually certain.

Defined Contribution Plan. De Los Santos-STI College and STI QA are members of the Catholic Educational Association of the Philippines Retirement Plan (CEAP). CEAP is a funded, noncontributory, defined contribution plan covering De Los Santos-STI College's and STI QA's qualified employees under which De Los Santos-STI College and STI QA pay fixed contributions based on the employees' monthly salaries. De Los Santos-STI College and STI QA, however, are covered under RA No. 7641, the Philippine Retirement Law, which provides for its qualified employees a defined benefit (DB) minimum guarantee. The DB minimum guarantee is equivalent to a certain percentage of the monthly salary payable to an employee at normal retirement age with the required credited years of service based on the provisions of RA No. 7641.

Accordingly, De Los Santos-STI College and STI QA account for their retirement obligations under the higher of the DB obligation relating to the minimum guarantee and the obligation arising from the defined contribution (DC) plan. For the DB minimum guarantee plan, the liability is determined based on the present value of the excess of the projected DB obligation over the projected DC obligation at the end of the reporting period. The DB obligation is calculated annually by a qualified independent actuary using the projected unit credit method. De Los Santos - STI College and STI QA determine the net interest expense (income) on the net DB liability (asset) for the period by applying the discount rate used to measure the DB obligation at the beginning of the annual period to the then net DB liability (asset), taking into account any changes in the net DB liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to the DB plan are recognized in profit or loss.

The DC liability, on the other hand, is measured at the fair value of the DC assets upon which the DC benefits depend, with an adjustment for margin on asset returns, if any, where this is reflected in the DC benefits. Remeasurements of the net DB liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in OCI.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. De Los Santos-STI College and STI QA recognize gains or losses on the settlement of a DB plan when the settlement occurs.

Leases

The determination whether an arrangement is, or contains, a lease is based on the substance of the arrangement at the inception date of whether the fulfillment of the arrangement is dependent on the use of a specific asset or the arrangement conveys a right to use the asset, even if that right is not explicitly specified in the arrangement. A reassessment is made after the inception of the lease only if one of the following applies: (a) there is a change in contractual terms, other than a renewal or extension of the agreement; (b) a renewal option is exercised or extension granted, unless the term of the renewal or extension was initially included in the lease term; (c) there is a change in the determination of whether the fulfillment is dependent on a specified asset; or (d) there is a substantial change to the asset.

Where a reassessment is made, lease accounting shall commence or cease from the date when the change in circumstances gave rise to the reassessment for scenarios (a), (c) or (d) and the date of renewal or extension period for scenario (b).

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and ROU assets representing the right to use the underlying assets.

Right-of-use Assets. The Group classifies its ROU assets as part of property and equipment; and investment properties. Refer to the accounting policies in property and equipment; and investment properties sections.

Lease Liabilities. At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the remaining lease term. The lease payments include fixed payments (including in-substance fixed payments, as applicable) less any lease incentives receivable and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating a lease, if the lease term reflects the Group exercising the option to terminate.

In calculating the present value of lease payments, the Group uses the IBR at the lease commencement date if the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made.

In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the in-substance fixed lease payments or a change in the assessment to purchase the underlying asset.

Short-term Leases and Leases with Low-value Assets. The Group applies the short-term lease recognition exemption to its short-term leases of equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognized as expense on a straight-line basis over the lease term.

Lease Modification. Lease modification is defined as a change in the scope of a lease, or the consideration for a lease, that was not part of the original terms and conditions of the lease (for example, adding or terminating the right to use one or more underlying assets, or extending or shortening the contractual lease term).

The Group shall account for a modification to a lease as a new lease from the effective date of the modification, considering any prepaid or accrued lease payments relating to the original lease as part of the lease payments for the new lease. If a change in lease payments does not meet the definition of a lease modification, that change would generally be accounted for as a negative variable lease payment. A lessee recognizes the effect of the rent concession by recognizing the reduction in payment as other income in profit or loss in the consolidated statement of comprehensive income.

Group as Lessor. Leases where the Group does not transfer substantially all the risk and benefits of ownership of the asset are classified as operating lease. Initial direct cost incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same bases as rental income.

Taxes

Current Tax. Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authority. The tax rates and tax laws used to compute the amount are those that are enacted or substantially enacted at the financial reporting date.

Deferred Tax. Deferred tax is provided using the liability method on temporary differences at the financial reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Deferred tax liabilities are recognized for all taxable temporary differences, except:

- when the deferred tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss;
- in respect of taxable temporary differences associated with investments in subsidiaries and associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognized for all deductible temporary differences and carryforward benefit of net operating loss carryover (NOLCO), unused tax credits from excess minimum corporate income tax (MCIT) over regular corporate income tax (RCIT), and to the extent that it is probable that taxable income will be available against which the deductible temporary differences and carryforward benefits NOLCO and MCIT can be utilized, except:

- when the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income or loss;
- in respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable income will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each financial reporting date and reduced to the extent that it is no longer probable that sufficient future taxable profit will be available to allow all or part of the deferred tax assets to be utilized. Unrecognized deferred tax assets are reassessed at each financial reporting date and are recognized to the extent that it has become probable that future taxable income will allow the deferred tax assets to be recovered.

Deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates and tax laws that have been enacted or substantially enacted at the financial reporting date.

Deferred tax relating to items recognized outside profit or loss is recognized outside profit or loss. Deferred tax items are recognized in correlation to the underlying transactions either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset, if a legally enforceable right exists to offset current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

Value-added Tax (VAT). Revenue, expenses and assets are recognized net of the amount of VAT, except:

- when the VAT incurred on a purchase of assets or services is not recoverable from the taxation authority, in which case the VAT is recognized as part of the cost of acquisition of the asset or as part of the expense item as applicable; or
- receivables and payables that are stated with the amount of VAT included.

The net amount of VAT recoverable from, or payable to, the taxation authority is included as part of “Prepaid taxes” under the “Prepaid expenses and other current assets” account or “Accounts payable and other current liabilities” account in the consolidated statement of financial position.

Operating Segment

For management purposes, the Group is organized into business units based on the geographical location of the students and assets. Financial information about operating segments is presented in Note 3 to the consolidated financial statements.

Contingencies

Contingent liabilities are not recognized in the consolidated financial statements. These are disclosed in the notes to consolidated financial statements unless the possibility of an outflow of resources embodying economic benefits is remote. A contingent asset is not recognized in the consolidated financial statements but disclosed in the notes to consolidated financial statements when an inflow of economic benefits is probable.

Events after the Reporting Period

Post year-end events that provide additional information about the Group’s financial position at the financial reporting date (adjusting events) are reflected in the consolidated financial statements. Post year-end events that are not adjusting events are disclosed in the notes to consolidated financial statements when material.

3. Segment Information

For management purposes, the Group is organized into business units based on the geographical location of the students and assets, and has five reportable segments as follows:

- a. Metro Manila
- b. Northern Luzon
- c. Southern Luzon
- d. Visayas
- e. Mindanao

Management monitors operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss and is measured consistently with profit and loss in the consolidated financial statements.

On a consolidated basis, the Group’s performance is evaluated based on consolidated net income (loss) and EBITDA, defined as earnings (losses) before interest expense, interest income, provision for income tax, depreciation and amortization, equity in net losses (earnings) of associates and joint ventures, provision for impairment of noncurrent asset held for sale and nonrecurring gains (losses) such as gain on sale of noncurrent asset held for sale (net of capital gains tax), income on rent

concessions, loss on loan modification, gain on sale on disposal of net assets, and gain on foreign exchange differences. Depreciation and interest expenses for purposes of this computation exclude those related to ROU assets and lease liabilities, respectively.

The following table shows the reconciliation of the consolidated net income (loss) to consolidated EBITDA:

**Net of capital gains tax amounting to ₱45.9 million paid during the year ended June 30, 2021.

Inter-Segment Transactions

Segment revenue, segment expenses and operating results include transfers among geographical segments. The transfers are accounted for at market prices charged to unrelated customers for similar services. Such transfers are eliminated upon consolidation.

The following tables present revenue and income information regarding geographical segments for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020:

4. Significant Accounting Judgments, Estimates and Assumptions

The preparation of the consolidated financial statements in conformity with PFRSs requires management to make judgments, estimates and assumptions that affect the amounts reported in the consolidated financial statements and related notes. The estimates used are based upon management's evaluation of relevant facts and circumstances as at the date of the consolidated financial statements, giving due consideration to materiality. Actual results could differ from such estimates.

The Group believes the following represents a summary of these significant judgments, estimates and assumptions and related impact and associated risks in its consolidated financial statements.

In response to the COVID-19 outbreak, which has caused global economic disruption, the Group has implemented programs to minimize the risks related to COVID-19 and continue its operations.

Management has considered the impact of COVID-19 pandemic on the Group's significant accounting judgments and estimates and there are no changes to the significant judgments and estimates in the June 30, 2021 and 2020 consolidated financial statements from those applied in the previous financial year, other than for those disclosed under this section.

Judgments

In the process of applying the Group's accounting policies, management has made the following judgments, apart from those involving estimations, which have the most significant effect on the amounts recognized in the consolidated financial statements.

Recognition of Revenue from Tuition and Other School Fees, Educational Services and Royalty Fees over time. The Group concluded that tuition and other school fees, educational services and royalty fees are to be recognized over time using the output method on the basis of time lapsed over the service period as it provides a representation of the Group's performance in transferring control of the services to the students. The fact that another entity would not need to re-perform the service that the Group has provided to date demonstrates that the students and franchisees simultaneously receive and consume the benefits of the Group's performance as it performs.

Recognition of Revenue from the Sale of Educational Materials and Supplies at a Point in Time. Revenue from the sale of educational materials and supplies is recognized at the point in time when the control of the asset is transferred to the customer, generally upon receipt of the goods by franchisees and students. It is also the point in which the customer has a present obligation to pay for the asset and the Group has transferred physical possession of the asset.

Determination of Control Arising from a Management Contract. STI ESG has a management contract with STI Caloocan. Management has concluded that STI ESG, in substance, has the power to direct its relevant activities and has the means to obtain majority of the benefits of STI Caloocan, a non-stock corporation, through the management contract. Management has assessed that it has control over STI Caloocan and accordingly, classifies the entity as subsidiary effective from the date control was obtained.

Classification and Measurement of Financial Assets

a. Contractual Cash Flows Assessment

For each financial asset, the Group assesses the contractual terms to identify whether the instrument is consistent with the concept of SPPI.

“Principal” for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset if there are payments of principal or amortization of the premium/discount. “Interest” is defined as the compensation for the time value of money and credit risk although it can also include compensation for other lending risks such as liquidity, administrative costs and profit margin.

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set.

In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are SPPI on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

b. *Evaluation of Business Model in Managing Financial Instruments*

The Group determines its business model at the level that best reflects how it manages financial assets to achieve its business objective. The Group’s business model is not assessed on an instrument-by-instrument basis but at a higher level of aggregated portfolios.

In determining the classification of a financial instrument under PFRS 9, the Group evaluates in which business model a financial instrument or a portfolio of financial instruments belong to taking into consideration the objectives of each business model established by the Group, various risks and the expected frequency, value, timing, as well as the manner of compensation for them.

The business model assessment is based on reasonably expected scenarios without taking “worst case” or “stress case” scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Group’s original expectations, the Group does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward.

Noncurrent Asset Held for Sale. On June 24, 2021, the Parent Company’s BOD approved the sale to an interested buyer of the Parent Company’s properties located in Quezon City (“Quezon City dacion properties”) which were obtained by the Parent Company through the deeds of dacion in 2016 as these properties have not been used in business since acquisition. Management considered these properties to meet the criteria to be classified as held for sale for the following reasons:

- The BOD approved the disposition of the Quezon City dacion properties
- The Quezon City dacion properties are available for immediate sale in its present condition
- Negotiations with an interested buyer have been initiated
- The properties will be sold at a price approximating its current fair value
- Management expects to complete the sale within one year from the date of classification

As a result of the classification as noncurrent asset held for sale, the Parent Company ceased to account for the properties as investment properties effective June 30, 2021 and carried such properties at the lower of its carrying amount and fair value less costs to sell. No impairment loss was recognized as a result of such classification (see Notes 9 and 11).

On June 27, 2017, STI ESG's BOD approved the disposition of STI ESG's shares in Maestro Holdings to enable STI ESG to focus on its core business of offering educational services. Management considered the investment in the shares of Maestro Holdings to meet the criteria to be classified as held for sale for the following reasons:

- The BOD approved the disposition of the shares in Maestro Holdings
- The investment in the shares of Maestro Holdings is available for immediate sale in its present condition
- Actions to locate a buyer and complete the sale have been initiated
- The shares will be sold at a price approximating its current fair value
- Management expects to complete the sale within one year from the date of classification.

As a result of the classification as noncurrent asset held for sale, STI ESG ceased the use of the equity method of accounting for its investment in Maestro Holdings effective June 30, 2017 and was carried at the lower of its carrying amount and fair value less costs to sell.

On September 24, 2020, STI ESG's BOD approved the sale of its 20% stake in Maestro Holdings to a third-party investor for a consideration higher than its present carrying value, subject to completion of certain closing conditions.

On December 11, 2020, the BOD of STI ESG approved the sale of STI ESG's 20% stake in Maestro Holdings to Chita SPC Limited, for and on behalf of its segregated portfolio Cam Sea Special Opportunities Fund Segregated Portfolio (Chita SPC Limited), for a purchase price US\$10.0 million, subject to such terms and conditions as are beneficial to the interest of STI ESG (see Note 9).

Contingencies. The Group is currently a party in a number of cases involving claims and disputes related to collection of receivables and labor. The Group's estimate of the probable costs for the resolution of these claims has been developed in consultation with outside legal counsels handling defense in these matters and is based upon an analysis of potential results. Management and its legal counsels believe that the Group has substantial legal and factual bases for its position and are of the opinion that losses arising from these legal actions, if any, will not have a material adverse impact on the consolidated financial statements. It is possible, however, that future results of operations could be materially affected by changes in the estimates or in the effectiveness of strategies relating to these proceedings (see Note 33).

Estimates and Assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the financial reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

Measurement of Expected Credit Losses. ECLs are derived from unbiased and probability-weighted estimates of expected loss, and are measured as follows:

- Financial assets that are not credit-impaired at the reporting date: as the present value of all cash shortfalls over the expected life of the financial asset discounted by the effective interest rate. The cash shortfall is the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive.
- Financial assets that are credit-impaired at the reporting date: as the difference between the gross carrying amount and the present value of estimated future cash flows discounted by the credit-adjusted effective interest rate.

The ECL is measured on either a 12-month or lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. ECLs are the discounted product of the Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD), defined as follows:

- *Probability of Default.* The PD represents the likelihood of a borrower defaulting on its financial obligation, either over the next 12 months, or over the remaining life of the obligation. PD estimates are estimates at a certain date, which are calculated based on statistical rating models based on internally compiled data comprising both quantitative and qualitative factors. Where it is available, market data may also be used to derive the PD.
- *Loss Given Default.* LGD represents the Group's expectation of the extent of loss on a defaulted exposure, taking into account the mitigating effect of collateral, its expected value when realized and the time value of money.
- *Exposure at Default.* EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months or over the remaining lifetime.

Simplified Approach for Receivables from Students. The Group applies the simplified approach in calculating ECLs of receivables from students. The Group develops loss rates based on days past due for each grouping of receivables per school term. The methodology is initially based on the Group's historically observed default rates. The Group then adjusts the historical credit loss experience using forward-looking information. At every reporting date, the historical default rates are updated and changes in the forward-looking estimates are analyzed.

The assessment of the correlation between historical default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of the customer's actual default in the future.

The Group's impairment calculations are outputs of statistical models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the impairment models that are considered accounting judgments and estimates include:

- The Group's criteria for defining default and for assessing if there has been a significant increase in credit risk;
- The segmentation of financial assets when impairment is assessed on a collective basis;
- The choice of inputs and the various formulas used in the impairment calculation;
- Determination of relationships between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs; and
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the impairment models.

It is the Group's policy to regularly review its models in the context of actual loss experience and adjust when necessary. The Group has considered the impact of the COVID-19 pandemic on the ECLs of its financial instruments, mainly receivables from students. The amount and timing of the ECLs, as well as the probability assigned thereto, have been based on the available information at the end of the first three months subsequent to report date. As a result of this review, the probability of default of receivables from students that are due subsequent to report date was adjusted accordingly. Additional scenario analysis was incorporated which considered differing severity and duration assumptions relating to the global pandemic. This included probability-weighted shocks to annual

gross domestic product (GDP) and consequential impacts on unemployment and other economic variables.

As uncertainties in market trend and economic conditions may remain persistent amidst the continuous spread of COVID-19, actual results in the future periods may differ from the estimates.

Incorporation of Forward-looking Information. The Group incorporates forward-looking information into both its assessment of whether the credit risk of an instrument has increased significantly since its initial recognition and its measurement of ECL.

The Group has identified and documented key drivers of credit risk and credit losses of each portfolio of financial instruments and, using an analysis of historical data, has estimated relationships between macro-economic variables and credit risk and credit losses.

The macro-economic variables include the following key indicators for the Philippines: unemployment rates, inflation rates and GDP growth rate. The inputs and models used for calculating ECL may not always capture all characteristics of the market at the date of the consolidated financial statements. To reflect this, qualitative adjustments or overlays are occasionally made as temporary adjustments when such differences are significantly material.

The Group has not identified any uncertain event that it has assessed to be relevant to the risk of a default occurring but where it is not able to estimate the impact on ECL due to lack of reasonable and supportable information.

The Group recognized provision for ECL, net of reversal, amounting to ₱41.8 million, ₱6.3 million and ₱57.4 million for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020, respectively. Allowance for ECL on receivables amounted to ₱209.5 million and ₱231.4 million as at June 30, 2021 and 2020, respectively. The carrying amounts of receivables as at June 30, 2021 and 2020 are disclosed in Note 6.

Valuation of Noncurrent Asset Held for Sale. PFRS 5 requires noncurrent assets held for sale to be carried at the lower of fair value less costs to sell and its carrying amount.

For the investment properties held for sale, the Group engaged an independent professionally qualified appraiser to determine the fair value of the properties. The Level 3 fair value of these properties was derived using the market approach. The market approach is a comparative approach to value which considers the sale of similar or substitute properties and related market data and establishes a value estimate by a process involving comparison.

For the investment held for sale, management used the adjusted consolidated net assets value of PhilPlans First, Inc. (PhilPlans) and discounted cash flows from the financial budget covering five years approved by the management of Philippine Life Financial Assurance Corporation (PhilLife) and PhilhealthCare, Inc. (PhilCare) in estimating the fair value of Maestro Holdings. Philplans consists primarily of investments in listed equity instruments, government bonds, other fixed-income securities (accounts valued at Level 1 and Level 2) and pre-need reserves. Management used a discount rate for the discounted cash flows of PhilLife and PhilCare equal to the prevailing rates of return for a group having substantially the same risks and characteristics. Key assumptions used by management are growth rates, long-term growth rate, discount rates, discount on lack of control (DLOC), discount on lack of marketability (DLOM), and estimated costs to sell (under Level 3).

The Group recognized a provision for impairment of noncurrent asset held for sale amounting to ₱297.5 million for the year ended March 31, 2020. No impairment was recognized for the year ended June 30, 2021 and the three-month period ended June 30, 2020. As at June 30, 2021 and 2020, the carrying value of the noncurrent asset held for sale amounted to ₱1,020.7 million and ₱419.1 million, respectively (see Notes 9 and 11).

Estimating Useful Lives of Nonfinancial Assets. Management determines the estimated useful lives and the related depreciation and amortization charges for its property and equipment, investment properties (excluding land) and intangible assets based on the period over which the property and equipment, investment properties and intangible assets are expected to provide economic benefits. Management's estimation of the useful lives of property and equipment, investment properties and intangible assets is based on a collective assessment of industry practice, internal technical evaluation, and experience with similar assets while for intangible assets with a finite life, estimated useful life is based on economic useful benefit of the intangible assets. These estimations are reviewed periodically and could change significantly due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets. A reduction in the estimated useful lives of property and equipment, investment properties and intangible assets would increase recorded expenses and decrease noncurrent assets.

There were no changes in the estimated useful lives of the Group's property and equipment, investment properties and intangible assets as at June 30, 2021 and 2020. The carrying values of nonfinancial assets subject to depreciation and amortization are as follows:

	June 30, 2021	June 30, 2020
Property and equipment (excluding land and construction in-progress) (see Note 10)	₱6,362,118,533	₱6,709,410,352
Investment properties (excluding land) (see Note 11)	537,346,207	597,359,505
Intangible assets (see Note 15)	47,476,586	41,963,660

Impairment of Nonfinancial Assets. PFRSs require nonfinancial assets, excluding goodwill and intangible assets with indefinite useful life, to be tested for impairment when certain impairment indicators are present, irrespective of whether there are any indications of impairment. Nonfinancial assets include property and equipment, investment properties, investment in and advances to associates and joint ventures and intangible assets and other noncurrent assets.

Management is required to make estimates and assumptions to determine the future cash flows to be generated from the continued use and ultimate disposition of these assets in order to determine the value of these assets. While the Group believes that the assumptions used are reasonable and appropriate, these estimates and assumptions can materially affect the consolidated financial statements. Future adverse events may cause management to conclude that the affected assets are impaired and may have a material impact on the financial condition and results of operations of the Group. The carrying value of property and equipment, investment properties, investment in and advances to associates and joint ventures and intangible assets and other noncurrent assets are disclosed in Notes 10, 11, 12, 13 and 15, respectively.

The Group recognized a provision for impairment of investments in and advances to associates and joint ventures amounting to ₱10.3 million for the year ended June 30, 2021. No impairment was recognized for the three-month period ended June 30, 2020 and the year ended March 31, 2020 (see Note 25). As at June 30, 2021 and 2020, the carrying value of the investments in and advances to associates and joint ventures amounted to ₱38.7 million and ₱43.3 million, respectively (see Note 12).

Impairment of Goodwill and Intangible Assets with Indefinite Useful Life. Acquisition method requires extensive use of accounting estimates and judgments to allocate the purchase price to the fair market values of the acquiree's identifiable assets, liabilities and contingent liabilities at the acquisition date. It also requires the acquirer to recognize any goodwill as the excess of the acquisition cost over the fair value of the acquiree's identifiable assets, liabilities and contingent liabilities. The Group's business acquisitions have resulted in goodwill and intangible assets with indefinite useful life which are subject to an annual impairment testing. This requires an estimation of the value in use of the CGUs to which the goodwill and intangible assets with indefinite useful life are allocated. Estimating the value in use requires the Group to make an estimate of the expected future cash flows from the CGU and also to choose a suitable discount rate in order to calculate the present value of those cash flows.

The Group also reviewed its business and operations to take into consideration the estimated impact and effects of the COVID-19 pandemic on its operations. Using the updated information and various scenarios of future financial performance and cash flows, an assessment of the recoverability of certain assets as at reporting date was conducted.

The recoverable amounts of CGUs have been determined based on value in use calculations using cash flow projections covering a five-year period based on long-range plans approved by management. The significant assumptions used in the value in use calculations are forecasted revenue growth, EBITDA margins, long-term growth rate and discount rate.

Management used an appropriate discount rate for cash flows equal to the prevailing rates of return for a group having substantially the same risks and characteristics. Management used the weighted average cost of capital (WACC) wherein the source of the costs of equity and debt financing are weighted. The weighted average cost of capital is the overall required return on the CGUs. A pre-tax discount rate ranging from 10.41% to 10.55% and from 9.52% to 10.03% were used as at June 30, 2021 and 2020, respectively. The growth rate used in extrapolating cash flows beyond the period covered by the CGUs' recent budgets was 5.00%.

Impairment testing showed that the CGUs' recoverable amounts were greater than their carrying amounts. No provision for impairment losses on goodwill are recognized for the year ended June 30, 2021 and the three-month period ended June 30, 2020. Goodwill amounted to ₱247.4 million and ₱245.4 million as at June 30, 2021 and 2020; while intangible assets with indefinite useful life amounted to ₱27.6 million as at June 30, 2021 and 2020 (see Note 15).

Realizability of Deferred Tax Assets. Deferred tax assets are recognized for all deductible temporary differences and carryforward benefits of NOLCO and MCIT to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and carryforward benefits of NOLCO and MCIT can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Deferred tax assets recognized as at June 30, 2021 and 2020 are disclosed in Note 29 to the consolidated financial statements.

Measurement of Lease Liabilities. The Group's lease liabilities are measured based on the present value of lease payments over the lease term using the Group's IBR.

▪ *Determination of Lease Term*

The Group has several lease contracts that include extension and termination options. The Group applies judgement in evaluating whether it is reasonably certain whether or not to exercise the option to renew or terminate the lease. That is, it considers all relevant factors that create an economic incentive for it to exercise either the renewal or termination. After the commencement date, the Group reassesses the lease term if there is a significant event or change in circumstances that is within its control and affects its ability to exercise or not to exercise the option to renew or to terminate (e.g., construction of significant leasehold improvements).

The Group determined that renewal periods of leases with longer periods are not included as part of the lease term as these are not reasonably certain to be exercised.

▪ *Estimating the Incremental Borrowing Rate*

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its IBR to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the ROU asset in a similar economic environment. The IBR therefore reflects what the Group 'would have to pay', which requires estimation when no observable rates are available or when they need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

The Group's lease liabilities as at June 30, 2021 and 2020 are disclosed in Note 28 to the consolidated financial statements.

Determining Pension Liabilities. The determination of the obligation and cost for pension benefits is dependent on the selection of certain assumptions provided by the Group to its actuaries in calculating such amounts. Those assumptions are described in Note 27 and include among others, discount rate and future salary increases. In accordance with Revised PAS 19, *Employee Benefits*, actual results that differ from the Group's assumptions are included in OCI and are not reclassified to profit or loss in subsequent periods. While it is believed that the Group's assumptions are reasonable and appropriate, significant differences in actual experience or significant changes in assumptions may materially affect the Group's pension and other pension obligations.

The carrying value of net pension liabilities amounted to ₱105.4 million and ₱115.4 million as at June 30, 2021 and 2020, respectively (see Note 27).

5. **Cash and Cash Equivalents**

	June 30, 2021	June 30, 2020

Cash equivalents	671,154,753	232,949,156

Cash in banks earn interest at the prevailing bank deposit rates. Cash equivalents are short-term placements which are made for varying periods of up to three months depending on the immediate cash requirements of the Group and earn interest at the prevailing short-term investment rates.

Interest earned from cash in banks and cash equivalents for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020 amounted to ₱4.6 million, ₱1.6 million, and ₱12.2 million respectively (see Note 22).

On March 17, 2021, STI ESG executed a memorandum of agreement with DBP for the implementation of the DBP Resources for Inclusive and Sustainable Education Program (DBP RISE). The program grants financial assistance to deserving students from the ranks of underprivileged Filipino families who aspire to pursue studies in DBP-accredited public and private tertiary schools. DBP RISE covers (1) the total cost of tuition fees for all year levels of the entire course or program based on the partner school's tuition fees structure which is determined at the beginning of the first term of the course or program for SY 2020-2021, and (2) student support fund which covers other school fees, miscellaneous fees, and living allowance that will be determined and set by DBP.

These receivables are noninterest-bearing. Receivables from students are normally collected on or before the date of major examinations while receivables from DepEd, CHED and DBP are expected to be collected in full within the next fiscal year.

- b. Educational services receivables pertain to receivables from franchisees arising from educational services, royalty fees and other charges. These receivables are generally noninterest-bearing and are normally collected within 30 days. Interest is charged on past due accounts.

Interest earned from past due accounts amounted to ₱0.9 million, ₱0.3 million and ₱0.7 million for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020, respectively (see Note 22).

- d. Advances to officers and employees are normally liquidated within one month.
- e. Dividend receivable pertains to dividends declared by De Los Santos Medical Center, Inc. (DLSMC), formerly De Los Santos General Hospital, in June 2021 which were received by STI ESG on July 15, 2021.
- f. As at June 30, 2020, other receivables account includes ₱75.5 million receivables from a franchisee, STI College Tanay, Inc. (STI Tanay). On November 4, 2019, STI ESG and DBP entered into a Deed of Assignment wherein DBP assigned, transferred and conveyed, without recourse, all its collectibles from STI Tanay to STI ESG for a consideration of ₱75.5 million. DBP likewise granted to STI ESG all the rights, title and interest in and to the loan, the Promissory Notes and the underlying collaterals and security covering the loan and Promissory Notes, as well as full power and authority to demand, collect and receive payment on the said loan and Promissory Notes.

This loan of STI Tanay is secured by real estate mortgages over the following properties: 1) the land and building where STI Tanay is situated, including all improvements therein, and registered in the name of STI College Tanay, Inc., and 2) a third-party mortgage over land and building including improvements therein, located in Pasig City. Using the latest available appraisal report dated June 2019, the appraised value of these properties amounted to ₱89.4 million.

STI ESG is currently in the process of having the Deed of Assignment and Addendum annotated on the Transfer Certificates of Title (TCTs) covering the said properties in Tanay, Rizal and Pasig City.

STI ESG started foreclosure proceedings after several demand/collection letters were sent to STI Tanay.

The Extrajudicial Foreclosure Sale for the property located in Pasig City was conducted on March 16, 2021 by the Office of the Clerk of Court of Pasig City. At the conclusion of the Extrajudicial Foreclosure Sale, STI ESG was declared as the winning bidder for the said Pasig City property. On July 14, 2021, the Office of the Clerk of Court of the Regional Trial Court of Pasig City issued the Certificate of Sale which indicates the sale to STI ESG, by public auction, of the said Pasig Property. The one (1) year redemption period will commence from the annotation of the Certificate of Sale on the TCT covering the property in Pasig City.

STI ESG has filed a Petition for Extrajudicial Foreclosure for the property located in Tanay with the Office of the Clerk of Court of the Regional Trial Court of Morong. The Notice of Foreclosure Sale shall be issued by the Office of the Clerk of Court of the Regional Trial Court of Morong upon showing proof of the annotation of the Deed of Assignment and Addendum on the TCT covering the property in Tanay, Rizal. As at October 7, 2021, STI ESG is in the process of complying with certain requirements of the Clerk of Court of Rizal for the foreclosure proceedings.

As at June 30, 2021, the outstanding receivable was reclassified to noncurrent asset under “Goodwill, intangible and other noncurrent assets” account (see Note 15).

This account also includes receivables from a former franchisee, vendors, and SSS, amounting to ₱1.6 million, ₱6.7 million and ₱4.4 million, respectively, as at June 30, 2021 and amounting to ₱1.6 million, ₱6.3 million and ₱5.7 million, respectively, as at June 30, 2020. 9. Noncurrent Asset Held for Sale

Quezon City Properties

Noncurrent asset held for sale amounting to ₱1,020.7 million as at June 30, 2021 represents the carrying value of the land, building and land improvements located in Quezon City ("Quezon City dacion properties") which were obtained by the Parent Company through the deeds of dacion in 2016 (see Note 11).

On June 24, 2021, the Parent Company's BOD approved the sale of the Quezon City dacion properties to a potential buyer as these properties have not been used in business since acquisition. Negotiations with the interested buyer are ongoing as at June 30, 2021. With the classification as noncurrent asset held for sale, the Parent Company ceased the accounting for the Quezon City dacion properties as investment properties on June 30, 2021 and carried the said properties at the lower of its carrying amount and fair value less costs to sell. No impairment loss was recognized as a result of such classification.

Maestro Holdings

Noncurrent asset held for sale amounting to ₱419.1 million as at June 30, 2020 represents the carrying value of STI ESG's 20% ownership in Maestro Holdings. Maestro Holdings owns 100.0% of PhilPlans, 99.89% of PhilCare, 90.77% of PhilLife and 100.0% of Banclife Insurance Co. Inc. (Banclife). PhilPlans is a leading pre-need company, providing innovative pension, education and life plans. It used to own 65.0% of Rosehills Memorial Management, Inc. (RMMI), a company engaged in the operation and management of a memorial park, memorial and interment services and sale of memorial products, until its sale to Maestro Holdings in February 2021. PhilCare is a Health Maintenance Organization (HMO) that provides effective and quality health services and operates through its own clinics and through nationwide accredited clinics and hospitals. PhilLife provides financial services, such as individual, family and group life insurance, investment plans and loan privilege programs. Banclife is formerly engaged in the life insurance business in the Philippines. It ceased operations in March 2013.

On June 27, 2017, STI ESG's BOD approved the disposal of its 20% stake in Maestro Holdings to enable STI ESG to focus on its core business of offering educational services. With the classification as noncurrent asset held for sale on June 30, 2017, STI ESG ceased the use of the equity method of accounting for its investment in Maestro Holdings and the investment was carried at the lower of its carrying amount or fair value less costs to sell.

STI ESG recognized a provision for impairment of ₱297.5 million for the year ended March 31, 2020 as a result of the decline in the fair value of Maestro Holdings. The decline in fair value as at March 31, 2020 is an impact of the COVID-19 pandemic and the ensuing economic and market disruptions across markets and industries. The fair value was estimated using adjusted consolidated net assets value which consists significantly of investments in listed equity instruments, government bonds, other fixed-income securities (accounts valued at Level 1 and Level 2) and pre-need reserves of PhilPlans, and discounted cash flows from the financial budget covering five years approved by the management of PhilLife and PhilCare. No provision for impairment was recognized for the year ended June 30, 2021 and the three-month period ended June 30, 2020.

Key assumptions used for the discounted cash flows of PhilLife and PhilCare (under Level 3) are growth rates for: net premiums (7.00% y-o-y growth), claims (30.00% of net premiums), enrollees' fee (9.31% to 9.66%) and enrollees' claims (70.00% of enrollees' fees); long-term growth rate (5.70%); and discount rates (13.80% to 15.10%). Other key assumptions used in determining the fair value less costs to sell include DLOC and DLOM (15.00% to 20.00%) and estimated costs to sell (5.00%) (see Note 4).

On September 24, 2020, STI ESG's BOD approved the sale to a third-party investor for a consideration higher than its present carrying value, subject to completion of certain closing conditions.

On December 11, 2020, STI ESG's BOD approved the sale of STI ESG's 20% stake in Maestro Holdings to Chita SPC Limited for a purchase price of US\$10.0 million, subject to such terms and conditions as are beneficial to the interest of STI ESG.

On December 15, 2020, STI ESG and Chita SPC Limited executed a deed of absolute sale wherein the latter offered to purchase all 1,281,484 shares of STI ESG in Maestro Holdings representing 20% ownership, for a total consideration of US\$10.0 million, equivalent to ₱480.5 million. The amount of US\$10.0 million has been fully received by STI ESG. This transaction resulted in a gain amounting to ₱15.5 million (net of capital gains tax of ₱45.9 million) which is presented as "gain on sale of noncurrent asset held for sale, net of capital gains tax" in the consolidated statement of comprehensive income for the year ended June 30, 2021. The difference between the selling price of ₱480.5 million and the carrying value of STI ESG's 20% stake in Maestro Holdings of ₱419.1 million amounted to a gain of ₱61.4 million. The capital gains tax of ₱45.9 million represents 15.0% of ₱306.4 million, which is the difference between the selling price and the acquisition cost of investment amounting to ₱174.1 million. The sale also resulted in the reclassification of other comprehensive income associated with noncurrent asset held for sale to retained earnings and other equity reserve amounting to ₱89.9 million and ₱0.7 million, respectively (see Note 20).

As at June 30, 2020, investment properties primarily include parcels of land and buildings and land improvements located in Quezon City and Davao City currently held by the Parent Company for capital appreciation and are not used in business.

These properties were obtained by the Parent Company from Unlad through the Deeds of Dacion executed on March 31, 2016 (pursuant to a Memorandum of Agreement as discussed in Note 33) for a total dacion price of ₱911.0 million as settlement of the outstanding obligations of Unlad and PWU to the Parent Company, arising from the loans extended by the Parent Company to PWU and Unlad when the Parent Company acceded, in November 2011, to the Joint Venture Agreement and Shareholders' Agreement (the "Agreements") by and among PWU, Unlad, an Individual and Mr. Eusebio H. Tanco (EHT), STI Holdings' BOD Chairman, for the formation of a strategic arrangement with regard to the efficient management and operation of PWU (see Note 33). PWU is a private non-stock, non-profit educational institution, which provides basic, secondary, and tertiary education to its students while Unlad is a real estate company controlled by the Benitez Family and has some assets which are used to support the educational thrust of PWU. The properties were recognized at fair value amounting to ₱1,280.5 million at dacion date.

As discussed in Note 9, on June 24, 2021, the Parent Company's BOD approved the sale of the Quezon City dacion properties. Consequently, the carrying value of these properties amounting to ₱1,020.7 million was reclassified to "Noncurrent asset held for sale" under current assets (see Note 9).

Fair Value

The fair values of the Group's investment properties were determined by an independent professionally qualified appraiser accredited by the SEC. The fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Land

Level 3 fair value of land was derived using the market approach. The market approach is a comparative approach to value which considers the sale of similar or substitute properties and related market data and establishes a value estimate by a process involving comparison. Listings and offerings may also be considered. Sales price of comparable land in close proximity (external factor) are adjusted for differences in key attributes (internal factors) such as location and size.

Using the latest available valuation report as at June 30, 2021, the following shows the valuation technique used in measuring the fair value of the land, as well as the significant unobservable inputs used:

Fair value of Quezon City and Davao properties	₱2,117,723,000*
Valuation technique	Market approach
Unobservable input	Net price per square meter, location, size, depth, influence, and time element

Relationship of unobservable inputs to fair value	The higher the price per square meter, the higher the fair value
---	--

**Includes Quezon City dacion properties with fair value amounting to ₱1,776.2 million classified as noncurrent asset held for sale as at June 30, 2021 (see Note 9)*

Fair value of STI ESG's land	₱134,287,000
Valuation technique	Market approach
Unobservable input	Net price per square meter
Relationship of unobservable inputs to fair value	The higher the price per square meter, the higher the fair value

Condominium Units and Buildings

Level 3 fair values of STI ESG's condominium units and buildings have also been derived using the market approach.

Using the latest available valuation report as at June 30, 2021, the following table shows the valuation technique used in measuring the fair value of STI ESG's buildings, as well as the significant unobservable inputs used:

Fair value	₱1,462,838,000
Valuation technique	Market approach
Unobservable input	Net price per square meter
Relationship of unobservable inputs to fair value	The higher the price per square meter, the higher the fair value

Level 3 fair values of the Parent Company's buildings and improvements have been derived using the cost approach. The cost approach is a comparative approach to the value of property or another asset that considers as a substitute for the purchase of a given property, the possibility of constructing another property that is an equivalent to the original or one that could furnish equal utility with no undue cost resulting from delay. As at June 30, 2020, the fair value of the Parent Company's buildings and improvements under investment properties amounted to ₱35.6 million.

Management performs its impairment test at the end of each reporting period for all the CGUs. The recoverable amounts are computed based on value-in-use calculations using cash flow projections. Future cash flows are discounted using a pre-tax discount rate ranging from 10.41% to 10.55% and from 9.52% to 10.03% as at June 30, 2021 and 2020, respectively. The cash flow projections are based on a five-year financial planning period as approved by senior management. The growth rate used to extrapolate the cash flows of the unit beyond the five-year period is 5.00%. The management used forecasted revenue increase ranging from 0.59% to 137.6% for the next five years except for select CGU with forecasted revenue decrease ranging from 6.83% to 13.32% in the next two years, considering the impact of COVID-19 pandemic. In 2020, the management used forecasted revenue

decrease ranging from 10.19% to 46.93% on all CGUs for SY 2020-2021 and forecasted revenue increase on all CGUs ranging from 2.16% to 54.07% in the next five years. No provision for impairment on goodwill was recognized for the years ended June 30, 2021 and March 31, 2020 and the three-month period ended June 30, 2020.

Key assumptions used in the value-in-use calculations

The calculations of value-in-use for the CGUs are most sensitive to the following assumptions:

- **Forecasted revenue growth** - Revenue forecasts are management's best estimates considering factors such as historical/industry trends, target market analysis, government regulations and other economic factors. Revenue forecast of each CGU is primarily dependent to number of students enrolled and tuition fee rates which vary for each school.
- **EBITDA margin** - It is a measure of a firm's profit that includes all expenses except interest and income tax expenses. It is the difference between operating revenues and operating expenses. Earnings before tax differ for each CGU and are based on historical data and future plans for each CGU which may be affected by expected capital expenditures and number of projected students.
- **Discount rate** - Discount rates represent the current market assessment of the risks specific to each CGU, taking into consideration the time value of money and individual risks of the underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Group and its operating segments and is derived from its WACC. The Group used the WACC rate as affected by the beta of companies with similar activities and capital structure with the CGUs. WACC is also affected by costs of debt and capital based on average lending rates for a 10-year term due to assumption that the CGUs will exist beyond ten (10) years.
- **Long-term growth rate** - Rates are based on published industry research.

Sensitivity to changes in assumptions

With regard to the assessment of value-in-use of the CGUs, management believes that a reasonably possible change in the assumptions would not cause the carrying values of the CGUs to materially exceed their recoverable amounts.

Corporate Notes Facility

On March 20, 2014, STI ESG entered into a Corporate Notes Facility Agreement (Credit Facility Agreement) with China Bank granting STI ESG a credit facility amounting to ₱3.0 billion with a term of either 5 or 7 years. The facility is available in two tranches of ₱1.5 billion each. The net proceeds from the issuance of the notes were used for capital expenditures and other general corporate purposes.

On May 9, 2014, the first drawdown date, STI ESG elected to have a 7-year term loan with floating interest based on the 1-year PDST-F plus a margin of two percent (2.00%) per annum, which interest rate shall in no case be lower than the BSP overnight rate plus a margin of three-fourths percent (0.75%) per annum, which is subject to repricing.

An Accession Agreement to the Credit Facility Agreement was executed on December 16, 2014 among STI ESG, STI WNU and China Bank whereby STI WNU acceded to the Credit Facility entered into by STI ESG with China Bank in March 2014. In addition, an Amendment and Supplemental Agreement was also executed by the parties on the same date. The Amendment and Supplemental Agreement allowed STI WNU to draw up to ₱300.0 million from the facility.

On December 19, 2014, STI ESG advised China Bank that it will not be availing of tranche 2 of the Credit Facility Agreement thus limiting the facility available to STI ESG to ₱1,500 million. On the same date, STI WNU availed the amount of ₱300.0 million under the same terms and conditions as that of STI ESG's Credit Facility, which has a term of seven (7) years with floating interest based on

the 1-year PDST-F plus a margin of two percent (2.00%) per annum, which interest rate shall in no case be lower than the BSP overnight rate plus a margin of three-fourths percent (0.75%) per annum and is subject to annual repricing every January 31. This loan is secured by a Comprehensive Surety issued by the Parent Company.

In 2015, STI ESG availed a total of ₱1,200.0 million loans with interest ranging from 4.34% to 4.75%. The interest rate for the outstanding balance of Corporate Notes Facility amounting to ₱240.0 million was repriced at 5.56% effective February 1, 2021.

STI ESG has made payments totaling to ₱120.0 million and ₱240.0 million for the years ended June 30, 2021 and March 31, 2020, respectively, and nil for the three-month period ended June 30, 2020.

STI WNU has made payments on the Corporate Notes Facility totaling to ₱39.4 million and ₱79.6 million for the years ended June 30, 2021 and March 31, 2020, respectively (nil for the three-month period ended June 30, 2020). Of the amount paid by STI WNU for the year ended June 30, 2021, ₱19.6 million pertains to the payment made in January 2021, as full and final settlement of its loan from the Corporate Notes Facility.

The Credit Facility Agreement, together with the Accession Agreement, contains, among others, covenants regarding incurring additional debt and declaration of dividends, to the extent that such will result in a breach of the required debt-to-equity and debt service cover ratios (DSCR). STI ESG and STI WNU were required to maintain a debt-to-equity ratio of not more than 1.00:1.00 and debt service cover ratio of not less than 1.10:1.00.

On January 19, 2017, STI ESG, STI WNU and China Bank executed a Second Amendment and Supplemental Agreement to the Corporate Notes Facility Agreement. Significant amendments are as follows:

- a) change in interest rate of either (1) the 1-year benchmark rate (PDST-R2) plus a margin of 1.50% per annum which interest rate shall in no case be lower than 3.75% per annum or (2) the 3-month benchmark rate plus a margin of 1.50% per annum which interest rate shall in no case be lower than 3.50% per annum.
- b) amendments on the required financial ratios, whereby STI ESG shall maintain the following ratios which shall be computed based on the consolidated financial statements:
 - (1) Debt-to-equity ratio of not more than 1.50x, computed by dividing total debt by total equity. For the purpose of this computation, total debt shall exclude unearned tuition and other school fees;
 - (2) Debt service cover ratio of a minimum of 1.05x.

The required DSCR of a minimum of 1.10x for STI WNU remained the same.

China Bank approved the temporary waiver of the DSCR requirement covering the period ended March 31, 2021 and September 30, 2020 for STI ESG and STI WNU, respectively (see discussion on the Waiver of Certain Covenants). STI WNU has fully paid its loan from the Corporate Notes Facility as of June 30, 2021.

As at June 30, 2020, STI ESG and STI WNU had complied with the above covenants.

On January 29, 2021, STI ESG and China Bank executed a Third Amendment and Supplemental Agreement to the Corporate Notes Facility Agreement with an outstanding balance of ₱240.0 million. Significant changes to the terms and conditions of the Corporate Notes Facility Agreement of STI ESG are as follows:

- a) amendment of the maturity date from July 31, 2021 to September 19, 2026, with the first equal semi-annual amortization of ₱30.0 million to start on March 19, 2023;
- b) amendment of the interest rate repricing date for the interest period commencing on January 31, 2021 while all succeeding interest rate repricing dates shall be on the interest payment date of the interest period ending on September 19 of every year, thereafter;
- c) amendment of the interest period commencing on January 31, 2021 and each successive period of six months commencing from September 19, 2021 and ending on the relevant maturity date; and
- d) amendment of the 1-year Benchmark Rate plus a margin of 1.50% per annum which interest rate shall in no case be lower than 5.50% per annum for the interest period covering January 31, 2021 to September 18, 2021 and 6.25% per annum for each succeeding interest period thereafter.

The above modification of terms and conditions resulted in the recognition of a loss on loan modification amounting to ₱8.3 million in the consolidated statement of comprehensive income for the year ended June 30, 2021.

LandBank ACADEME Program

On July 22, 2020, LandBank approved a ₱250.0 million Term Loan/Rediscounting Line Facility under its ACADEME Lending Program in favor of STI ESG to finance the 'study now, pay later' program of the government for students amid the financial difficulties facing families due to the COVID-19 pandemic. The LandBank ACADEME Program is a refinancing/rediscounting facility for Promissory Notes issued by the parents or benefactors of students to enable said students to enroll, continue and complete their studies. The school can borrow up to 70.0% of the amount stated in

the Promissory Note issued by the parents/benefactors of the students. This loan from LandBank is subject to 3.0% interest per annum. Interest and principal are payable annually in arrears. The term of the borrowing is coterminous with the promissory note to be issued by the parents/benefactors of the students, which in no case shall exceed three (3) years. The loans covered by these promissory notes to be issued by the parents/benefactors of students are interest-free.

The ₱250.0 million Term Loan/Rediscounting Line Facility approved for STI ESG is secured by a Comprehensive Surety issued by STI Holdings.

On September 16, 2020, the Rediscounting Agreement with LandBank was executed by STI ESG in relation to this loan arrangement. Further, on the same date, the Comprehensive Surety Agreement was executed by STI Holdings in favor of LandBank. As at June 30, 2021, STI ESG has drawn from its Term Loan/Rediscounting Line Facility with LandBank an aggregate amount of ₱22.1 million, of which ₱9.5 million is due within the next twelve months. The term of the borrowing is coterminous with the promissory notes executed by the parents/benefactors of the students. The first and second drawdowns amounting to ₱10.0 million and ₱12.1 million, respectively, are maturing in August 2022 and January 2023, respectively, for the 20-month tenor and August 2023 and January 2024, respectively, for the 30-month tenor.

Short-term Loans

On January 22, 2021, STI ESG availed of a loan from Security Bank Corporation amounting to ₱100.0 million subject to an interest rate of 4.75%. The loan was fully settled in March 2021. The credit line is on a clean basis. The proceeds from this loan were used for working capital requirements.

On August 24, 2020, STI ESG made a loan drawdown from its short-term credit line with Bank of the Philippine Islands (BPI) amounting to ₱300.0 million with a term of one year. The interest rate is 4.25% subject to quarterly repricing. The credit line is on a clean basis. This loan was fully settled on February 26, 2021. The proceeds from this loan were used for working capital requirements.

STI ESG availed of loans from BPI aggregating to ₱468.0 million during the year ended March 31, 2020. These loans were subject to interest rates ranging from 4.75% to 5.75%. The short-term loans were unsecured and were fully settled as at March 31, 2020. The proceeds from these loans were used for working capital requirements.

Interest Expense

On October 29, 2018, the Bankers Association of the Philippines launched the BVAL Reference Rates replacing the set of PDST Reference Rates (PDST-R1 & PDST-R2). Hence, starting the interest period January 31, 2019, the benchmark rate for the loans of STI ESG and STI WNU is the BVAL reference rate for one-year tenor.

Interest expense on the loans for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020 amounted to ₱109.5 million and ₱26.5 million and ₱110.3 million, respectively (see Note 22).

18. Bonds Payable

	June 30, 2021	June 30, 2020
Principal:		
Fixed-rate bonds due 2024	₱2,180,000,000	₱2,180,000,000
Fixed-rate bonds due 2027	820,000,000	820,000,000
	3,000,000,000	3,000,000,000
Less unamortized debt issuance costs	26,917,125	33,902,228
	₱2,973,082,875	₱2,966,097,772

On March 23, 2017, STI ESG issued the first tranche of its ₱5,000.0 million fixed-rate bonds program under its 3-year shelf registration with the SEC which ended on March 9, 2020. The bonds, amounting to an aggregate of ₱3,000.0 million were listed through the PDEX, with interest payable quarterly and were issued with a fixed rate 5.8085% for the 7-year series, due 2024, and 6.3756% for the 10-year series, due 2027. The bonds were rated 'PRS Aa' by the Philippine Rating Services Corporation (PhilRatings) in 2017. In January 2021, PhilRatings changed the Issue Credit Rating for STI ESG's outstanding bond issuance to PRS A plus, with a Negative Outlook, from PRS Aa, with a Stable Outlook. Obligations rated PRS A have favorable investment attributes and are considered as upper-medium grade obligations. Although these obligations are somewhat more susceptible to the adverse effects of changes in economic conditions, STI ESG's capacity to meet its financial commitments on the obligation is still strong. A 'plus' or 'minus' sign may be added to further qualify ratings. A Negative Outlook, on the other hand, indicates that there is a potential for the present credit rating to be downgraded in the next twelve (12) months.

Proceeds of the issuance were used to finance the campus expansion projects, refinancing of the short-term loans incurred for the acquisition of land, and for other general corporate requirements of STI ESG.

The bonds include an embedded derivative in the form of an early redemption option that gives STI ESG the option, but not the obligation, to redeem in whole (and not in part), the outstanding bonds before the relevant maturity date, based on a certain price depending on the fixed early redemption option dates. Management has assessed that the early redemption option is closely related to the bonds and would not require to be separated from the value of the bonds and accounted for as a derivative. Subsequent reassessment is required when there has been a change in the terms of the contract that significantly modifies the cash flows.

A summary of the terms of STI ESG's issued bonds follows:

Issued	Interest Payable	Term	Interest Rate	Principal Amount	Carrying Value as at		Features
					June 30, 2021	June 30, 2020

ACADEME Lending Program; and (4) the waiver of the DSCR up to June 30, 2023, as provided under Section 7.01(k) of the Trust Agreement. On the other hand, the performance obligations related to the sale of educational materials and supplies and other revenues are satisfied upon receipt by the customers since the control of the goods and products is transferred at this point. The payment for the sale of educational materials and supplies is generally due within 30 days from delivery.

27. Pension Plans

Defined Benefit Plans

The Group (except iACADEMY, De Los Santos-STI College and STI QA) has separate, funded, noncontributory, defined benefit pension plans covering substantially all of its faculty and regular employees. The benefits are based on the faculties' and employees' salaries and length of service.

Under the existing regulatory framework, RA No. 7641 (Retirement Pay Law) requires a provision for retirement pay to qualified private sector employees in the absence of any retirement plan in the entity, provided however that the employee's retirement benefits under any collective bargaining and other agreements shall not be less than those provided under the law. The law does not require minimum funding of the plan.

Retirement benefits are payable in the event of termination of employment due to: (i) early, normal, or late retirement; (ii) physical disability; (iii) voluntary resignation; or (iv) involuntary separation from service. For plan members retiring under normal, early or late terms, the retirement benefit is equal to a percentage of final monthly salary for every year of credited service.

In case of involuntary separation from service, the benefit is determined in accordance with the Termination Pay provision under the Philippine Labor Code or similar legislation on involuntary termination.

The funds are administered by a trustee bank under the supervision of the Board of Trustees of the plan. The Board of Trustees is responsible for the investment of the assets. It defines the investment strategy as often as necessary, at least annually, especially in the case of significant market developments or changes to the structure of the plan participants. When defining the investment strategy, it takes account of the plans' objectives, benefit obligations and risk capacity. The investment strategy is defined in the form of a long-term target structure (Investment policy). The Board of Trustees implements the Investment policy in accordance with the investment strategy as well as various principles and objectives.

Defined Contribution Plans

De Los Santos-STI College and STI QA have funded, noncontributory defined contribution plan (De Los Santos Plan) covering all regular and permanent employees and is a participating employer in CEAP Retirement Plan. The De Los Santos Plan has a defined contribution format wherein the obligation is limited to specified contributions to the De Los Santos Plan and the employee's contribution is optional.

De Los Santos-STI College and STI QA's contributions consist of future service cost and past service cost. Future service cost is equal to 4.00% of employee's monthly salary from the date an employee becomes a member of CEAP. Past service cost is equal to 5.00% of the employees' average monthly salary for a 12 month period, immediately preceding the date of De Los Santos-STI College and STI QA's participation in CEAP, multiplied by the number of years of past service amortized over 10 years. Future service refers to the periods of covered employment on or after the date of De Los

Santos-STI College and STI QA's participation in CEAP. Past service refers to the continuous service of an employee from the date the employee met the requirements for membership in the retirement plan to the date of acceptance of De Los Santos-STI College and STI QA as a Participating Employer in CEAP Retirement Plan. In addition, De Los Santos-STI College and STI QA give the employee an option to make a personal contribution to the fund at an amount not to exceed 4.00% of his monthly salary. De Los Santos-STI College and STI QA then provide an additional contribution of 1.00% of the employee's contribution based on the latter's years of tenure. Although the De Los Santos Plan has a defined contribution format, the Group regularly monitors compliance with RA No. 7641. As at June 30, 2021 and 2020, the Group is in compliance with the requirements of RA No. 7641.

As at June 30, 2021 and 2020, De Los Santos-STI College and STI QA have excess contributions to CEAP amounting to ₱2.3 million and ₱3.0 million, respectively. These excess contributions are classified as prepaid expense and will be offset against De Los Santos-STI College and STI QA's future required contributions to CEAP (see Note 8).

Philippine Interpretations Committee Q&A No. 2013-03 requires De Los Santos-STI College's defined contribution plan to be accounted for as defined benefit plan due to the minimum retirement benefits mandated under RA No. 7641. Actuarial valuation of De Los Santos-STI College's pension is performed every year-end. Based on the latest actuarial valuation, the minimum retirement benefit provided under RA No. 7641 exceeded the accumulated contribution and earnings under the Plan. However, the amount is not significant.

Pension expense recognized by De Los Santos-STI College and STI QA amounted to ₱0.01 million for year ended June 30, 2021 and for the three-month period ended June 30, 2020 and ₱0.1 million for the year ended March 31, 2020.

Total pension expense recognized in profit or loss follows:

	June 30, 2021	June 30, 2020	March 31, 2020
	(One Year)	(Three Months - see Note 2)	(One Year - see Note 2)

The Group applied the practical expedient provided by the amendments to PFRS 16 for rent concessions granted to the Group that meet the aforementioned criteria resulting in recognition of income from rent concessions aggregating to ₱39.7 million recognized under “Other income - net” in the June 30, 2021 consolidated statement of comprehensive income (see Note 2).

For the year ended June 30, 2021, the Group exercised termination option for some operating leases resulting in the reversal of the ROU assets and lease liabilities amounting to ₱22.8 million and ₱24.0 million, respectively. 29. Income Tax

All domestic subsidiaries qualifying as private educational institutions are subject to tax under RA No. 8424, “An Act Amending the National Internal Revenue Code, as amended, and For Other Purposes” which was passed into law effective January 1, 1998. Title II Chapter IV - Tax on Corporations - Sec 27(B) of the said Act defines and provides that: a “Proprietary Educational Institution” is any private school maintained and administered by private individuals or groups with an issued permit to operate from DepEd, CHED, or TESDA, as the case may be, in accordance with the existing laws and regulations and shall pay a tax of ten percent (10.0%) on its taxable income.

The Corporate Recovery and Tax Incentives for Enterprises (CREATE) Bill was signed by President Rodrigo Duterte on March 26, 2021 as RA No. 11534 and was published in Business Mirror on March 27, 2021 and took effect 15 days after its complete publication on April 11, 2021. CREATE Law introduces reforms to the corporate income tax and incentives systems to attract more investments and maintain fiscal prudence and stability in the Philippines.

The following are the key changes to the Philippine tax law pursuant to the CREATE Act which have an impact on the Group:

- Preferential income tax rate for proprietary educational institutions which is reduced from 10.0% to 1.0% effective July 1, 2020 to June 30, 2023.
- Corporate income tax rate is reduced from 30.0% to 20.0% for domestic corporations with net taxable income not exceeding ₱5.0 million and with total assets not exceeding ₱100.0 million. All other domestic corporations and resident foreign corporations are subject to 25.0% income tax. Said reductions are effective July 1, 2020.
- MCIT rate is reduced from 2.0% to 1.0% effective July 1, 2020 to June 30, 2023.
- Exemption from the determination of gain or loss from any exchange of property for stocks in corporations under certain conditions amending Section 40, Subsection C of the National Internal Revenue Code of 1997 which includes among others the merger and consolidation.
- Imposition of improperly accumulated earnings tax (IAET) is repealed.

The enactment of the CREATE Act resulted in lower provision for current income tax of the Group by ₱4.1 million for the year ended June 30, 2021. The Group likewise remeasured its deferred tax assets and liabilities. This resulted in reduction of net deferred tax assets and net deferred tax liabilities by ₱24.8 million and ₱4.4 million, respectively, for the year ended June 30, 2021.

The components of recognized net deferred tax assets and net deferred tax liabilities are as follows:

Certain deferred tax assets of the Group were not recognized as at June 30, 2021 and 2020 as it is not probable that future taxable profits will be sufficient against which these can be utilized.

The following are the deductible temporary differences and unused NOLCO and MCIT for which no deferred tax assets were recognized:

	June 30, 2021	June 30, 2020
NOLCO	P241,894,762	P119,689,714

On September 30, 2020, the BIR issued Revenue Regulations No. 25-2020 implementing Section 4(bbbb) of “Bayanihan to Recover As One Act” which states that the NOLCO incurred for taxable years 2020 and 2021 can be carried over and claimed as a deduction from gross income for the next five (5) consecutive taxable years immediately following the year of such loss.

As at June 30, 2021 and 2020, the Group did not recognize any deferred tax asset on the provision for impairment on investment in an associate because management does not expect to generate enough capital gains against which these capital losses can be offset. The Group, likewise, did not recognize any deferred tax asset on the provision for impairment losses on advances to associates and joint ventures since no deduction is expected to be claimed upon actual write-off of these advances in the future.

The Group has incurred NOLCO before the taxable year 2020 which can be claimed as deduction from the regular taxable income for the next three (3) consecutive taxable years as follows:

Year	Availment Period	Amount	Applied	Expired	Amount
2020	2021-2023	₱46,189,820	—	—	₱46,189,820

2020	2023	405,841

		₱1,103,962

The Group has incurred NOLCO for the year ended June 30, 2021 and the three-month ended June 30, 2020 which can be claimed as deduction from the regular taxable income for the next five (5) consecutive taxable years pursuant to the Bayanihan to Recover As One Act, as follows:

Period	Availment Period	Amount	Applied	Expired	Amount
2021	2022-2026	₱241,421,689	₱—	₱—	₱241,421,689

		₱388,277,356	(₱1,739,772)	₱—	₱386,537,584

As at June 30, 2021 and 2020, the Group also did not recognize any deferred tax assets on the provision for impairment losses on investment in associate because management does not expect to generate enough capital gains against which these capital losses can be offset.

The reconciliation of the provision for (benefit from) income tax on income (loss) before income tax computed at the effect of the applicable statutory income tax rate to the provision for (benefit from) income tax as shown in the consolidated statements of comprehensive income is summarized as follows:

32. STI Gift of Knowledge Certificates (GOKs)

On December 9, 2002, the BOD of STI ESG approved the offer for sale and issue of up to ₱2.0 billion worth of GOKs.

The STI GOKs are noninterest-bearing certificates that entitle the holders or any designated scholars to redeem academic units in any member of the STI Group or equivalent academic units in any STI school on certain designated redemption dates or, to require STI ESG to pay in cash the par value of the outstanding STI GOKs on designated graduation dates. The redemption dates range from the SY 2004-2005 to six years from date of issue of the STI GOKs. The graduation dates range from four to ten years from issue date. A total offer size of 2,409,600 academic units for the entire STI Group or its equivalent units in any STI school will be offered at serial redemption dates at their corresponding par values.

In 2003, the SEC issued an Order of Registration and a Certificate of Permit to Sell Securities for the said STI GOKs.

STI ESG is planning to amend the terms of the GOKs to conform with future business strategies. As at October 7, 2021, there has been no sale nor issuance of GOKs. Hence, pursuant to Section 17.2 (a) of the Securities Regulation Code (SRC), STI ESG is not required to file the reports required under Section 17 of the SRC.

33. Contingencies and Commitments

Contingencies

- a. *Agreements with PWU and Unlad.* In various dates in 2011, 2012 and 2013, the Parent Company and AHC extended loans and advances to PWU and Unlad by virtue of several agreements (collectively, “Loan Documents”), which were secured by mortgages over PWU and Unlad properties, entered into among the Parent Company, AHC, PWU and Unlad in the total principal amount of ₱513.0 million. Upon the non-adherence to the terms and conditions stated in the agreements, the Parent Company and AHC served notices of default to PWU and Unlad in December 2014, and demanded the payment of the total combined amount of approximately ₱926.0 million, inclusive of interests, penalties, fees and taxes.

Upon failure to pay the aforesaid loan, the Parent Company and AHC enforced its rights under the aforesaid agreements and mortgages and filed several Petitions for Extra-Judicial Foreclosure of Real Estate Mortgage on (a) PWU Indiana and Taft Properties with the Office of the Clerk of Court and Ex-Officio Sheriff of the Regional Trial Court (RTC) of Manila, (b) Unlad’s properties in Quezon City and (c) Davao Property with the Office of the Clerk of Court and Ex-Officio Sheriff of the RTC of Quezon City and Davao, respectively, in February 2015.

On March 13, 2015, Dr. Helena Z. Benitez (HQB) filed a Creditor-Initiated Petition for Rehabilitation of PWU in RTC Manila (PWU Rehabilitation Case). The PWU Rehabilitation Case was raffled to Branch 46 of the RTC Manila (Rehabilitation Court).

On March 26, 2015, the Parent Company filed a Notice of Claim with the Rehabilitation Court.

On August 29, 2015, the Rehabilitation Court rendered a decision dismissing the PWU Rehabilitation Case.

After filing of the Motion for Reconsideration and responsive pleadings thereto, on January 21, 2016, the Rehabilitation Court denied the respective Motions for Reconsideration filed by HZB and PWU.

Extra-judicial foreclosure sales were conducted in various dates in 2015 and 2016 for the above mentioned properties and the Parent Company was declared as the winning bidder for all extra-judicial foreclosure sales held.

On March 1, 2016, the Parent Company and AHC executed a Deed of Assignment wherein AHC assigned its loan to Unlad, including capitalized foreclosure expenses, amounting to ₱66.7 million for a cash consideration of ₱73.8 million.

On March 22, 2016, the Parent Company, PWU, Unlad, and HZB entered into a MOA for the extinguishment and settlement of the outstanding obligations of PWU and Unlad to the Parent Company. The MOA includes, among others, the execution of the following on March 31, 2016:

- Deed of Dacion en pago of Quezon City Properties and Davao Property (collectively referred to as the “Deeds”) in favor of the Parent Company
- Release and cancellation of mortgages over the Manila Properties to be executed by the Parent Company

The MOA also provided that the Parent Company would be committed to fund and advance all taxes, expenses and fees to the extent of ₱150.0 million in order to obtain the CAR and the issuance of new TCT and TD in favor of the Parent Company. In the event that such expenses would be less than ₱150.0 million, the excess would be given to Unlad. However, if the ₱150.0 million would be insufficient to cover the expenses, the Parent Company would provide the deficiency without any right of reimbursement from Unlad.

Consequently, the Parent Company recognized the Quezon City and Davao properties as “Investment properties” (see Notes 9 and 11).

Relative to the above, the following cases have been filed:

- (i). *Complaint filed by the Heirs of the Family of Villa-Abrille relative to Unlad’s Davao Property.* On October 21, 2015, the Parent Company and AHC each received copies of the Complaint filed by the Heirs of Carlos Villa-Abrille, Heirs of Luisa Villa-Abrille, Heirs of Candelaria V.A. Tan, Heirs of Adolfo V.A. Lim, Heirs of Saya V.A. Lim Chiu, Heirs of Guinga V.A. Lim Lu, Heirs of Rosalia V.A. Lim Lua, Heirs of Lorenzo V.A. Lim, and Heirs of Fermin Abella against the Philippine Women’s Educational Association (“PWEA”), Unlad, the Parent Company, and AHC for cancellation of certificate of title, reconveyance of real property, declaration of nullity of real estate mortgage, damages, and attorney’s fees. The subject matter of the case is Unlad’s property located in Davao City.

The Plaintiffs claim that ownership of Unlad’s property in Davao City should revert back to them because PWEA and Unlad violated the restrictions contained in the Deed of Sale covering the property. The restrictions referred to by the Plaintiffs provide that PWEA shall use the land for educational purposes only and shall not subdivide the land for purposes of resale or lease to other persons. The Plaintiffs also claim that the real estate mortgage constituted over Unlad’s property in Davao City in favor of the Parent Company and AHC should be declared null and void because PWEA and Unlad have no capacity to mortgage the property based on the restrictions contained in the Deed of Sale.

The Parent Company and AHC filed two (2) Motions to Dismiss before Branch 10 of the Regional Trial Court of Davao City. In the First Motion to Dismiss, the Parent Company and AHC asserted that the Plaintiffs' cause of action against PWEA and Unlad has prescribed considering that the alleged violation of the restrictions in the Deed of Sale occurred in 1987 or more than ten (10) years from the filing of the case. In addition, Plaintiffs cannot seek the cancellation of the real estate mortgage in favor of the Parent Company and AHC because (a) Plaintiffs are not privy/real parties in interest to the said mortgage, and (b) the restrictions in the title and Deed of Sale do not prohibit the mortgage of the subject property.

In the Second Motion to Dismiss, the Parent Company and AHC informed the Trial Court that they were able to discover that the Plaintiffs filed a similar case against PWEA and Unlad with another Trial Court of Davao City (Civil Case No. 20,415-90 filed before Branch 15 of the Regional Trial Court of Davao City), which was dismissed without qualifications for their failure to comply with the said Trial Court's order. Said dismissal was eventually affirmed with finality by the Supreme Court. Because of this information, the Parent Company and AHC moved to dismiss the case for res judicata and willful and deliberate forum shopping for filing the same case to the Trial Court.

After filing their respective responsive pleadings to the above-mentioned Motion(s) to Dismiss, the Trial Court issued the Order dated October 20, 2016, which granted the Motions to Dismiss and dismissed the instant case on the basis of (a) prescription, and (b) res judicata. The Trial Court likewise affirmed that there were no violations of the provisions and/or restrictions in the Deed of Sale annotated on the title of the subject property because (a) the mortgage of the subject property between the Parent Company and AHC and Unlad is not a prohibited act; and (b) there is no allegation that the subject property shall not be used by the Parent Company and AHC for educational purpose.

After the Plaintiffs filed an appeal to said adverse decision, the Court of Appeals-Cagayan de Oro affirmed the aforementioned findings by the Trial Court in its Decision dated August 17, 2018.

After filing a Petition for Review before the Supreme Court, the Supreme Court issued the Resolution dated July 24, 2019, which denied the Petition filed by the Plaintiffs. The Supreme Court determined that the Plaintiffs failed to show that the Court of Appeals committed any reversible error in the challenged decision and resolution of dismissing their case.

On July 28, 2020, the Parent Company received the Entry of Judgment on the aforesaid Resolution.

With the issuance of the Entry of Judgment, the case is terminated.

(ii). *Arbitration Case and Derivative Suit filed by Mr. Conrado Benitez II.*

- a. Mr. Conrado L. Benitez II (the Claimant) filed on June 28, 2016 a Request for Arbitration, with the Philippine Dispute Resolution Center, Inc. ("PDRCI"), for and on behalf of PWU and Unlad, wherein he requested that the directors/trustees and stockholders/members of Unlad and PWU, EHT, the Parent Company, Mr. Alfredo Abelardo B. Benitez ("ABB") and AHC (collectively, the "Respondents") submit the alleged dispute over the settlement of the loan obligations of PWU and Unlad as provided in the arbitration clause of the Joint Venture Agreement and Omnibus Agreement (the "Loan Documents").

In the said Arbitration Case, the Claimant asserted that PWU and Unlad are not in default in their obligations under the Loan Documents. The obligations provided therein, specifically obtaining a tax free ruling for Property for Share Swap Transaction from the BIR, is an impossible condition. Consequently, the foreclosures on the securities of the Loan Documents, real properties of PWU and Unlad, were null and void because (a) failure to submit the case for arbitration and (b) PWU and Unlad are not in default. Based on such circumstances, the Claimant sought, among others, the (a) renegotiation, or (b) rescission of the Loan Documents. Should the Loan Documents be rescinded, the Claimant also sought that PWU and Unlad shall be allowed twelve months to sell the Davao and Quezon City Properties to return the alleged investments made by the Parent Company, EHT, ABB and AHC. Lastly, the Claimant sought the payment of attorney's fees of not less than ₱5.0 million, ₱0.5 million of which is for expenses and reimbursement of cost of suit, expenses, and other fees.

After receiving the Notice of Arbitration and being informed that the required fees have not been paid by the Claimant, the Parent Company, AHC, and EHT filed an Entry of Appearance with Manifestation ("Manifestation"). In the Manifestation, they informed the PDRCI that the Claimant should be compelled to pay said fees before the arbitration proceedings can proceed.

On September 7, 2016, the PDRCI issued a *Notice* dated August 26, 2016, which informed the parties to the instant case that the proceedings are suspended until the Claimant settles the outstanding provisional advance on cost for filing the instant case.

The Parent Company sent a letter dated July 2, 2020 addressed to the Office of the Secretariat-General of PDRCI. In the said letter, the Parent Company informed the PDRCI about the death of the Claimant. The Parent Company also moved for the PDRCI to dismiss and/or consider the case withdrawn due to the non-payment of the provisional advance on cost for more than three (3) years.

As at October 7, 2021, the PDRCI have not issued any response to said letter.

- b. After filing the Request for Arbitration, Mr. Conrado L. Benitez II (the "Petitioner") then filed on June 29, 2016 a derivative suit for himself and on behalf of Unlad and PWU against directors/trustees and stockholders/members of Unlad and PWU, EHT, the Parent Company, ABB and AHC (collectively, the "Defendants") docketed as Civil Case No. 16-136130 in the RTC of Manila (the "Derivative Suit"). The Derivative Suit was raffled to Branch 24 of the RTC of Manila presided over by Judge Ma. Victoria A. Soriano-Villadolid.

In the Derivative Suit, the Petitioner primarily asserts that the Parent Company, EHT, ABB and AHC should submit themselves to the arbitration proceedings filed with the PDRCI because the Loan Documents required any alleged dispute over the same to be resolved through arbitration. Consequently, the Petitioner alleges that the foreclosure proceedings and settlement of the obligations of PWU and Unlad as evidenced by the MOA dated March 22, 2016 executed by PWU and Unlad with the Parent Company and AHC are null and void for not complying with the aforesaid arbitration clause. Likewise, the Petitioner sought the payment of attorney's fees not less than ₱1.0 million, ₱0.1 million for expenses and cost of suit.

On July 26, 2016, the Parent Company and AHC filed their Joint Answer with Compulsory Counterclaim (Joint Answer). In the Joint Answer, the Parent Company and AHC asserted that the instant case is a mere harassment and nuisance suit, and a deliberate form of forum shopping when the Petitioner filed the Arbitration Case for the same purpose. Likewise, the Petitioner cannot compel the corporations to submit themselves to arbitration because (a) the parties to the Loan Documents have already settled any disputes, and (b) the said corporations are not stockholders and members of PWU and Unlad. Lastly, the relevant laws allow the Parent Company and AHC to institute foreclosure proceedings even if there is an arbitration clause.

Simultaneously, EHT filed his Answer wherein he asserted that the Petitioner cannot compel him to submit himself to arbitration when he is not a party to the Loan Documents.

Meanwhile, the other co-defendants, namely (a) ABB, and (b) Dr. Jose Francisco and Marco Benitez, filed their respective Answer(s) to the Complaint.

After the termination of Court-Annexed Mediation and pre-trial conference, the Petitioner manifested that the Trial Court should proceed to resolve the case based on the pleadings and affidavits already filed by the parties in accordance with Interim Rules Governing Intra-Corporate Controversies.

On July 5, 2017, the Parent Company, AHC and EHT received the Trial Court's Order dated June 23, 2017. In the Order, the parties were required to file their respective Memoranda within twenty (20) days from receipt thereof in order for the Trial Court to proceed to render judgment, full or otherwise, based on all of the pleadings and evidence submitted by the parties in relation and pursuant to Rule 4, Section 4 of the Interim Rules of Procedure Governing Intra-Corporate Controversies under RA No. 8799 ("Interim Rules").

On July 25, 2017, all of the parties filed their respective Memoranda.

On February 9, 2018, the Parent Company received the Decision dated January 19, 2018, which dismissed the case. In the Decision, the Trial Court deemed that Petitioner failed to establish fraud or bad faith on the part of the Defendants. Consequently, the Trial Court cannot contravene in the agreement among the Parent Company, Unlad, PWU and AHC to amicably settle the outstanding obligations of PWU and Unlad to AHC and the Parent Company.

On February 28, 2018, the Parent Company, AHC and EHT received the Plaintiffs' Petition for Review of the aforesaid Decision filed with the Court of Appeals – Manila and docketed as C.A. G.R. No. 154654.

While the said Petition for Review is pending, the Parent Company filed a Motion to Cancel Lis Pendens. In the Motion, the Parent Company alleged that the Plaintiff annotated the instant case as a lis pendens on the titles of the Parent Company over the Quezon City properties subject of the amicable settlement with Unlad. Considering the impropriety and/or invalidity of the same, the Parent Company sought for the Court of Appeals to order the cancellation of the lis pendens.

On April 24, 2019, the Parent Company received the Court of Appeals' *Resolution* requiring all of the parties to file their respective Memoranda. Upon submission of the same, the case would be submitted for resolution.

On May 9, 2019, the Parent Company, AHC and EHT filed their Joint-Memorandum.

While the appeal of the Petitioner is pending, the Parent Company filed a Manifestation and Motion dated July 29, 2020. In the said Manifestation and Motion, the Parent Company informed the Court of Appeals about the death of the Petitioner on March 28, 2020. Consequently, the Parent Company moved for the resolution and dismissal of the said appeal.

The Petitioner's counsel filed a Notice and Motion dated August 14, 2020, which also informed the Court of Appeals about the death of the Petitioner. Consequently, said counsel moved that the Petitioner be substituted by his wife and children.

In response thereto, the Parent Company filed its Comment/Opposition dated August 24, 2020. In the Comment/Opposition, the Parent Company argued that the Petitioner cannot be substituted because he can only be substituted by a member of PWU and stockholder of Unlad. The wife and children of the Petitioner cannot be members of PWU because membership in PWU is non-transferable.

Said issue on substitution is subject for resolution by the Court of Appeals.

As at October 7, 2021, the appeal of the Petitioner and Motion to Cancel Lis Pendens of the Parent Company remain pending for resolution by the Court of Appeals.

(iii) *Ejectment Case against Philippine Women's College of Davao, Inc. involving Unlad's Davao Property.* On March 11, 2019, the Parent Company filed the Complaint for Unlawful Detainer against Philippine Women's College of Davao, Inc. ("PWC-Davao"), initially filed against Philippine Women's University of Davao, to recover possession of a portion of the parcel of land covered by Transfer Certificate of Title (TCT) No. T-129545 registered under the name of the former situated along University Ave and Richardo, Matina, Davao City being used as a parking area (the "Subject Premises") by the latter.

The Subject Premises formed part of the 40,184 sq.m., more or less, (the "Property") parcel of land formerly registered under the name of "Unlad". After Unlad transferred ownership of the Property to the Parent Company, the Parent Company demanded from PWC-Davao to vacate the Subject Premises.

Despite said demands, PWC-Davao refused to vacate the Subject Premises.

On May 28, 2019, the Parent Company received the Answer with Compulsory Counterclaim dated May 14, 2019. In the Answer, PWC-Davao asserted the following defenses:

- (1) The defendant should be *Philippine Women's College of Davao, Inc.*;
- (2) PWC-Davao has been in an open, notorious and peaceful possession of the Subject Premises since in or about the 1950's and not by mere tolerance of or any contract with the Parent Company;
- (3) The proceedings should be suspended in light of the pending derivative suit filed by Mr. Conrado Benitez II; and

- (4) The Parent Company came to court with unclean hands when it allegedly took possession of the Property sans the Subject Premises.

The case was referred to Court-Annexed Mediation on September 26, 2019 by the Trial Court through its Order dated July 23, 2019.

Both parties attended the aforesaid mediation hearing. During the mediation hearing, the Parent Company insisted that it should be in possession of the Subject Premises.

Without offering any proposal to amicably settle the case, the counsel and representative of PWC-Davao rejected aforesaid position and moved to terminate the mediation hearing.

Consequently, the Mediator terminated the Court-Annexed Mediation due to failure of the parties to amicably settle. As provided by law, the Mediator referred the above-captioned case back to the Court.

The Trial Court scheduled the case for pre-trial on October 22, 2021.

- b. *Specific Performance Case filed by the Agustin family.* The Agustin family filed a Specific Performance case against the Parent Company for the payment by the latter of the remaining balance of the purchase price for the sale of the Agustin family's shares in STI WNU.

The Agustin family alleges in their Complaint that based on the Share Purchase Agreement and Deed of Absolute Sale they executed with the Parent Company, the price of their shares in STI WNU has been pegged at ₱400.0 million. Despite these two agreements, the Parent Company refuses to pay the full purchase price for the STI WNU shares they acquired from the Agustin family.

In its Answer, the Parent Company stated that the Agustin family is not entitled to the full purchase price of their STI WNU shares because they have not complied with all the requirements for its release. In particular, the Agustin family has not been able to deliver the Commission on Higher Education permits for the operation of STI WNU's Maritime Program as provided in the MOA, and the Share Purchase Agreement. In addition, there are other trade receivables in favor of STI WNU wherein full satisfaction of the same entitles the Agustin family a portion of the balance of the purchase price.

In order to expedite the proceedings, the Agustin family were able to submit the case for summary judgment by the Trial Court. Despite the opposition thereto, the Trial Court rendered its Decision dated April 4, 2018 (the "Summary Judgment"). In the Summary Judgment, the Trial Court ordered the Parent Company to pay the Agustin family the amount of ₱50.0 million with legal interest from the filing of the case until full payment only.

While the Parent Company filed a Motion for Reconsideration Ex Abundanti Ad Cautelam on the Summary Judgment, the Agustin family filed a motion to execute the judgment by the Trial Court.

Both Motion(s) were denied by the Trial Court in its Order dated August 6, 2018.

On September 11, 2018, the Parent Company filed and paid the corresponding docket fees for its Notice of Appeal Ex Abudanti Ad Cautelam (Notice of Appeal) on the said Summary Judgment.

Upon motion by the Agustin family, the Trial Court granted their Motion for Execution Pending Appeal dated September 5, 2018.

While the record of the case was still with the Trial Court, the Parent Company immediately filed the Urgent Motion for Reconsideration with alternative prayer for Motion to Stay Discretionary Execution Pending Appeal dated December 14, 2018.

After due hearing by the Trial Court on the Motion(s), the Trial Court (a) denied the Urgent Motion for Reconsideration but (b) granted the Motion to Stay Discretionary Execution Pending Appeal upon posting of a supersedeas bond amounting to ₱100.0 million (the “Stay Order”).

After the Agustin family filed a Motion for Reconsideration on the Stay Order, the Trial Court denied the same in its Order dated March 14, 2019.

The following are the related cases filed by the parties before the Court of Appeals – Cebu (collectively, the “CA Cases”):

(i) *Ordinary Appeal of the Parent Company (CA G.R. CV No. 07140)*

After the approval of the Notice of Appeal and transmittal of the records of the case, the Court of Appeals required the Parent Company to file its Appellant’s Brief.

After the parties filed their respective Brief(s), the Court of Appeals issued the *Decision* dated May 26, 2021. In the *Decision*, the Court of Appeals denied the appeal on the ground that the Parent Company failed to expressly plead in its *Answer* as one of its affirmative defenses, that there was failure of the written agreement to express true intent of the parties” in order to invoke parole evidence. Consequently, the Court of Appeals determined that the price provided in the *Share Purchase Agreement* and *Deed of Absolute Sale* shall govern the transaction.

On July 21, 2021, the Parent Company filed its *Motion for Reconsideration* wherein it cited the pertinent portions of the *Answer* showing that it raised as a defense that there was failure of the written agreement to express true intent of the parties. In the said *Motion*, the Parent Company sought to reverse the *Decision* dated May 26, 2021 or in the alternative remand the case for further proceedings in relation to the introduction of parole evidence.

The Agustin family may file a Comment to the Motion for Reconsideration within the period to be granted by the Court of Appeals.

(ii) *Petition for Certiorari filed by the Agustin family (CA G.R. CV No. 12663)*

After the Trial Court suspended the execution of the Summary Judgment upon posting by the Parent Company of a supersedeas bond of ₱100.0 million, the Agustin family sought to annul the Stay Order by filing a Petition for Certiorari dated April 10, 2019 before the Court of Appeals.

After the parties filed their responsive pleadings, the Court of Appeals issued the *Decision* dated July 26, 2021, which denied the Petition, and upheld the suspension of the execution of the Summary Judgment pending appeal.

While the aforesaid CA Cases were pending, the parties decided to amicably settle and terminated said cases by executing in counterparts the Compromise Agreement dated September 6, 2021 and September 10, 2021 and filing a *Joint Motion for Judgment Based on Compromise Agreement* dated September 20, 2021. In the Compromise Agreement, the Parent Company agreed to pay the Agustin family the amount of ₱25.0 million as final and full settlement of the latter's claim against the former in the aforementioned cases (see Notes 16 and 40).

In addition, the parties agreed to review the financial records of STI WNU to determine the status of the Agustin family guarantee on the collectability of the trade receivables, and the release, if any, of the ₱27.3 million to the Agustin family as provided in the *Share Purchase Agreement*.

As of October 7, 2021, the parties are still waiting for the Court of Appeals to issue the appropriate *Resolution(s)*, which will approve the Compromise Agreement and/or will terminate the CA Cases.

c. *Labor Cases.*

- (i) A former employee filed a Petition with the Supreme Court after the Court of Appeals affirmed the dismissal by the National Labor Relations Commission ("NLRC") of the former employee's claims of illegal dismissal against STI ESG ("illegal Dismissal Case"). On August 13, 2014, STI ESG received the Supreme Court's Decision dated July 9, 2014 which (a) annulled the decision of the Court of Appeals and (b) ordered that STI ESG to reinstate the former employee to her former position, and pay (i) the exact salary, benefits, privileges and emoluments which the current holder of the position was receiving, (ii) damages and (iii) backwages from the date of the former employee's dismissal until fully paid, with legal interest (the "SC Decision").

On November 17, 2014, the Supreme Court issued a resolution which denied with finality STI ESG's Motion for Reconsideration.

The parties participated in the pre-execution conference of the said SC Decision before a Labor Arbiter in order to determine the total monetary judgment award in favor of the former employee. During the same conference, both parties agreed that the former employee should receive separation pay in lieu of reinstatement. Consequently, the former employee would receive only a monetary award arising from the SC Decision.

Pursuant to STI ESG's computation of said award, it paid total amount of ₱4.2 million, exclusive of withholding taxes, to the former employee. Based on said payment, STI ESG moved for the Labor Arbiter to issue a resolution that STI ESG has fully paid the judgment award of the former employee. While the former employee admitted receiving the aforesaid amount, she manifested that the same was only partial payment of the judgment award.

The former employee maintains that the computation of STI ESG is incorrect because the latter deemed that the former's alleged waiver of reinstatement pending appeal by STI ESG on the Illegal Dismissal Case in October 2006 interrupted the running of backwages until present day. The former employee refused to acknowledge that there was such valid waiver on reinstatement pending appeal. Consequently, the former employee averred that she should receive the amount of ₱11.0 million, less payments already made by STI ESG.

On September 9, 2020, the Labor Arbiter issued the Order, wherein he affirmed that the former employee's refusal to report to work in October 2006 interrupted the running of backwages. Consequently, the former employee was entitled to receive backwages from May 2004 until October 2006. The Labor Arbiter further determined that the attorney's fees of 10% should be computed from the total monetary award of the former employee, including the separation pay in lieu of reinstatement.

Based on said findings, the Labor Arbiter determined that the former employee's total monetary award amounted to around ₱4.4 million. Considering the prior payments made by STI ESG to the former employee, STI ESG is ordered to pay the former employee the balance of ₱0.2 million.

The former employee sought to appeal said findings by filing a Notice of Appeal with attached Memorandum instead of a Verified Petition under Rule XII of the NLRC Rules.

After STI ESG opposed said appeal on the ground of improper remedy, the Labor Arbiter issued an Order dated November 5, 2020. In the Order, the Labor Arbiter "noted without action" said appeal considering that the same is a prohibited pleading. The Labor Arbiter further stated that no other pleading and/or motion in relation to said appeal shall be entertained by the NLRC.

On November 25, 2020, STI ESG received a verified petition under Rule XII of the NLRC Rules ("Petition") filed by the former employee to question the Order of the Labor Arbiter treating her appeal as "noted without action". In the Petition, the former employee sought for the NLRC to consider/allow her erroneous appeal as a Petition filed under Rule XII of the NLRC Rules in resolving the correct computation on the monetary award of the former employee.

After STI ESG filed its Comment to the Petition, the NLRC denied the Petition filed by the former employee. The NLRC affirmed that the former employee failed to comply with the required mode of appeal on an order for execution issued by the Labor Arbiter.

On May 14, 2021, STI ESG received a Petition for Certiorari filed by the former employee with the Court of Appeals.

As at October 7, 2021, the Court of Appeals has not issued any Resolution requiring STI ESG to file its Comment to the Petition for a Certiorari.

- (ii) A former IT Instructor who eventually became the IT Program Head of STI College Cagayan de Oro, a school owned by STI ESG, filed an illegal dismissal case against STI College Cagayan de Oro on the ground that she was constructively dismissed when upon returning from preventive suspension, she allegedly no longer had any work to go back to because the STI ESG-owned company purportedly removed her workplace from the school premises. For its part, STI ESG countered the complainant's claim that she was dismissed by presenting the complainant's one-liner resignation letter.

The labor arbiter decided that there was neither an illegal dismissal nor resignation to speak of in this case, hence, the parties were ordered to return to status quo which meant reinstatement of complainant to her former position but without backwages, separation pay, or similar benefits. Nevertheless, STI ESG was ordered to pay complainant the amount of ₱7.4 thousand representing her unpaid salary for the period March 10-30, 2014. However, the NLRC overturned the labor arbiter's decision upon a dubious motion for partial reconsideration declaring complainant to have been illegally dismissed and ordering STI ESG

not only to reinstate her but also to pay her full backwages computed from the time compensation was withheld up to the date of actual reinstatement. STI ESG moved to reconsider the NLRC's decision but to no avail. At present, a Petition for Certiorari questioning the decision of the NLRC is pending before the Court of Appeals.

On May 12, 2017, STI ESG received a copy of a Motion for Execution with Prayer for Payment of Separation Pay in Lieu of Reinstatement filed by Complainant-Appellant seeking the issuance of a writ of execution for the implementation of the Resolution dated June 30, 2016 issued by the Honorable Eight Division, National Labor Relations Commission, Cagayan de Oro City. On May 22, 2017, STI ESG filed its Opposition to the Motion for Execution with Prayer for Payment of Separation Pay in Lieu of Reinstatement.

Subsequently, a hearing on the motion for execution was set on June 5, 2017. In the said hearing, STI ESG reiterated that it is amenable to reinstating complainant but as a Part-time Full Load faculty member. Complainant countered that she is not interested in reinstatement but would rather be paid her backwages and separation pay. When asked for how much is she willing to settle the matter amicably, she insisted that she be paid the total amount of her backwages and separation pay. When asked if STI ESG has any counter-offer on the payment of backwages and separation pay, STI ESG manifested that it already filed its opposition thereto and that there is still a need for the official computation of the same. At that point, the hearing officer showed STI ESG a computation of the backwages which amounted to ₱0.5 million. STI ESG then manifested that it will bring the matter to management. On the part of the complainant, she manifested that she will file her reply to STI ESG's opposition. The hearing officer then said that upon submission of said reply, the motion for execution is deemed submitted for resolution.

Also, in the motion for execution, it was also alleged that the Court of Appeals already denied the Petition for Certiorari of STI ESG. However, STI ESG did not receive any copy of the said resolution by the Court of Appeals. Upon inquiry with the Court of Appeals, it appeared that the copy of the resolution dismissing the petition for certiorari was returned to sender due to "RTS-UNKNOWN ADDRESS". Apparently, the indicated address of counsel of record simply states Ortigas Ave., Extension, Cainta, Rizal. STI ESG then filed a manifestation with the Court of Appeals manifesting that it has yet to receive a copy of their minute resolution and clarifying that the complete address where a copy of the said resolution may be sent is "3rd Flr. STI Academic Center, Ortigas Avenue Extension, Cainta, Rizal 1900".

On June 2, 2017, STI ESG received a copy of the Minute Resolution dated January 12, 2017 dismissing its Petition for Certiorari based on the following grounds: a) failure to attach a copy of the Resolution dated June 30, 2017 of the NLRC; b) failure to attach the Secretary Certificate authorizing Mario Malferrari, Jr. as representative for STI ESG to file the petition for certiorari; c) failure to verify the petition; and d) failure to attach affidavit of service.

On June 21, 2017, STI ESG filed its Motion for Reconsideration.

Meanwhile, on July 12, 2017, STI ESG received an Order from the Office of the Labor Arbiter granting the Motion for Execution filed by Complainant. On July 21, 2017, STI ESG received a copy of the Writ of Execution issued by Office of the Labor Arbiter directing the payment of ₱0.5 million to Complainant and her immediate reinstatement. In compliance with the Writ of Execution, Complainant was paid the amount of ₱0.5 million and was reinstated to her former position.

On November 7, 2017, STI ESG received a copy of the Resolution of the Court of Appeals dated September 25, 2017 on its motion for reconsideration. The Court of Appeals resolved to grant the motion for reconsideration and reinstated STI ESG's petition for certiorari. The complainant was then directed to file her comment to the petition within ten (10) days from receipt of the said resolution and STI ESG was given five (5) days to file its reply to Complainant's comment.

On January 31, 2018, STI ESG received a copy of a Minute Resolution dated January 15, 2018 issued by the Court of Appeals which resolved that Complainant is deemed to have waived her filing of a comment to the petition for certiorari and directed the parties to file their respective memorandum within fifteen (15) days from receipt of said minute resolution. Thereafter, the petition for certiorari is deemed submitted for decision.

On February 15, 2018, STI ESG filed through registered mail its Memorandum with the 22nd Division, Court of Appeals, CDO. On April 25, 2018, STI ESG received a copy of Complainant's Memorandum. In a resolution of the Court of Appeals dated April 19, 2018, with the filing of the parties' respective memorandum, the Court declared the petition submitted for decision.

On July 11, 2018, STI ESG received a copy of the Decision of the 21st Division, Court of Appeals, CDO, setting aside the resolution of the NLRC declaring complainant to have been illegally dismissed and awarding the payment of backwages. In the same decision, the Court of Appeals dismissed the charge of illegal dismissal for lack of merit. However, STI College CDO was directed to pay complainant the sum of ₱7.4 thousand representing her unpaid salary for the period March 10-30, 2014.

On September 5, 2018, STI ESG received a copy of the Motion for Reconsideration filed by the complainant with the Court of Appeals (Special Former Twenty-First [21st] Division). On October 31, 2018, STI ESG received the resolution of the said court directing STI ESG to file its Comment to the Motion for Reconsideration filed by the complainant within ten (10) days from notice. On November 12, 2018, STI ESG filed its Comment to the Motion for Reconsideration of the complainant. With the filing of the Comment, the Motion for Reconsideration is deemed submitted for resolution.

On January 24, 2019, STI ESG received a copy of the Resolution of the Court of Appeals (Special Former Twenty-First [21st] Division) denying the Motion for Reconsideration filed by the complainant. On April 22, 2019, STI ESG received a copy of the Entry of Judgment of the Decision dated June 29, 2018.

On July 2, 2019, STI ESG sent a demand letter to recover the amount previously awarded to complainant. As at October 7, 2021, STI ESG is preparing the necessary motion for the recovery of the ₱0.5 million.

- (iii) The case stemmed from a Complaint for illegal dismissal filed by former employees of STI Davao. They were formerly the Chief Executive Officer (CEO) and Chief Operating Officer (COO), respectively, of STI Davao, until they were separated from service effective June 23, 2009.

On September 3, 2009, STI Davao filed a Motion to Dismiss before the Labor Arbiter and prayed for the dismissal of the Complaint for illegal dismissal on the ground that the Labor Arbiter and the NLRC have no jurisdiction over the case. STI Davao argued that Complainants are not mere employees, but are rather corporate officers, of STI Davao.

As such, the controversy involving their removal involves an intra-corporate dispute which falls within the jurisdiction of the regular courts.

On December 16, 2009, the Labor Arbiter issued an Order which granted the Motion to Dismiss filed by STI Davao. The Labor Arbiter ruled that Complainants are corporate officers, and are not mere employees, of STI Davao.

Not satisfied with the ruling of the Labor Arbiter, Complainants filed an appeal before the NLRC. On September 30, 2010, the NLRC issued a Resolution affirming the Labor Arbiter's Order dated December 16, 2009 finding that Complainants are corporate officers whose removal from office is not within the ambit of the jurisdiction of the NLRC. While they subsequently filed a Motion for Reconsideration, such motion was denied by the NLRC.

Complainants then elevated the case to the Court of Appeals via a Petition for Certiorari. On February 14, 2014, the Court of Appeals rendered a Decision annulling the assailed Resolutions of the NLRC and found that Complainants are not corporate officers, but are rather mere employees, of STI Davao. The case was thus ordered to be remanded to the Labor Arbiter for reception of evidence. While STI Davao filed a Motion for Reconsideration, such motion was denied by the Court of Appeals.

STI Davao eventually elevated the case to the Supreme Court via a Petition for Review on Certiorari. Unfortunately, through a Resolution dated August 19, 2015, the Supreme Court denied the Petition. STI Davao's Motion for Reconsideration was likewise denied by the Supreme Court.

On August 23, 2017, STI Davao received a Notice of Hearing from the Office of Labor Arbiter for a preliminary conference set on September 18, 2017. STI Davao attended the said hearing. During the hearing, Complainants proposed for the amicable settlement of their claims the payment of their separation pay, backwages, monetary benefits, as well as damages with attorney's fees. STI Davao requested that Complainants provide the exact amount of what they are asking for the amicable settlement of their claims. Another hearing was made for October 26, 2017 for the continuation of the preliminary conference.

In the October 26, 2017 hearing, Complainants provided STI Davao with a computation of what they are willing to accept for the amicable settlement of the case with total amount of ₱33.2 million.

In the December 5, 2017 hearing, considering the substantial amount being demanded by Complainants for the amicable settlement of their claims, no amicable settlement was reached by the parties, hence, they were directed to file their respective position papers within ten days from the receipt of the order from the Office of the Labor Arbiter. The last day of the ten-day period to file STI Davao's position paper was on February 5, 2018. However, a Motion for Extension of Time to File Position Paper was filed by STI Davao on February 5, 2018.

On February 19, 2018, STI ESG filed its position paper by registered mail. In the Position Paper, the following important points were raised: (1) the complainants' termination from employment is clearly legal having been grounded on just and valid causes since (a) the adoption of STI ESG's Basic Operations Manual and Code of Conduct providing, among others, disciplinary rules and regulations on willful disobedience of the lawful orders, instructions, policies and procedure of STI ESG, is well within the ambit of management prerogative, (b) complainants' willful disregard and violation of STI ESG's Basic Operations

Manual and Code of Conduct providing guidelines and standards for employees to effectively go about their roles and prohibiting willful disobedience as well as failure to perform assigned tasks, constitute sufficient bases for termination of employment, (c) complainants' acts or omissions in willful disregard of STI ESG's general work policies and procedures, amounted to gross and habitual neglect of duties, (d) complainants' willful disregard of STI ESG's operating procedures and systems amounted to serious misconduct, and (e) STI ESG's evidence sufficiently established facts and incidents upon which the loss of confidence in the complainants may fairly be made to rest considering that (i) complainants held a position of trust and confidence, and (ii) complainants' termination was based on willful breach of trust and founded on clearly established facts; (2) the School observed the requirements of due process before effecting complainants' dismissal from employment; (3) complainants are not entitled to their claims for reinstatement and the payment of monetary benefits, such as allowance, as well as damages and attorney's fees; and (4) complainants have no cause of action for illegal suspension and against individual respondent of STI ESG.

On March 14, 2018, STI ESG received a copy of the Position Paper of complainants. On April 5, 2018, STI ESG filed its Reply to the Position Paper of complainants. In said reply, STI ESG emphasized the following important points: (1) STI ESG's prerogative to terminate the complainants' employment on just and valid causes does not run afoul with the enshrined right to security of tenure; (2) complainants' termination from employment was warranted by just and valid grounds as (a) the just and valid causes were proven with substantial evidence, and (b) the penalty of dismissal is warranted under the circumstances; (3) there is no necessity to dwell on the issue of whether the respondents observed and complied with the requirements of due process before effecting complainants' dismissal from employment; and (4) complainants are not entitled to their claim for reinstatement with payment of full backwages, and other monetary claims such as damages and attorney's fees.

In a decision dated June 28, 2018, the labor arbiter dismissed the complaint for lack of merit. On August 2, 2018, STI ESG received a copy of the Memorandum of Appeal filed by complainants with the NLRC. On August 28, 2018, STI ESG filed its Answer to Appeal with the Eighth Division of the NLRC in Cagayan De Oro City where it was emphasized that the complainants had failed to show that the Arbiter a quo committed grave abuse of discretion and/or serious errors in rendering the assailed Decision, particularly in declaring that the complainants were lawfully terminated on the ground of loss of trust and confidence. In support of STI ESG's counter-arguments to the complainants' arguments, STI ESG stressed on the following important points: (a) the Appeal is just a 90% verbatim reproduction of the facts, arguments and discussion in their Position Paper; and (b) there was no such grave error shown in the case at bar considering that there is more than sufficient basis for the School to lose the trust and confidence it bestowed upon the complainants (i) as one of the complainants demonstrated, through repeated infractions, that complainant is not fit to continue undertaking the serious task and heavy responsibility of a CEO, and this holds true for the other complainant, being the COO of STI Davao, (ii) the willful act of disregarding the Operating Procedures and Systems equates to abuse of authority and, therefore, is sufficient basis for STI to lose its trust and confidence on the complainants, and (iii) the task of ensuring the integrity of the RFA by warranting the completeness and accuracy of the information and required supporting documents thereto, definitely falls within the complainants' scope of responsibilities.

In a Decision dated February 13, 2019, the Eighth Division of the NLRC in Cagayan De Oro City dismissed the Appeal filed by the complainants and hereby affirmed the earlier Decision of Labor Arbiter dated June 28, 2018. A motion for reconsideration dated March 4, 2019 was filed by the complainants. On March 25, 2019, STI ESG filed its

Opposition to the Motion for Reconsideration filed by the complainants. In a Resolution dated March 26, 2019, the Eighth Division of the NLRC in Cagayan De Oro City denied the Motion for Reconsideration filed by the complainants.

On June 10, 2019, STI ESG received a copy of the Petition for Certiorari filed by complainants with the Court of Appeals in Cagayan De Oro City. On July 4, 2019, STI ESG received a copy of the Resolution dated June 25, 2019 of the Court of Appeals in Cagayan De Oro City dismissing the Petition for Certiorari filed by complainants for failure to comply with the requirements for filing said petition.

A motion for reconsideration dated July 18, 2019 on the said resolution of the Court of Appeals in Cagayan De Oro City dismissing the Petition for Certiorari was filed by complainants. As at September 11, 2019, STI ESG filed its Comment to the motion for reconsideration of the complainants.

In a Resolution dated January 31, 2021, the Supreme Court dismissed the Petition for Certiorari filed by the complainants for being filed out of time.

On April 7, 2021, STI ESG received a copy of the Motion for Reconsideration filed by one of the complainants. On May 5, 2021, STI ESG filed its comment on the Motion for Reconsideration. In a Resolution dated July 12, 2021, the Special Second Division of the Supreme Court denied the Motion for Reconsideration filed by one of the complainants and directed the issuance of Entry of Final Judgement.

As at October 7, 2021, STI ESG is yet to receive the Entry of Final Judgement.

- d. *Specific Performance Case.* STI College Cebu, Inc. (STI Cebu) and STI ESG's Finance Officer were named defendants in a case filed by certain individuals for specific performance and damages. In their Complaint, the Plaintiffs sought the execution of Deed of Absolute Sale over a parcel of land situated in Cebu City on the bases of an alleged perfected contract to sell.

The Defendants filed the Consolidated Answer to the Amended Complaint on August 30, 2017. In the Consolidated Answer, Defendants asserted that there is no perfected contract to sell or of sale between STI ESG and the Plaintiffs considering that (a) there is no Board approval on the sale of the Subject Property; (b) lack of definite terms and conditions thereof; and (c) STI ESG's Finance Officer has no authority to bind STI ESG on the alleged contract to sell or sale of the Subject Property.

After the parties completed the presentation of evidence and filed their respective Memoranda, the Defendants received the Decision of the Trial Court on June 22, 2020.

In the Decision dated June 18, 2020, the Trial Court determined that there was no perfected contract to sell over the Property. The Trial Court affirmed that the Plaintiffs failed to obtain the consent of STI ESG. There was no evidence showing that STI ESG, through its Board of Directors, (a) gave its consent to the sale or (b) authorized Defendant Finance Officer to sell the Property in favor of the Plaintiffs.

However, the Trial Court determined that Defendant Finance Officer is liable to pay the Plaintiffs the total amount of ₱0.2 million representing temperate and exemplary damages ("Damages"). The Trial Court determined that the actions of STI ESG's Finance Officer insofar as (a) receipt of the earnest money, (b) lack of written authority from STI ESG during the negotiation and (c)

continued assurances to the Plaintiffs in relation to the BIR ruling on the tax-free exchange and then sudden withdrawal from the transaction constitute bad faith.

Lastly, the Trial Court ordered STI ESG to return the amount of ₱0.3 million it received from the Plaintiffs as “earnest money” with interest rate of six percent (6%) per annum from receipt thereof on March 30, 2011 until latter’s tender of the same to the Plaintiffs on July 2, 2015.

Both parties filed their respective Partial Motion for Reconsideration insofar as the (a) dismissal of the Complaint and (b) award of Damages.

On August 25, 2020, the Trial Court issued its Order, which modified the Decision only insofar as requiring STI ESG’s Finance Officer to pay an additional ₱50.0 thousand as attorney’s fees in favor of the Plaintiffs. The rest of the findings in the Decision is affirmed.

Both the Plaintiffs and the Finance Officer filed their respective Notice of Appeal.

On December 1, 2020, STI ESG and the Defendant Finance Officer received the Notice, which requires the Appellants (Plaintiffs and the Defendant Finance Officer) to file their respective Appellant’s Brief within forty-five (45) days from receipt of the Notice.

On January 25, 2021, STI ESG received the Appellant’s Brief filed by the Plaintiffs.

On March 11, 2021, STI ESG filed its Appellee’s Brief.

On May 6, 2021, STI ESG received the Reply Brief filed by the Plaintiffs.

Unless the Court of Appeals require additional pleadings, the appeal filed by the Plaintiffs is submitted for resolution.

- e. *Complaint for Damages filed by GATE (formerly STI-College Santiago, Inc.).* Global Academy of Technology and Entrepreneurship, Inc. (GATE) filed a complaint for Damages against STI ESG for its non-renewal of the Licensing Agreement despite the former’s alleged compliance of the latter’s audit recommendations. On the basis of such alleged invalid non-renewal of the Licensing Agreement, GATE seeks for (a) moral damages in the amount of ₱0.5 million, (b) exemplary damages in the amount of ₱0.5 million and (c) attorney’s fees in the amount of 15% of the amount to be awarded and ₱3.0 thousand per court appearance.

On June 9, 2017, STI ESG filed its Answer to the Complaint. In the Answer, STI ESG reiterated its position that GATE has no cause of action against it because its decision not to renew the Licensing Agreement is in accordance with contractual stipulations therein that its renewal is upon mutual agreement of both parties. Considering the effectivity period of the Licensing Agreement expired on March 31, 2016 without being renewed by both parties, GATE cannot claim any damages for STI ESG’s lawful exercise of its rights under the Licensing Agreement.

After the parties completed the presentation of their respective evidence, STI ESG received the Decision of the Trial Court on February 4, 2020.

In the Decision dated January 16, 2020, the Trial Court dismissed the instant case because the Plaintiffs failed to establish that STI ESG acted in abuse of rights when it refused to renew the Licensing Agreement with the Plaintiffs. The Trial Court confirmed that said Agreement clearly provided that the same can only be renewed by mutual agreement of the parties.

The Trial Court also ordered the payment by the Plaintiffs of STI ESG's counterclaim in the amount of ₱0.3 million as attorney's fees plus cost of suit.

Despite filing a Motion for Reconsideration, the Trial Court affirmed its dismissal of the Plaintiff's claim and the award of litigation cost in favor of STI ESG in an Order dated July 6, 2020.

On August 3, 2020, STI ESG received the Notice of Appeal filed by the Plaintiff.

On April 19, 2021, STI ESG received the Notice from the Court of Appeals, which required the Plaintiff to file its Appellant's Brief within forty-five (45) days from receipt thereof. STI ESG will have the same period to file its Appellee's Brief counted from its receipt of the Appellant's Brief.

On June 4, 2021, STI ESG received the Appellant's Brief.

On July 29, 2021, STI ESG filed its Appellee's Brief.

Unless the Court of Appeals require the parties to file other pleadings, the case is deemed submitted for resolution.

- f. *Criminal Case.* A complaint for qualified theft was filed by STI ESG against its former school accounting supervisor and acting school accountant (former supervisor/accountant). In the complaint, STI ESG alleged that said former supervisor/accountant manipulated the payroll registers of STI College Global City by including the name of a former faculty member of STI College Global City in the payroll registers and placing a corresponding salary and 13th month pay beside said faculty member's name. The salary of said former faculty member was deposited in a bank account belonging to the former supervisor/accountant. The total amount deposited to the bank account of the former supervisor/accountant through this scheme amounted to ₱0.2 million.

The complaint for qualified theft was filed with Office of the City Prosecutor of Taguig City. Summons to the former supervisor/accountant was returned undelivered despite STI ESG providing additional addresses of the former supervisor/accountant where the summons could be served.

After the former supervisor/accountant failed to appear on two preliminary investigations, the complaint was submitted for resolution.

On September 8, 2016, STI ESG filed an Ex-Parte Motion for Early Resolution to resolve the case pointing out that more than 16 months have elapsed since the matter was submitted for resolution.

As at October 7, 2021, the Office of the City Prosecutor of Taguig City has yet to issue a resolution in the instant case.

- g. *Breach of Contract.* STI ESG engaged the services of Mobeelity Innovations, Inc. (MOBEELITY) to deploy its digital classroom pilot, also known as e-Learning Management System (eLMS) and MOBEELITY committed to provide the necessary applications suite of the intended learning management system of STI ESG.

MOBEELITY undertook to provide STI ESG with access to the EDU 2.0 LMS (now known as NEO) and iMEET virtual classroom. MOBEELITY committed to provide STI ESG with online and on-site technical support for the implementation of the EDU 2.0 LMS and iMEET virtual classroom. Furthermore, MOBEELITY committed to provide STI ESG with all updates and modifications to EDU 2.0 LMS and iMEET virtual classroom free of charge. Out of these 2 platforms, STI ESG was only able to avail of and utilize the EDU 2.0 LMS under the agreement.

MOBEELITY provided STI ESG access to the EDU 2.0 LMS. EDU 2.0 LMS is a product of Cypher Learning, and MOBEELITY was an authorized reseller of this product. In accordance with the terms of the Agreement, STI ESG paid MOBEELITY the sum of ₱3.3 million as downpayment for services to be rendered by MOBEELITY for the First Semester of SY 2016-2017 or from June to November 2016.

On June 12, 2016, it came to the attention of STI ESG that Cypher Learning had terminated its relationship with MOBEELITY due to the fraudulent acts committed by MOBEELITY against Cypher Learning.

Pursuant to the arbitration clause of the Memorandum dated September 8, 2014 (Memorandum) executed by STI ESG and MOBEELITY, STI ESG initiated the instant ad hoc arbitration to settle a dispute involving the reimbursement of ₱3.3 million by MOBEELITY due to a breach of its obligations under the Memorandum.

After due proceedings, the Arbitral Tribunal issued the arbitral award dated August 9, 2018 wherein MOBEELITY is required to pay STI ESG the amount of ₱3.3 million and arbitration cost of ₱0.9 million.

STI ESG, through counsel, will file the appropriate petition before the Regional Trial Court of Makati City for the execution of the aforesaid arbitral award as required by law. However, STI ESG needs to identify any assets of MOBEELITY in order for the motion for execution to be effective.

The Group recognized a provision for impairment of the receivable from MOBEELITY amounting to ₱3.5 million for the year ended June 30, 2021 (see Note 25).

- h. *Syndicated Estafa*. This is a complaint filed against STI ESG and its director by the president of a franchisee of STI ESG with the Provincial Prosecution Office of Rizal.

In the complaint, said officer alleged that STI ESG illegally took over the operations of STI Tanay, and used the tuition fees it collected for its benefit. Based on his estimation, said alleged tuition fees was around ₱12.0 million.

On December 29, 2020, STI ESG, through its representative, filed its Counter-Affidavit and presented evidence/documents showing that STI ESG managed STI Tanay (a) when said officer initially allowed the same while there was an ongoing negotiation for the purchase of STI Tanay, and (b) the take-over provisions of the Licensing Agreement triggered by the violations committed by the franchisee on said agreement.

Moreover, STI ESG further asserted that the complaint should be dismissed because the aforesaid president failed to attach/present a written authority from STI Tanay, which allowed him to file the complaint, and represent said corporation in the proceedings.

Lastly, said president included as a respondent a director who was not involved in the operations and management of STI Tanay during the take-over of STI ESG.

On September 28, 2021, STI ESG received the Resolution dated February 4, 2021 which dismissed the complaint.

The complainant may file a Motion for Reconsideration on the aforesaid dismissal within fifteen (15) days from his receipt of the Resolution.

i. *Extra-Judicial Foreclosure*

- i. STI ESG filed two (2) Petition(s) for Extra-Judicial Foreclosure of Real Estate Mortgage under Act No. 3135, as amended (Petitions) over properties located in (a) Pasig and (b) Morong, Rizal.

On November 4, 2019, DBP and STI ESG executed a Deed of Assignment, wherein the latter acquired all rights and obligations arising from the following:

- d. Real Estate Mortgage dated May 5, 2014 executed by STI Tanay in favor of DBP over a parcel of land and improvements with an area of 5,502 sq.m. located in Tanay, Rizal, which contains a provision allowing the foreclosure of mortgage extrajudicially in accordance with Act No. 3135 (Mortgage); and
- e. Additional Real Estate Mortgage dated April 8, 2016 executed by STI Tanay, and Alejandro J. Bernardo married to Loretta Jabson Bernardo (Third Party Mortgagor) in favor of DBP over a parcel of land with an area of 567 sq.m. located in Pasig City (Subject Property), which contains a provision allowing the foreclosure of mortgage extrajudicially in accordance with Act No. 3135 (Mortgage).

Said Deed of Assignment includes other loans obtained by STI Tanay from DBP (collectively, the “Loans”).

Due to STI Tanay’s failure to pay the Loans, STI ESG sent a Notice of Default dated February 14, 2020 to STI Tanay and Third Party Mortgagor. In the said Notice, STI ESG declared that the loans of STI Tanay amounting to ₱80.3 million as of December 31, 2019 to be immediately due and demandable, and STI ESG demanded full payment thereof.

Due to STI Tanay’s failure to pay said Loans, STI ESG filed the instant Petition to foreclose the property covered by the Mortgage for the satisfaction of the former’s outstanding obligation in the subject Loan and Credit Line amounting to ₱99.0 million as of November 30, 2020.

With respect to the Pasig Property, the same was foreclosed, and STI ESG was declared as the winning bidder. A Certificate of Sale was annotated on the title on August 5, 2021. Consequently, the one (1) year redemption period started to run on said date of annotation on the title.

With respect to the Morong Property, STI ESG is complying with certain requirements of the Clerk of Court of Rizal for the foreclosure proceedings.

- ii. This is a Complaint for annulment of Extrajudicial Foreclosure Proceedings with application for 72-hour and 20-day Temporary Restraining Order (“TRO”) and/or Writ of Preliminary Injunction (Complaint) filed by STI Tanay and Spouses Alejandro J. Bernardo and Loretta Jabson Bernardo (Mortgagors) (collectively, the “Plaintiffs”) against the named Defendants.

On June 22, 2021, STI ESG received the Complaint.

Based on the Complaint, the Plaintiffs alleged that STI ESG, as the assignee of the loan of STI Tanay with DBP, foreclosed on the Mortgagors’ parcel of land with an area of 567 sq.m. located in Pasig City (Subject Property).

While the Complaint did not allege any procedural and/or substantive defects on the foreclosure proceedings, the Plaintiffs attempted to use the alleged illegal take-over of the operations of STI Tanay to support the instant case.

Based on the said allegations in the Complaint, the Plaintiffs sought for the issuance of restraining orders to enjoin the registration of the Certificate of Sale and the alleged take-over of STI Tanay.

After the due proceedings on the TRO, the Trial Court denied the issuance of the TRO and/or Writ of Preliminary Injunction on July 12, 2021.

Considering the issuance of Supreme Court’s Circulars which ordered the physical closure of courts and suspension of filing of any pleading, STI ESG has yet to file its Answer to the Complaint.

- j. *Criminal Case.* On January 30, 2020, iACADEMY filed a complaint against its former Cashier for qualified theft for the total amount of ₱1.7 million for the period of January 24, 2018 until July 2, 2019 from the cash collections of iACADEMY.

Based on the complaint, the former Cashier manipulated the Daily Cash Collection Summary Reports submitted to iACADEMY by tampering (a) deposit slips; (b) official receipts and (c) other documents and making it appear that the payments received for rental payments on the use of iACADEMY’s Auditorium were from other collections of iACADEMY, which she received as its Cashier. Considering said rental payments should have been recorded as part of the collection, the cash collection from other transactions reported by the former Cashier to have been received and deposited in the bank accounts of iACADEMY, is understated. Through this scheme, the former Cashier stole the corresponding amount appearing in the said tampered documents from the cash collection, which should have been deposited in iACADEMY’s bank accounts.

Despite receipt of summons, the former Cashier failed to appear at the preliminary investigation hearings.

After due proceedings, an Information for twenty-seven (27) counts of qualified theft was filed by the City Prosecutor of Makati City against the former Cashier before the Regional Trial Court of Makati City.

During arraignment on June 18, 2021, the former Cashier pleaded “not guilty” of the charges. While the case was scheduled for pre-trial by the Trial Court on August 4, 2021, the same was cancelled due to declaration of placing the National Capital Region (NCR) under Enhanced Community Quarantine, and the physical closure of all courts in areas under ECQ as provided in Supreme Court’s Circular No. 56-2021.

As of October 7, 2021, the Trial Court has yet to issue a Notice to all the parties on the new schedule for pre-trial.

- k. Due to the nature of their business, STI ESG, STI WNU and iACADEMY are involved in various legal proceedings, both as plaintiff and defendant, from time to time. The majority of outstanding litigation involves illegal dismissal cases under which faculty members have brought claims against STI ESG and STI WNU by reason of their faculty contract and/or employment contracts. STI ESG, STI WNU and iACADEMY are not engaged in any legal or arbitration proceedings (either as plaintiff or defendant), including those which are pending or known to be contemplated and their respective BODs have no knowledge of any proceedings pending or threatened against STI ESG, STI WNU and iACADEMY or any facts likely to give rise to any litigation, claims or proceedings which might materially affect their financial position or business. Management and their legal counsels believe that STI ESG, STI WNU and iACADEMY have substantial legal and factual bases for their position and are of the opinion that losses arising from these legal actions and proceedings, if any, will not have a material adverse impact on the Group’s consolidated financial position as well as in the results of their operations.

The RA No. 10931 or the UAQTEA and its IRR provide among others, that to support the cost of tertiary education or any part or portion thereof, TES and SLP are established for all Filipino students who shall enroll in undergraduate and post-secondary programs of private HEIs. Accordingly, the TES and the SLP shall be administered by the UniFAST Board. In light of the effects of the pandemic in the operation of schools and in the economy as a whole, the parties agreed to hold the implementation of the agreements stated in the foregoing paragraph in abeyance.

34. Financial Risk Management Objectives and Policies

The principal financial instruments of the Group comprise cash and cash equivalents and interest-bearing loans and borrowings. The main purpose of these financial instruments is to raise working capital and major capital investment financing for the Group's school operations. The Group has various other financial assets and liabilities such as receivables, accounts payable and other current liabilities which arise directly from its operations.

The main risks arising from the Group's financial instruments are liquidity risk, credit risk and interest rate risk. The Group's BOD and management reviews and agrees on the policies for managing each of these risks as summarized below.

Liquidity Risk

Liquidity risk arises from the possibility that the Group may encounter difficulties in raising funds to meet its currently maturing commitments. The Group's liquidity profile is managed to be able to finance its operations and capital expenditures and other financial obligations. To cover its financing requirements, the Group uses internally-generated funds and interest-bearing loans and borrowings. As part of its liquidity risk management program, the Group regularly evaluates the projected and actual cash flow information and continuously assesses conditions in the financial markets for opportunities to pursue fund-raising initiatives.

Any excess funds are primarily invested in short-dated and principal-protected bank products that provide the flexibility of withdrawing the funds anytime. The Group regularly evaluates available financial products and monitors market conditions for opportunities to enhance yields at acceptable risk levels.

The Group's current liabilities are mostly made up of trade liabilities with 30 to 60-day payment terms, current portion of interest-bearing loans and borrowings that are expected to mature within one year after reporting date. On the other hand, the biggest components of the Group's current assets are cash and cash equivalents, receivables from students and franchisees and advances to associates and joint ventures with credit terms of thirty (30) days.

As at June 30, 2021 and 2020, the Group's current assets amounted to ₱3,249.6 million and ₱2,022.1 million, respectively, while current liabilities amounted to ₱1,193.4 million and ₱1,429.9 million, respectively.

As part of the Group's liquidity risk management program, management regularly evaluates the projected and actual cash flow information.

In relation to the Group's interest-bearing loans and borrowings, the debt service cover ratio, based on the consolidated financial statements of the Group, is also monitored on a regular basis. The debt service cover ratio is equivalent to the consolidated EBITDA divided by total principal and interests due for the next twelve months. The Group monitors its debt service cover ratio to keep it at a level acceptable to the Group, the lender bank and the STI ESG bondholders. The Group's policy is to keep the debt service cover ratio not lower than 1.05:1.00. DSCR as at June 30, 2021 and 2020 is 1.50:1.00 and 1.72:1.00, respectively (see Notes 17 and 18).

The tables below summarize the maturity profile of the Group's financial assets held for liquidity purposes and other financial liabilities as at financial reporting date based on undiscounted contractual payments.

Credit Risk

Credit risk is the risk that the Group will incur a loss arising from students, franchisees or other counterparties who fail to discharge their contractual obligations. The Group manages and controls credit risk by setting limits on the amount of risk that the Group is willing to accept for individual counterparties and by monitoring expenses in relation to such limits.

It is the Group's policy to require the students to pay all their tuition and other school fees before they can get their report cards and other credentials. In addition, receivable balances are monitored on an ongoing basis with the result that the Group's exposure to bad debts is not significant.

With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents and equity instruments at FVOCI, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. As at June 30, 2021 and 2020, there is no significant concentration of credit risk.

Interest Rate Risk. Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fixed-rate financial instruments are subject to fair value interest rate risk while floating rate financial instruments are subject to cash flow interest rate risk. The Group's interest rate risk management policy centers on reducing the overall interest expense and exposure to changes in interest rates. Changes in market interest rates relate primarily to the Group's interest-bearing loans and bonds. While the Group's long term debt has a floating interest rate, the Group elected to have the interest rate repriced every year, thus

minimizing the exposure to market changes in interest rates. The interest rates for the STI ESG's bonds are, however, fixed for the 7-year and the 10-year tenors.

The Group's exposure to interest rate risk also includes its cash and cash equivalents balance. Interest rates for the Group's cash deposits are at prevailing interest rates. Due to the magnitude of the deposits, significant change in interest rate may also affect the consolidated statements of comprehensive income.

The following table demonstrates the sensitivity, to a reasonably possible change in interest rates, with all other variables held constant, of the consolidated statements of comprehensive income and statements of changes in equity for the year ended June 30, 2021, the three-month period ended June 30, 2020 and the year ended March 31, 2020:

Increase/decrease in Basis Points (bps)	Effect on Income Before Income Tax

Capital Risk Management Policy

The Group aims to achieve an optimal capital structure to reduce its cost of capital in pursuit of its business objectives, which include maintaining healthy capital ratios and strong credit ratings, maximizing shareholder value and providing benefits to other stakeholders. The Group likewise aims to ensure that cash is available to support its operations and all other projects undertaken by the Group and to maintain funds on a long-term basis.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions. The Group is not subject to externally imposed capital requirements.

The Group monitors capital using the debt-to-equity ratio which is computed as the total of current and noncurrent liabilities, net of unearned tuition and other school fees, divided by total equity. The Group monitors its debt-to-equity ratio to keep it at a level acceptable to the Group, the lender bank and the STI ESG bondholders. The Group's policy is to keep the debt-to-equity ratio at a level not exceeding 1.50:1.00.

The Group considers its equity contributed by stockholders, net of cost of shares held by a subsidiary, as capital.

35. Fair Value Information of Financial Instruments

The Group's financial instruments consist of cash and cash equivalents, receivables, advances to associates and joint ventures, deposits, equity instruments at FVOCI, interest-bearing loans and borrowings, accounts payable and other current liabilities. The primary purpose of these financial instruments is to finance the Group's operations.

There are no material unrecognized financial assets and liabilities as at June 30, 2021 and 2020.

Due to the short-term nature of cash and cash equivalents, receivables and accounts payable and other current liabilities, their carrying values reasonably approximate their fair values at year end.

The following methods and assumptions were used to estimate the fair value of each class of financial instrument for which it is practicable to estimate such value.

Cash and Cash Equivalents, Receivables and Accounts Payable and Other Current Liabilities. Due to the short-term nature of transactions, the fair values of these instruments approximate the carrying amounts as of financial reporting date.

Rental and Utility Deposits. The fair values of these instruments are computed based on the present value of future cash flows discounted using the prevailing BVAL reference rates ranging from 1.61% to 4.97% and 5.71% to 6.08% as at June 30, 2021 and 2020, respectively that are specific to the tenor of the instruments' cash flows at the end of the reporting period.

Equity Instruments at FVOCI. The fair values of publicly-traded equity instruments designated at FVOCI, classified under Level 1, are determined by reference to market bid quotes as at financial reporting date. The fair values of unquoted shares under are determined using valuation techniques with inputs and assumptions that are based on market observable data and conditions. Such techniques include using recent arm's-length market transactions; reference to the current market value of another instrument which is substantially the same.

Interest-bearing Loans and Borrowings. The estimated fair value is based on the discounted value of future cash flows using the prevailing credit adjusted risk-free rates that are adjusted for credit spread. Interest rates used in discounting cash flows was 5.68% as of June 30, 2021 and ranged from 5.68% to 7.89% as at June 30, 2020.

Refundable Deposits. The fair values of the refundable deposits are computed based on the present value of future cash flows discounted using the prevailing BVAL reference rates ranging from 1.26% to 2.66% and 1.51% to 2.34% as at June 30, 2021 and 2020, respectively adjusted for 2% credit spread rate that are specific to the tenor of the instruments' cash flows at the end of the reporting period.

In June 30, 2021 and 2020, there were no transfers between Level 1 and 2 fair value measurements, and no transfers into and out of Level 3 fair value measurements.

This year's report focuses on the Group's commitment to provide a bright future to its students even with the unforeseen and unparalleled disruptions faced by educational institutions. Moreover, this report has been prepared in accordance with the Global Reporting Initiative (GRI) Standards:

Core Option, covering the periods of April 1, 2020 to June 30, 2020 and July 1, 2020 to June 30, 2021.

The Group adjusted the school calendar of STI schools nationwide to align its academic cycle with the calendars of public colleges and universities as well as other private Higher Education Institutions (HEIs) not only in the Philippines but in the ASEAN region as well. In line with this, STI Holdings, STI ESG, STI WNU, and iACADEMY adopted a new accounting period from a fiscal year beginning April 1 of each year and ending on March 31 of the following year to a fiscal year beginning July 1 of each year and ending on June 30 of the following year.

Both the Philippine Securities and Exchange Commission (SEC) and the Bureau of Internal Revenue (BIR) approved the change in the accounting period.

There is no restatement of the information contained in this Sustainability Report despite the Group's adoption of a new accounting period. The disclosures in this report do not cover franchise schools and include only STI ESG branches and subsidiaries, STI WNU, and iACADEMY, unless otherwise stated.

MESSAGE FROM THE CHAIRMAN AND THE PRESIDENT

Dear Fellow Stakeholders,

In March 2020, STI Holdings and its subsidiaries saw the start of a health crisis that continues to grip not just the nation but the rest of the world.

The COVID-19 pandemic consequently and quickly changed the educational landscape in the country. With this backdrop, STI Holdings and its subsidiaries (the Group) assessed the sustainability topics that would be material to their stakeholders. The Group likewise measured its performance to establish its contribution to the United Nations Sustainability Development Goals (SDGs) during the reporting period.

The Group's quick and effective adaptation to the significant changes in its operations serves as a testament to its pursuit of innovation in the field of education over the years. School Year 2020-2021 witnessed the Group reinforce its commitment to nation-building by delivering quality education to its network of more than 70,000 students while prioritizing the welfare of the Group's 2,200-strong workforce. It has thus contributed to the achievement of priority SDGs such as Quality Education and Good Health and Well-being, among others. It had invested in online learning platforms as early as six years ago, a move which proved to be instrumental in ensuring a seamless transition to a fully remote mode of learning. Recognizing the unprecedented challenges experienced by the Filipino youth and their families, it also forged partnerships and launched programs to provide students

with digital connectivity assistance, counseling services, and financial aid. The Group also reached out to other stakeholders, including parents and guardians, whose vital role in the attainment of students' academic and life goals is even more pronounced today.

Understanding that the educational institutions will be required to be agile as events surrounding the global pandemic continue to develop, the schools have established initiatives that aim to address the varying needs of their communities. The Group offered not only learning tools and materials but also programs or activities celebrating community milestones, providing academic or wellness-related support, and creating environmental awareness for online platforms. Students participated in various online competitions and faculty members presented research papers virtually as well. The Group harnessed industry partnerships to provide new courses that are relevant to today's increasingly digital economy. It also worked with various organizations to pave the way for students to make positive social contributions and maintained membership with notable associations.

The evolving nature of the pandemic paints a demanding year ahead but we believe that the future is bright and that we must continue moving forward. We are pleased to see that the youth appear to be embracing this same outlook with early enrollment figures for the new school

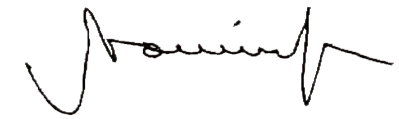

year already reaching more than 83,000 students, indicating a robust increase of 18% compared to 70,223 in SY 2020-2021. Furthermore, enrollment in programs regulated by the Commission on Higher Education is registering an impressive 41% increase compared to enrollment in SY 2020-2021 at more than 56,000 students which is notably even better than pre-pandemic levels.

Though the future is never certain, we hope for a gradual transition to a "new normal" — a flexible blended learning mode that is a mix of online and face-to-face classes and hands-on learning activities — in the coming years. Until then, we will persist in the path of innovation to continually deliver relevant education that emboldens the youth to become truly productive and compassionate members of society.

COVID-19 RESPONSE

In a move to contain the Coronavirus Disease 2019 (COVID-19) outbreak, the National Capital Region and other parts of the country were subjected to stringent social distancing measures, including but not limited to suspension of classes, prohibition of mass gatherings, and imposition of community quarantine, among others. The present COVID-19 pandemic has brought challenges and has affected the global economy. Measures to mitigate its impact have resulted in a global economic recession, travel restrictions, and loss of jobs, among others.

Similarly, the COVID-19 pandemic has affected the education sector. Educational institutions have suspended face-to-face classes to contain the spread of the virus and reduce infections. As such, the Group enhanced its online learning platforms to ensure continued learning during the pandemic.

SUSPENSION AND CLOSURE OF SCHOOLS

In September 2020, STI ESG announced the suspension of the operations of some of its owned schools namely: STI Cebu, STI Iloilo, STI Quezon Avenue, and STI Tuguegarao for SY 2020-2021, and cessation of the operations of STI Pagadian effective SY 2020-2021. Similarly, STI ESG announced the cessation of operations of some of its franchised schools, namely: STI College Bohol, Inc. (STI Bohol), STI College Recto, Inc. (STI Recto), Sungold Technologies, Inc. (STI Zamboanga), STI College Pasay, Inc. (STI Pasay), STI College Dipolog, Inc. (STI Dipolog), STI College San Francisco, Inc. (STI San Francisco), and suspension of operations of STI College Parañaque, Inc. (STI Parañaque) effective SY 2020-2021. STI ESG determined that continuing the operations of these schools was no longer viable due to low enrollment turnout and/or the high cost of rental of facilities.

As at June 30, 2021, STI ESG has a network of 64 schools comprising of 60 colleges and 4 education centers. Of the total, STI ESG owns 35 schools while franchisees operate 29 schools.

The students enrolled in the aforementioned schools were given the option to transfer to other STI ESG schools. The suspension and cessation of operations of the schools mentioned above have no material financial impact to the Group.

ENROLLMENT

Private schools reported a dip in enrollment for SY 2020-2021 due to the impact of the COVID-19 pandemic. A survey conducted by STI ESG disclosed that a number of students did not pursue education for SY 2020-2021 because of the financial difficulties experienced by their respective families/benefactors during the year.

Despite this, the Group registered an enrollment of over 70,000 students in SY 2020-2021.

CONTINUITY OF EDUCATION AMIDST COMMUNITY QUARANTINE

For SY 2019-2020, the school calendars of STI ESG and STI WNU for SHS and tertiary students covered the months of June 2019 to March 2020 and July 2019 to April 2020, respectively. With the imposition of the Enhanced Community Quarantine (ECQ) throughout Luzon, classes in all levels were suspended on March 17, 2020. Classes of SHS students of STI ESG and STI WNU were completed by the end of March 2020 while classes in the tertiary level were suspended in all campuses nationwide to ensure the safety and welfare of the students.

The tertiary students were given three options to finish the second semester of SY 2019-2020, namely: (1) online learning where those who are willing to and can go online may finish all their lessons via the eLearning Management System (eLMS); (2) offline learning for those who are willing to continue and finish all their lessons but cannot go online, in which case handouts were provided to the students; or (3) face-to-face for those who cannot go online and opt to wait until STI ESG and STI WNU could resume classes under the “new normal” operations with face-to-face classes

combined with applicable learning modes. Classes of students who opted for online and offline studies resumed in the third week of May 2020 and were completed as at July 30, 2020, while those who opted for face-to-face classes, later took their classes online and completed the same during the first term of SY 2020-2021.

For iACADEMY, the school calendars for SY 2019-2020 of SHS and tertiary enrollees were originally set from August 2019 to May 2020 and July 2019 to June 2020, respectively. Classes for SHS and tertiary students were suspended due to the implementation of the ECQ in March 2020. SHS modular classes of those who opted for online and offline studies resumed on April 15, 2020 and were completed on June 5, 2020 for Grade 12 students and June 11, 2020 for Grade 11 students. For tertiary, online classes resumed on April 15, 2020 and the school year was completed on July 15, 2020.

For SY 2020-2021, classes for both SHS and tertiary students under the STI network started in September 2020, while classes for SHS and tertiary students of iACADEMY started on August 24, 2020 and August 28, 2020, respectively. Face-to-face classes remain suspended and thus the Group has continued to conduct classes online as of June 30, 2021.

IMPLEMENTATION OF FULL REMOTE LEARNING

STI ESG and STI WNU introduced the ONline and ONsite Education at STI (ONE STI) Learning Model while iACADEMY introduced the Guided Online Autonomous Learning (GOAL) in SY 2020-2021 as these institutions transitioned to full online learning. These models use digital tools and online technology combined with invaluable hands-on practice and onsite engagements to achieve the students' academic objectives through a responsive learning experience. In this setup, all activities or modules are delivered 100% online through eLearning Management System (eLMS), Google Meet, and/or Microsoft Teams.

The Group employs eLMS, a world-class and award-winning learning management system used by schools and universities across the globe. This cloud-based eLearning tool gives teachers and students a two-way platform where they can collaborate, assign and submit homework, take assessments, and track learning progress, among others. The concept of online learning is not new to the Group, as the schools in the network have already implemented a blended learning model for the past six years. This model allows the students to continue their studies at home uninterrupted despite physical classroom disruptions.

Moreover, STI ESG and STI WNU provided internet connectivity assistance to the students through a monthly data plan of up to 34GB to help them get connected with their online classes.

HEALTH AND SAFETY PROTOCOLS

In the continuous battle against the coronavirus disease, the Group strongly prioritizes the health and safety of the students, faculty members, other school personnel, and visitors in the campus. The Group complies with the health and safety protocols mandated by the Inter-Agency Task Force for the Management of Emerging Infectious Diseases (IATF), Department of Health (DOH), Commission on Higher Education (CHED), Department of Education (DepEd), and other local government agencies.

The following measures to mitigate transmission of COVID-19 were implemented to protect the health and safety of students, faculty, and other personnel:

- Implementation of flexible learning model
- Regular disinfection of facilities
- Provision of sanitizers/alcohol within the premises
- Deployment only of skeleton workforce in the schools and offices
- Implementation of work-from-home arrangements to the furthest extent possible
- Wearing of face shield/face mask at all times
- Regular temperature check before entering the office/school premises and during office hours
- Launch of communication campaign about the institution's health and campus safety protocols and information dissemination on COVID-19 facts through social media
- Issuance of operations advisories regarding COVID-19
- Use of the StaySafe application or contact tracing form to track entry of employees or guests into the school and/or the office
- Close monitoring of employees who have been vaccinated
- Provision of designated holding area for those who are unwell or suspected with COVID-19

GRI 413-1

COMMUNITY SERVICES

The STI ESG community demonstrated the *Bayanihan* spirit as the students, faculty members, and school personnel all worked together to extend a helping hand to their respective communities during this time of a global pandemic. Activities such as face mask donations to local government units, food provision for frontliners, distribution of hygiene kits, and setting up of community pantries, among others were organized by various STI campuses nationwide. STI College Ortigas-Cainta also opened its dormitory facilities and provided daily meals to the healthcare workers of Cainta Municipal Hospital, while some STI students and school personnel volunteered as frontliners in their communities.

STUDENT FINANCIAL AID PROGRAMS

As part of the Group's ongoing efforts to support more Filipino youth in gaining access to quality education amid the unprecedented situation caused by the economic impact of the COVID-19 pandemic, the Group partnered with banks and other institutions and provided rebates and discounts to students through different programs including the following:

LandBank ACADEME Program

LandBank approved a PhP250.0 million Term Loan/Rediscounting Line Facility on July 22, 2020, under its Academic Development to Empower the Masses towards Endless Opportunities (ACADEME) Lending Program in favor of STI ESG. The ACADEME Lending Program provides credit support to private high schools, private technical and vocational education training institutions, as well as Higher Education Institutions (HEIs) such as colleges and universities, to aid students, through their parents or benefactors, in continuing their education, under a "study now, pay later" program.

The school can borrow up to 70% of the sub-promissory notes on a per semester basis, and subject further to a maximum amount based on

the school's net borrowing capacity, with a very low fixed interest rate of 3% per annum that is payable up to the maturity of the sub-promissory notes, but not to exceed a period of three years.

Under the LandBank-STI Student Loan Program, incoming and existing college students for SY 2020-2021 were able to borrow up to PhP15,000 per term, which was credited directly to the STI campus they were enrolled in. The loan amount defrayed the cost of tuition and other school fees for a given term. To further ease the financial burden of the students, STI ESG absorbed the 3% interest rate, thus making the student loan program available to the students at no interest and with easy application process.

PAG-IBIG – STI Educational Assistance Program

STI ESG and STI WNU strengthened their partnership with Pag-IBIG Fund to ensure that students from all walks of life will have the opportunity to receive quality education. Through the Pag-IBIG – STI Educational Assistance Program, Pag-IBIG Loyalty and Loyalty Plus cardholders, and their qualified dependents within the second degree of

consanguinity and/or affinity, availed of a 10% partial scholarship grant on tuition fees (excluding miscellaneous and other school fees). Furthermore, an additional 10% scholarship grant was offered to student applicants during SY 2020-2021. Qualified applicants were entitled to an aggregate of 20% scholarship grant on tuition fees in any STI campus nationwide.

DBP RISE

STI ESG executed a memorandum of agreement with the Development Bank of the Philippines (DBP) on March 17, 2021 for the implementation of the DBP Resources for Inclusive and Sustainable Education Program (DBP RISE). The program grants financial assistance to deserving students from the ranks of underprivileged Filipino families who aspire to pursue studies in DBP-accredited public and private tertiary schools. DBP RISE covers: (1) the total cost of tuition fees for all year levels of the entire course or program based on the partner school's tuition fee structure which is determined at the beginning of

the first term of the course or program for SY 2020-2021, and (2) student support fund which covers other school fees, miscellaneous fees, and living allowance that will be determined and set by DBP.

Reduction of Other School Fees and/or Miscellaneous Fee

As part of STI ESG and STI WNU's continuous efforts to further support the students and parents in relation to the impact of the COVID-19 pandemic, select students enrolled in certain programs enjoyed a refund and/or a tuition fee credit. Both reduced the laboratory fees by up to 35% and other school or miscellaneous fees of both tertiary and senior high school students for SY 2020-2021. iACADEMY gave discounts

of as much as 31% and 6% on its regular Other School Fees and Tuition Fees, respectively, for Senior High School students, resulting in a considerable (10%) reduction on their total fees in SY 2020-2021. For the same cause, iACADEMY also gave 50% and 33% discounts on its regular Laboratory Fees and Other School Fees, respectively, for college students.

EXPECTED IMPACT OF COVID-19 PANDEMIC ON FUTURE OPERATIONS

As the health crisis continues to unfold, the Group continues to strengthen its digital learning delivery as a response to the changing educational landscape. Fortunately, the Group has been at the forefront of education over the years, as it started to explore online education in 2015 with senior high school students and in 2017 with tertiary students. The Group likewise continues to nurture and develop a strong Academics team that keeps a keen eye out on the latest trends in the workforce and skills that would be needed in the future and that will mold critical-thinking graduates who are competent and responsible members of society. The Group remains persistent

in taking steps to be at the forefront of this global shift in the educational landscape.

The Group expects that the IATF, CHED, and DepEd will continue to implement measures mitigating the varied effects of the pandemic as deemed necessary. The Group recognizes that the nature of the pandemic continues to evolve and will cause economic disruptions and other consequences. In this light, the Group will continue to prioritize the health and well-being of its students, employees, and other personnel as it pursues innovative and efficient ways to ensure the delivery of quality education.

SYSTEM-WIDE DEVELOPMENT

The educational entities in the Group endeavor to transform lives through education, empower the students to reach their full potential, provide opportunities for social inclusion, and look forward to a society where individuals can use their abilities, experience, and talents to make a positive difference.

QUALITY AND AFFORDABLE EDUCATION

The Group firmly believes that education is the best investment that a student can make for his or her future and therefore remains committed to providing quality and affordable education to its students, so that they can be competitive in the global economy. The Group has delivered the following contributions for SY 2020-2021:

The Group offers tuition installment plans to facilitate a more affordable payment scheme. Also, to ensure that more Filipino youth have access to quality education, the Group provides scholarship grants to academically deserving students, siblings of existing students, dependents of employees and/or alumni, and varsity players, among others. CURRICULUM DEVELOPMENT AND IMPLEMENTATION

The Group stays true to its commitment of providing the students with real-life education by strengthening its curriculum and equipping the students with the right knowledge and training. The Group likewise remains responsive to the industry's changes and trends learned through regular market studies and frequent discussions with industry partners. Programs are also constantly reviewed and updated to meet the government regulatory requirements.

To further streamline its program curricula, STI ESG adopts a centralized courseware development process and ensures the standard

delivery of courses across its network of campuses. The standardized curriculum and courseware materials lead to economies of scale for schools within the STI ESG network, including STI WNU, as a single course could reach thousands of students.

For SY 2020-2021, STI ESG updated the courseware materials to suit the online modality and, at the same time, ensured that the materials are also Outcome-Based Education (OBE)-aligned with assessment tools, rubric, and performance tasks. The Group has likewise sustained its thrust to strengthen ties with leaders in different industries and global brands like Huawei, SAP, Junior Achievement Philippines, Gatossoft, Amadeus,

Rajah Travel Corporation, Linux Professional Institute, Python Institute, Dolby Atmos, Avid, Alibaba Business School, and other companies. These industry partners share the Group's vision of infusing learning content and in-demand trends and technology from the industry, and blending such with the online classes, training programs, workshops, seminars for students and faculty members, and online on-the-job trainings of students nationwide.

The establishment, operation, administration, and management of schools within the Group are subject to the existing laws, rules, and regulations, policies, and standards of appropriate regulatory bodies – DepEd, TESDA, and CHED.

Meanwhile, the school facilities of the Group are provided with access for persons with disabilities (PWD) and learners with special needs.
